LONDON 1st Augst 1745

Sir

In Conformity to the foregoing Copy of my last I do now forward to yo^r Honour the Order of Council for dismissing M^r Clarkes Petition for an Appeal in the Cause lately depending between him & M^r Towsey wherein I had orders to appear in behalf of the Colony, You have also herewith Copy of the Brief given the Attorney & Solicitor Generall & M^r Sharpe's bill of charges amounting to £105.15 one moiety of which I have charg'd to the Colony in their Acco^{tt} here also inclos'd the Ballance of w^{ch} I make to be £4.15.9 remaining in my hands having given credit for £69 receivd of the Executors of Francis Wilks Esq^r w^{ch} summ appears to be due to the Colony by their Acco^{tt} now transmitted to your honour.

I have at present only to add that as the principal Defect in your late Intestate Law and for w^{ch} it was repeald seems to have been the vesting a power of Distributing Real Estates in the Judge of Probates, I should recommend the making another Law varying in that part of it w^{ch} from what I can collect of the Sentiments of the Lords of the Council would be approv'd of here & might prevent any more Appeals in Cases of this Nature. I am Sir

S^r

I rec^d Yours of July the 5th 1745 and I am now to acquaint you That our Assembly (w^{ch} finished the last night) in coming to a Conclusion to furnish the Garrison att Louisburg with 350 men to abide there till the first of June next unless his Maj^{ty's} pleasure be sooner known, so that they may be dischargd, 200 of w^{ch} to be made up of them w^{ch} are there, and 150 to be raisd and sent to be commanded by three field Officers &c. did Resolve That if your Gov^t would joyn them with an 150 men or more That you should appoint a Maj^r to the Regiment.

I desire therefore, you would lett me know your mind seasonably ab^t that matter that I may conduct my self accordingly in appointing our Officers: in the formar Management I gave a Commission to the Lieu^t Gen^l and Gov^r Shirley gave a Comⁿ to our Maj^r Gen^l the like doubtless will be proper for us with respect to this Regiment if you see meet to unite our forces into one Regiment.

I can only inform you That I have at present the Custody of the Counterfeit Plates &c but the men have broke the Goal are fled and as yet not recovered.

I must also ask the favour of your Hon^r That in Case M^r Robinson should bring forward his Reviews or either of them against me or Esq^r Brenton That it might not be pushd forward before M^r Hall my brother can come thither. I have been and still am likely to be so engagd in this publick Affair that I cannot possibly be personally present at your Court and much incumberd in furnishing out M^r Hall, and the Cases are of considerable Consequence to me, and as I know the Case to be honest on my side so I

understand it to be even universally rec^d among you. be sure I honestly bargaind and paid my money more than forty years ago. and for want of fair dealings in the matter I thot my self necessitated to resign up one third part of my purchase*

WILLIAM SHIRLEY TO JONATHAN LAW.

BOSTON Augst 1. 1745*Sir*

By the Letters I received from General Pepperrell and Commodore Warren since my last to you, they Acquaint me that it will require little less than four thousand men to Garrison the City and Fortresses of Louisburg, & that great Numbers of the Soldiers now are desirous to return home, and insist upon it as a Condition of their Enlisting; & therefore the said gentlemen urge hard that the Colonies should raise Recruits for the Relief of those whose Circumstances do plead for their Discharge from the Service. I must therefore desire your Honour would forward the 300 Recruits your Government have voted to raise, and if you could obtain a greater Number it would be of great Advantage, & your Colony will be at little Charge, the Pay and Subsistence being the proper Charge of the Crown.

By the Attempts the Indians have made upon us and the Acts of Hostility they have Committed against us, I expect, I shall soon be Obliged to declare War against them; Therefore at the Request of the Council & House of Representatives of this Province I do hereby signify their & my Desire of the Concurrence & Assistance of your Government in prosecuting the War in Case it should be declared against the said Indians, by furnishing your Quota of men, as well for the Defence of the Frontiers as for the Annoyance of the Enemy

I am Sir

Your Honour's Obedient

Humble Servant,

W SHIRLEY

The hon^{ble} JONATHAN LAW Esq^r[Indorsed] Gov Shirley August 1st 1745

ANDREW BURR TO JONATHAN LAW.

Hon^d S^r

I wrote to y^r Hon^r by Cap^t Church & trust you have Rec^d my Letter with some account of the Circumstances of the army. those that Came first in the Expedition are many of them bare foot and very poorly Clothed and very uneasy of being detain'd so long after the Expedition (which they suppose) is over.

The Government have not been so Good as to send any Live stock Nor any Clothing shoes or stockings Tho I wrote to Col^o Saltonstall one of the Com-misaries that those things were very Needfull even upon the first Motion that was Made for more men to Recruit us here. the other Government have Continually sent fresh provisions for their soldiers, & now tho there is sheep fowls &c to be sold in y^e Harbour we have not money to buy and those y^t have Give very dear.

I Cannot acquaint you as yet what Number of forces must be kept here over the winter and the General will not do any thing about that Matter till Gov^r Sherly Comes down here who is hourly Expected

I have been Obliged to Hire two vessels to Carry those men that were poorly & unfit for service to New England & have agreed to Give forty shillings old Tenour p man for only Transporting of them, which I Trust the Govern^t will freely pay, because three of our Largest vessels were Taken into y^e Kings service y^e twenty fourth of June Last—and the Charge of keeping the men here would Quikly Run out that money. Cap^t Talcott saild with about sixty of Cap^t Prentices men & of our soldiers, y^e Commodore not willing Cap^t Prentice should be Released, so that we now have but one vessel here beside Cap^t Prentice—The ships here have Taken two East India ships

supposed to be worth two hundred thousand pounds sterling Each, and one south sea ship worth four hundred thousand pounds besides a ship laden with wine & Brandy all in sight of the Harbour without y^e Loss of a man—And altho' y^e Land forces should Get none of it yet we Must Look upon it as a smile of Divine Providence upon us for at y^e same time that it strengthens and Enriches y^e English Nation it weakens our Enemies the french. I may further Add that y^e Letters Taken in y^e East India ships Give an account that Commodore Bernet hath Taken five of y^e french ships in y^e East Indies & also that y^e south sea ship Gave an account that in y^e Latitude of forty three two more of y^e south sea ships were Taken by two English ships whether they were men of war or Privateers is yet uncertain those two ships they say were Bigger of them Richer than this & this ship Received several shot from them & had some men wounded which was y^e Reason of her Coming here, upon the whole I think I may say that y^e french King never met with so Great a blow in so short a time from such a small army & fleet. It seems as tho' the Heavens fought for us and against our Enemies. Not unto us but to the Almighty be y^e Glory & the victory. So wishing health & Prosperity to your Hon^{or} your Lady & family—I am with assurance y^e Hon^{or} Obedient

JONATHAN LAW TO ANDREW BURR.

NEW HAVEN Aug^m: 8th: 1745S^r

I have had the favour of Yours of the 3^d of the last month and Gov^r Shirley pressing very hard for my Sending the 300 Augmentation troops, which had been agreed upon with this Caution that if by authentick Acc^t it Should appear to me before their embarkation not to be necessary that I Should Disband them, and having had the Joyfull News of the reduction of Louisbourg, Delay was put to the enlistment of the men who were to be enlisted on the Same Encouragement that others had been, and on his information that 3000 were necessary to garrison the place and our Quota of that Number was 800, I Called the Council and had the Advice of the Dep^t Gov^r, but it being the opinion of the Council that I could not proceed on the former Act of the Assembly Could not Advise me to call an Assembly and tho't it was proper for me to move to You to inform me what number of our forces may be willing to abide there for Some time, that the Assembly may Consider whether it amounts to Such A Number or more than they Shall Judge to be Such A Quota as they Shall think proper for them to Support there, and to Supply with more if any Shall be wanting and also let me Know whether more provisions Shall be necessary for the Support of our troops which may Abide there, I Observe the provisions made by the Massachusetts was for three months. in haste I Subscribe

THOMAS CORBETT TO WILLIAM PEPPERRELL.

ADMIRALTY OFFICE 8th Aug^t 1745.

Sir

I have Received and Communicated to my Lords Commissioners of the Admiralty your Letter of the 28th June, giving an Account of the Reduction of Louisbourg and the Territories Adjacent with a Copy of the Terms of Capitulation, and am Comanded by their Lordships to Congratulate You on the Success of His Majesty's Arms in that Expedition, and particularly on the Part You have had in it, the Prudence and Zeal with which Commodore Warren has Acted is highly to be commended. And the Happy Harmony which has Subsisted between You, without which Enterprizes of War are seld[] Prosperous, has greatly contributed to your Success

The Ministry here are highly Sensible of the Value of this Acquisition which is of so much importance to the Trade of his Majesty's Subjects in North America And have already Ordered two Regiments from Gibraltar to be Carried to Louisbourg in Transports provided here for that Purpose under a proper Convoy, and will, I make no doubt, effectually Support this New Conquest, and Reward the Valour of the Officers & others concerned in it equal to their Merits, to whom M^r Warren has done Justice in his Letters, And I heartily wish you the Satisfaction of Seeing this Important Place well Secured to the Crown of England And that the Trade of the Colonies of America may flourish in the Advantages they will Receive thereby.

I am with great Regard

S^r Your Most humble Servant

PROCEEDINGS OF COMMISSIONERS OF INDIAN AFFAIRS.

At a meeting of the Commissioners of Indian affairs at Albany the 9th August 1745.

Ten Mohawk and Tuskaroro Sachims having been to Canada among others of the Six Nations to Treat with the Governour of that place Returned from thence and bring the following account of what passed there with the Governour.

They Say

That the Onondages without Consulting the other Six Nations renewed the Covenant they had formerly made with the Governour of Canada and did also frequently Conferr with the ffrrench Governour in private but what then Passed or was Transacted they were Ignorant of.

That the Governour told them that the ffrrench had taken an English Vessell and found Letters on Board which gave an Account that the English designed to take Canada and when they were Masters of that Country that then they intended to destroy the Six Nations.

That when they had been four days at Montreal they heard some Indians Cry out as they usually do when they come from ffigthing which they Expected were some Indians from the Southward who had been fighting to the Southw^d ag^t the Cattabaws but looking out they were told that some Orondax Indians had two Scalps of Englishmen which Surprized them very much and immediately the Governour Sent for them and informed them that he had sent out a party of three Caghnawages three Mehawenidies and three Orondax to go as far as the head of the Otter Creek to see whether the English were building any ffortifications there And that without his Knowledge thirty Orondax were gone after them and had killed

two Englishmen They Say that the Governour Seemed very Angry and told them that he had not given any Orders to his Indians to Kill any White people in New England but had told the party he sent out to take a prisoner for Intelligence if they could Conveniently do it That the Governour of Canada turned the Orondax away and would not Suffer them to come into his House.

That the Governour told them that the Road should always be Open for them whatever might happen between Him and the New England people.

They Say that the Account of the Surrender of Louisburgh was brought to Montreal while they were there And that a few days after and Express came from Quebeck who was but one Night by the Way to inform the Governour that two or three fisher Boats was come up the River to Quebek and brought an Account that they had seen two English Men of Warr in the river S^t Lawrence which they Supposed to be part of a fleet coming to take Quebeck that upon this News the Governour of Quebeck went down immediately from Montreal with 1000 Men and left Orders for half of the Militia to follow him. They Say that they have been informed that three of the Missesqueek Indians were gone to New England to take a prisoner. That Sconondo a Sachim of Caghnawage told them the day that the News of the Surrender of Cape Breton came to Montreal that the Caghnawages were determined to assist their father the Gov^r of Canada under whose protection they live against all Attempts which Shall be made against Him.

That the Onondage Sachims told the Governour of Canada that they Expected that he would in no wise Molest Oswego that if he did perhaps their

Affections would turn against him that the french Should think them Selves well off to have two fforts along the same Lake with which they ought to be Satisfied.

That they asked the Governour of Canada about the English People who were taken prisoners at the back of Pensilvania And that the Governour of Canada Answed them that he had not heard any thing of it.

That the Caghnawages have promised the Governour of Canada to Send 100 Men to the Assistance of Quebeck.

That the Governour of Canada did not give them presents so large as usual giving fer Reason that the English had blocked up the River so that their Vessells could not get in.

At a Meeting of the Commissioners of Indian affairs at Albany the 12th August 1745.

The Interpreter informed this Board that a Trusty Mohawk Indian who came from Canada informed him that when they were there the Governour told them as follows —

Children.

You gave the English Liberty at first to build a Trading House at Oswego but instead thereof they built a Strong House and afterwards they have Surrounded it with a Stone Wall and mounted Cannon thereon which they have done only to destroy you That when they go to Murder you, you cant fly to me for protection but to Stop you there and kill you, you Escaped Destruction very Narrowly last Winter when the English designed to Murder you.

Children

I Expect the English will Certainly attack me and therefore in order to defend my Self against them I

have given the Hatchet to all the Indians under my protection against the English who have all of them taken it up and promised to defend me against the English to the utmost of their power And I have Sent for all the upper Nations to come down here near me to assist me as I have Occasion for them I have Just now told you that the English design to Destroy all your Nations and that you are on the very brink of Destruction Wherefore out of the tender regard I have for you I desire you will come and live in my Country where I will Receive you with open Arms And now I desire that you will take up the Hatchet against the English to assist me against them. Then he laid down a large black belt of Wampum with the figure of a Hatchet in it.

Our Indians Answered the Governour that they would take the Belt of Wampum with them and Consider of it at Onondago in a full Council of the Six Nations and then give him their Answer.

The said Indian also informed the Interpreter That the Caghnawages took up the Hatchet against the English at Montreal in the presence of the Sachims of the Six Nations then those and afterwards the Caghnawages desired our Mohawks to Join with them in the War against the English and gave them a Belt of Wampum to Carry home to their Castle to Consider of it And then to Send them their Answer.

[Indorsed] Will^m Pitkins Letter Augst 10th 1745

DUKE OF NEWCASTLE TO WILLIAM PEPPERRELL,

WHITEHALL August 10th 1745.

Sir,

I Received on the 20th of Last Month, by Cap^t Montagu, your and M^r Warren's joint Letter of the 18th of June; with the Agreeable News of the Reduction of the Fort, and the Town of Louisbourg and of the Territory thereto belonging, to His Majesty's obedience. And I had by the Same Conveyance your Separate Letter of the same Date. On the 28th Cap^t Geary arrived and brought me your Letter of June 28th and yours and M^r Warren's joint Letter of July 4th with Duplicates of your former Dispatches. I laid them all immediately before the Lords Justices, who had the Greatest Joy in an Event, which does so much Honour to His Majestys Arms, and may be Attended with such Happy Consequences to the Trade and Commerce of His Maj^{ty}'s Subjects: And their Exc^{ies} recommended it to me, in a perticular manner, to Assure you of the Sense they have of your Pru-

dence Courage, and Conduct, which Contributed so greatly to the Success of the Enterprize. As I Lost no Time in transmitting Copies of your Dispatches to my Lord Harrington, at Hanover, to be laid before the King, I have now the pleasure to Acquaint you, That the News of the Reduction of Louisbourg was receiv'd by his Majesty with the highest Satisfaction; which the King has Commanded Should be Signify'd to all the Commanders and other Officers, both of Land & Sea who were Instrumental therein: In Consequence of which I am to desire you would Acquaint the Officers, under your Command with His Majesty's most gracious Approbation of their Service, upon this Occasion. It is a great Satisfaction to me to Acquaint you, that His Majesty has thought fit to distinguish, in a particular manner the Commanders in Chief in this Expedition by Conferring on you the Dignity of a Baronet of Great Brittain (upon which I beg Leave most Sincerely to Congratulate you) and of giving a Flag to M^r Warren. The Lords Justices have thought proper to Recommend M^r Warren to His Majesty to be appointed Governour of Louisbourg, and his Commission for that purpose will be Sent to him, by the first opportunity. The Lords Justices had under their Consideration, what Orders might be necessary to be immediately given, for Securing this important Conquest And as you and M^r Warren have represented the Necessity of Establishing a Garrison of Regular Troops there. Their Excies have ordered Two Regiments to be Sent thither immediately from Gibraltar; and as orders were dispatched to Gibraltar, on the 27th past to hold the Regiments in Readiness to Embark for Cape Breton immediately upon the Arrival of the Transports from hence. We hope they may Arrive at Louisbourg in good Time.

Their Exćies have not yet received His Majestys pleasure with Regard to the Establishing One or more Regiments of the New England Forces now at Louisbourg, as proposed by You & M^r Warren; But no time will be Lost in Settling that Affair; And I shall be able to Acquaint you, when I have the next opportunity of writing, with what shall have been determined therein: In the mean Time you may be Assured, That in this Consideration, the greatest Regard will be had to establish a sufficient Force, for the defence of this Important Place, which will give An Opportunity to distinguish your Merit & Signal Services: And also that of those Gentlemen Under your Command, who have behaved so well in the Service of their King & Country.

Their Exćies have given directions for the Ammunition & Stores mentioned in the Inclosed List (which was delivered by Cap^t Geary) to be immediately provided, by the Office of Ordnance, & Sent to Louisbourg with the Utmost Expedition.

Besides the Stores mentioned on Cap^t Geary's List there will be * * * * *

NEW YORK INDIAN COMMISSIONERS TO GEORGE CLINTON.

ALBANY y^e 12. August 1745

May it Please your Excellency

We have received your Excellencies Letter of the 31st July with a Paragraph of Governour Shirleys Letter there inclosed and have Considered of the Same, when we rec^d your Excellencies Letter we had already Sent two Indians to the Northward to Enquire who

were the Authors of this Murder, and they brought us an Autentick Account that it was Committed by some of the Orondax, We have formerly mentioned to your Excellency and we daily Expected Some Mohawks Indians from Canada and Resolved to Waite their Arrivall before We Sent our Interpreter to the Six Nations about the Said Murder Committed in new England The Mohawks returned Last Fryday and we Examined them Concerning what passed between the Indians of the Six Nations and the French Governour, When they Informed Us of Sudry Particulars the Minutes Whereof of the 9th Instant, We Send here inclosed but they were either afraid or Ashamed to tell us the Truth, Since which our Interpreter has Sounded a Trusty Man of the Mohawks in Private who Informed him of What we believe has Actually past at Canada, the Contents of which is Contained in the Inclosed Minutes of this date, Your Excellency will thereby perceive that the Canada Indians Have all taking Up the Hatchet against the English, So that There is now an End of the Neutrality with the Indians and we must expect to be Attacked by them As soon as they conviently Can, but what is Still worse is That the French Governour is about Setting our Indians against Us Which it Seems he has made the Chief point At this Meeting and has actually offered them the Hatchet against us which they have Not refused but Told him they would Consider of it at Onondage and then give him their Answer, So that our Indians are It Seems almost gained by the French to their Interest and if the most Effectual and Speedy Care be not taken, we must Expect to have them Our Enemies, as our Indians Seem to be in so Wavering a Scituation, we Have not thought proper to Send our Interpreter Up about the Mur-

der in New England as judgeing he would meet with no Success, We hope Your Excellency will Approve of our Management herein we think it Absolutely necessary That Your Excellency Should Come up here as soon as possible to meet the Six Nations and it would be proper in our Opinion That Comm^{rs} of the Massachusetts bay be then Also present To Endeavour to take Some new Measures with the Six Nations and if it be then thought proper, To prevail upon them To take up the Hatchet against the French If this be not done, the French will Leave Nothing Unessayed to make them our Enemies in which they have already made too great progress. The French have so great a Number of Indians in their Interest as makes our Indians fearfull to offend them, Especially as we do not Provide for their Safety and Defence. As affairs are at Present in this Critical Posture It is absolutely necessary that the Assembly Enable Your Excellency to make more than Ordinary presents in Order to which they Should likewise Consider that the price of Goods is greatly Advanced and that it will be Necessary that the Warriours be Called down here as well as the Sachims upon this Occasion.

We hope That the Assembly will at Least resolve to raise Money for a Fort At the Carrying Place and to keep a proper Number of Men there For Outscouts to protect our Frontiers in Some Measure against the Enemy If this be not done That the Outscouts can have a Rendez Vous It is impossible to keep any Parties Out so that our Country must then Lie exposed to the Enemy Even to the Gates of this City.

The £300 allowed Us for Outscouts is Not only expended but Considerably Exceeded.

As soon as Your Excellency resolves to Come Up

here It will be necessary that we are Acquainted therewith That we may Send up the Interpreter to call down the Indians to meet Your Excellency here at the day Appointed.

We think it both necessary and just that the provinces of Virginia Maryland and Pensilvania Should likewise Send Deputies here with presents to Attend at this Meeting, for this Affair Concerns all the Provinces in an Especial Manner.

We are with the greatest Respect

May It please your Excellency

BOSTON Augst. 14. 1745

Sir,

At the Desire of his Majesty's Council & upon a Representation made by Lieutenant General Pepperrell in his Letter of the 6th Instant by a Vessel just Arrived here, of the Necessity of Recruits for the Garrison at Louisburg & the Danger of its falling into the Enemy's hands without them, I must earnestly

request of your Honour that you would promote the raising as many men in your Colony as may be & that as soon as possible.

I shall do all in my power to have the Number of Recruits Voted for by Our Assembly (which was one thousand and whereof about seven hundred are already gone) fully made up and sent forward without delay.

By the express Boat now arrived from Louisburg, We have certain Intelligence that besides the first India Man taken by Commodore Warren's Squadron (of which we were advised last week) they have taken another India Man richly laden and a South Sea man with £400 000 Sterling in money besides a valuable Cargo of Merchandise, all which were taken in Sight of the Garrison; so that it is Judged the Value of the Captures made on that Coast by his Majesty's Ships is near One Million Sterling (If not more) Which it is probable would never have fallen into Our hands, if this Expedition had not been Attempted.

CONNECTICUT'S ADDRESS TO THE KING

TO y^e KING'S MOST EXCELLENT MAJESTY*May it Please your Majesty*

Your Dutifull and Loyall Subjects y^e Gov^r and Company of your English Collony of Connecticut in New England Most humbly begg leave to Represent, That the Provinces of y^e Massechusetts Bay and New-Hamshire, many of whose Inhabitants formerly used y^e fishing Trade, being Since y^e French warr greatly Injured in y^t business, and perticularly by y^e french at Cape Breton, proposed an Expedition Against your Majesties Enemies on Cape Breton and parts adjacent, for y^e Reduction of y^e same to your Majesties Obedience, And thereupon Your Majesties Province y^e Massachusetts Bay, Invited this and y^e more western Colony or Colonys Together with y^e Colony of Road-Island to Joyn therein; Whereupon this Your Majesties Colony of Connecticut though as Little Interested in this Affaire as perhaps any of y^e more Western Plantations, Who Sent no men into y^e Expedition This Colony not Having for many Years past so much as one Vessell Employed in y^e fishery there, Yet greatly Resenting y^e Treatment of Your Majestys Subjects at Canso mett with from y^e French y^e Last Year, the Attempts made upon Annapolis Royall y^e Threatnings given out of further attacks thereon y^e Present year, and y^e preparations we were Informed were making for y^t purpose, Aprehensive also of what great Advantage it might be to y^e British Crown and to Your Majestys Provinces and Colonys in North America in Generall, and for y^e protection and defence of Neva Scotia in Perticular to Subdue Your Majestys Enemies Annoying these parts, Esteeming it also a Singular Pleasure to Serve

your Majesties Interest and promote y^e Common good and Safety of Your Subjects in Such an Important Point. Wee Your Majestys Loyall and Dutifull Subjects with great Chearfullness Undertook and Joyned with y^e Neighbouring Colonys in y^e proposed Expedition and carryed on y^e same with utmost Dispatch in which this Colony was Second to none but y^e Province of y^e Massachusets Bay To whose wealth Trade, numbers and Extent This Colony bares but a very Small proportion, for may it Please Your Majesty, This Small Colony, both in Extent and Trade, and poor in Estate having Little or no Advantage to Raise money but by Taxes on y^e People, Raised at first five hundred Voluntiers Effective men for y^e Land Service and one Hundred for y^e Sea on Board y^e Colony Guard Sloop, which was y^e Only Vessell of force y^e Colony had, Equipped, Victualled Transported and Maintained the Same in Your Majestys Service in this Important Expedition, Which forces in Conjunction with upward of three Thousand Land forces from y^e Provinces of y^e Massachusets Bay and New-Hampshire, one Sloop with about ninty men from Road Island, Together with a Squadron of Your Majestys Ships of warr under y^e Command of y^e Hon^{ble} Peter Warren Esq Commadore of y^e Same with a number of Smaller Vessels of force from y^e Massachusets On y^e 16th day of June Last after forty nine dayes Close Seige Compelled y^e enemy upon a Capitulation to Surrender, the Terms whereof we Conclude Your Majesty is Informed and Accordingly y^e City and fortresses of Louisbourg with y^e Territories thereon Dependant were surrendered up to your Majesty with all their Artillery and Warlike Stores for y^e use and Defence of y^e Same but before y^s happy Conquest, this Colony. further Moved by its former

principles, raised provided for and Sent into y^e Same Service Two hundred able Effective Voluntiers more besides Offices, who Arrived there Soon after y^e Surrendery of y^e Place, And Again before we had News of y^e Surrendery, this Colony, Under all y^e heavy burthens it then Laboured Least for want of mere force an Expedition of Such great Importance should happen to faill, further Resolved and gave out Com-missiens for y^e raising three hundred Volunteers more for y^e Augmentation of y^e former Troops Raised for this Service, which Last the Agreeable news of y^e Surrendery of y^e Place Coming Soon after y^e Com-missiens were Out did not Inlist, And to y^e End this Great and Important Acquisition may be Maintained, this Colony humbly Depending on your Majestyes Royall goodness have now Resolved to Raise and Support for y^e Keeping Your Majestys Garrison thus Lately Acquired y^e Number of three Hundred and fifty men untill y^e first of June Next Unless Your Majestys Royall pleasure be Sooner known; Where-upon wee humbly beg leave to Observe y^t this Colony in Raising y^e Severall Volunteers before Mentioned Judged it Necessary to Give greater Encouragments to y^e people whose Interest in y^e Consequencies of this Expedition was not so Immediatly Affected to Inlist into this Service than y^e Other Governments more immediately Interested there in had Occasion to give, And that by this Great and Expensive Under-taking we have Expended About twenty Thousand pounds New Engla^d Currency Which in addition to y^e Expence Occasioned in y^e year 1740 by y^e warr with Spain and to a very Considerable Expence this Colony is at in Assisting y^e Massachusets in defending their Frontiers has Runn this Colony Extreamply into Debt and Reduced it to a very Low Ebb.

Most Gracious Sovereign having given Your Majesty a Short and very Generall Account of our proceedings, and y^e happy success Attending this Expedition and having this great occasion of Rejoyceing Wee most humbly beg Leave to Congratulate Your Majesty in y^e Most Agreeable news of this Enlargements of your Dominions by y^e Reduction of this so Important City, and fortresses of Louisbourg on Cape Breton with y^e Territories y^{on} depending to Your Majestys Obedience that your Majesty is new possessed of a Strong hold (once your enemies) Which seems to be y^e Key of North America y^e Building of which Cost y^e french King an Immense Summ, that by means of this Success, a powerfull Seige, which has this year been Laid against Annapalis Royall has as we are Informed been Raised and y^t by means thereof as we have great Reason to hope, Your Majestys Province of Nova-Scotia and other Neighbouring Provinces will for y^e future be in great measure freed from y^e Annoyance of y^e French and their barbarous Allies so very Troublesome in these parts:

Will Your Majesty be pleased therefore to suffer this Small Colony labouring under poverty and deeply in Debt to hope for and most humbly to Request your Royall favour and Bounty toward us in Granting us Relief under y^e heavy Charge which we have Expended, in Exerting our Selves in this Important Service wherein we Conceive we have all Circumstances Considered done more than Our Proportion with our Neighbours, And wee beg Leave Humbly to Assure your Majesty y^t we shall with all Thankfulness Accept and Acknowledge Any favour Your Majesty in Your great goodness shall think proper to Manifest: Will your Majesty be pleased further to permitt us humbly to Recommend to your Royall

Consideration & favour y^e Officers and Souldiers who have Voluntarily Served their King in this Expedition Going Through Incredible Labours and Fatigues in Errecting Batteries, One of which they Advanced within about two Hundred yards of the City walls: firing nine or Ten Thousand Great Shott and Shells and Small Shott without number and Receiving the Enemies Shott near Equall, and in drawing of Gunns (Some forty two pounders) in all which y^e officers and Souldiers from Connecticut whose Loyalty & Resolution is Inferior to none bore their full share, Notwithstanding all which these Officers and Souldiers (who would have been Entituled to y^e plunder if Taken) Rec^d no benefitt thereof, the same by Capitulation being given up and y^e City and forts with their Artillery Saved and Surrendered to Your Majesty; Whereas y^e officers and Souldiers at Sea both before and Since y^e Surrendry, Have had Great and Valuable Prizes fallen into their hands even within sight of y^e City walls, perticularly Since y^e Surrendry Two french East India ships Richly Laden and one South Sea Ship, Which we have advice had on board four hundred thousand pounds Sterlin in money, besides a valuable Cargo in goods; And it is Supposed y^t y^e Captures there Ammount to a Million Sterling or more Which it is probable would never have fallen into y^e hands of your Majestys Subjects if this Expedition had not been Undertaken.

We Have presumed to Send Your Majesty a Roll of y^e Officers from Connecticut and most Humbly pray Your Majesties Most Gracious Acceptance Audience and favour:

May Your Majesties Reign be long and prosperous Your Arms Victorious, the Acquisitions obtained to your Dominions Continued And wee admitted y^e

Pleasure and Satisfaction to Account and Subscribe

NEW YORK } ss

This 16th day of August Anno 1745.

Examined Peter Moore who declareth that Bastian
Killet and John Ryan came to him some time in
March last at Bermudas and after some time drinking
with them he told them he was going a privateering
they told him he need not for that they would
furnish him with money and that he should be worth
£1000 in a few days gave him some p^s 8/8 and
some Doubleoons to pass that they had at least 3000
 p^s of 8/8 and 50 Doubloons which they passed in the
Island and left him with very little money After his
Arrival here he met Killet who told him he now
should be worth the money he told him of at

Bermudas and bid him get a Chafen dish with Coals and a Bellows he then took a piece of Chalk and pounded it to Dust having made it moist and with a Mill Dollar made the impression in the Chalk mixing some Copper and Brass which they melted and Cast in less than an Hour about 150 Φ^s of 8/8 which he Glazed over with Quick Silver and gave the said Moore ten of them which he passed before he wrote to the Governour to Apprehend them. They being gone out of Town and Moore having no money he fell to making of Φ^s of 8/8 of pewter in the manner Killet had shown him; By what they told Moore one of them is gone to Brunswick and the other to Albany That Killets Father lives between New London and Boston is a Brazier and a Noted Man in that Country and when he parted with him last he had a large purse with Doubleoons which he had made but with what Composition he Cannot tell but did promise to lead him into the Secret. This was a day before he waited upon the Governour.

Bastian Killet a young Man full faced fair Complexion middle Stature wears a light Wigg a Red laced Jacket a blue Coat and sometimes a Callico Banyan

John Ryan about five feet ten Inches high a fair full faced Man about forty years of Age Wears some times a light Wigg and sometimes a black one, wears a black Waist Coat & Breeches of Velvet and a blue Coat lined with Red.

Sworn to before STEPHEN BAYARD Mayor of the City of New York.

Sir,

The State of Affairs between this Governm^t & the Eastern Indians being in such a Situation as to make it necessary for the better Security of his Majestys Subjects on the Frontiers exposed to their Fury, to declare War against them, unless by their speedy Compliance with the Demands of the Governm^t they should prevent it; I do now at the Desire of the General Court of this Province in their late Session, hereby inform your Honour of our Proceedings with the said Indians in order to prevent a War, & the Unsuccessfulness thereof, as you will find by the inclosed Copy of a Letter from Gov^r Shirley to the said Indians, and another Letter from him to Capt^a Bradbury Commander of the Fort at S^t Georges River, directing him to demand Satisfaction of them for the Murders committed upon our Inhabitants by some of their People joining with the other Indians, & their burning their Houses, killing their Cattle &c^a with Cpt. Bradbury's Answer to the last mentioned Letter.

And as the common Cause requires the mutual Assistance of these Governm^{ts} in time of War & Danger, We desire the Concurrence & Assistance of your Governm^t for prosecuting a War against these Indians when it shall be declared, & furnishing a Quota of Men for the Defence of the Frontiers in this & the other exposed Colonies; And altho' some of these Colonies are not much or at all exposed to the Assaults of the Indians, yet as the others are a Barrier to them, they must judge it highly reasonable that they should send Succours to the most exposed Places, and especially as we are all equally obliged to this Duty as Subjects of the same Prince; and which his Majesty will justly expect from all his Colonies in these Parts.

I rec^d Yours of July the 5th 1745 and I am now to acquaint you; That our Assembly (which finished the last Night) coming to a Conclusion to furnish the Garrison att Louisburg with 350 men to abide there till the first of June next unless his Maj^{ties} pleasure be sooner known, so that they may be Discharg^d 200 of which are to be made up of them which are there and a Hundred and fifty to be raised and sent, to be Commanded by three Field Officers &c: did Resolve

That if your Gov^t would joyn them with 150 Men or more That you should appoint a Maj^r to the Regiment. I Désire therefore, you would let me know your mind Seasonably about that matter, that I may Conduct my self accordingly in appointing our Officers: in the former management, I gave a Commission to the Lieu^t Gen^l and Gov^r Shirley gave a Commission to our Maj^r Gen^l the like doubtless will be proper for us with respect to this Regiment if you see meet to unite our forces into one Regiment.

I can only inform you That I have at present the Custody of the Counterfeit Plates &c but the men have Broke the Goal are fled and as yet not recover^d.

I must ask the favour of your Hon^r That in Case M^r Robinson should bring forward his Reviews or either of them against me or Esq^r Brenton That it might not be push^d forward before Brother Hall can Come thither: I have been and still am likely to be so engaged in this Publick Affair that I cannot possibly be personally present at your Court and much incumberd in furnishing out M^r Hall, and the Cases are of Considerable Consequence to me and I know the Case to be honest on my side so I understand it to be even universally rec^d among you, be sure I honestly bargaind and paid my Money more than Fourty Years agone and for want of fair dealings in the matter I thought myself necessitated to Resign up one third part of my purchase.

I take this oportunity to Congratulate your Hon^r on the Reduction of Louisbourg and Territory thereon Depending to His Majesties obedience an Acquisition so beneficiall to the Nation and makes such an Addition to the Kings Dominion that it will Doubtless be very favorably Accepted by him and Intitule those that have done the service to His Majestes favor in Which I hope you will have a Deep share

The Imence Weath you have taken from the Enemy by sea before that place will very much Weaken and discourage them and Encourage those men that Shall Share in it

I beg Leave to Inform you that the Gen^l Assembly of this Colony have resolved to suport that Garason with 350 Efective men untill the first of June Next unless His Majestis pleasure bee sooner known This number they have thought is their full quota with the other Governments Concerned With us in the Expedition and they are to be made up of the two Companys Last sent and of such of those that were first Enlisted that are willing to stay the Remainder to be speedily sent from Home

you will readily see that this Leads me to Call home with the Greatest speed the officers and soldiers of the first Enlisting that are unwilling to stay that I may know and send from home what shall be wanting of our quota before Winter which will be Now soon Advancing

*Although the drafts of both this and the next following letter are in the handwriting of Deputy Governor Roger Wolcott they were probably sent as official communications from Governor Jonathan Law. See Law's letter of even date to Andrew Burr.

And Judging this to be best for His Majestes Enterest and due in Justice to those men that had a promise to return when the Expedition was Done I have Accordingly sent an order to Coll^o Bur to return back in the Connecticut Transports and under the Convoy of Cap^t prentice such officers and soldiers of the first Enlisting as are un Willing to stay This I signify to you that you may not think This Government Intends to faill in a Just proportion with other Governments to Defend that Garason and that we are pursuing it in the best manner to the Kings Interest and Justice that have born the fatigue of this Long and Memorable seige I am

GEORGE CLINTON TO JONATHAN LAW.

NEW YORK August 24th 1745.

Sir.

By the Copys of the Letter from the Comissioners of Indian Affairs at Albany, And their Minutes of the 9th and 12th Instant, herewith Inclosed; You will Judge what a Wavering and fickle Disposition, the united Nations of Indians, in League with the Respective British Colonies on the Continent, are at length brought to, through the Indefatigable Industry, and delusive Artifices and Intrigues of the ffrench, And will thence Conclude, how much it Imports these Respective Governments, to unite their fforce and Councils, in Order to defeat their distructive Schemes. The ffrench of Canada, from the late Success of the British Arms, in the Conquest of the Island of Breton, no doubt are become Apprehensive, that wee have Views of penetrating farther into their Country, (as I hope the Case may be) And makeing them Still more Sensible of British Resentm^t; as no Acquisition could be of Such Infinite advantage to these Colonies, it must therefore be a Matter, wee have all most warmly at heart, And the ffrench most Terrible Ideas of: It behoves them therefore to Exert their profoundest Policies and Craft, in pursuing, at all adventures, Such

Measures as may be most likely to frustrate any such Attempts, and divert that Torrent which they may imagine seems Ready to overwhelm them; And as a Main Expedient to ward off the impending Danger, It Seems probable the french have made the Strongest Efforts to induce our Indians to a Revolt; and indeed they Seem to have made too great Condescension towards it, by Accepting from the Governor of Canada Belts of Wampum, Containing the figure of a Hatchet, Signifying, amongst these People a Declaration of Warr; upon Condition only, of Carrying them to their Respective Castles to deliberate upon, before they give their decisive Answer. Since matters are brought to this Crisis, I Could not hesitate one Moment about Communicating this Intelligence to the Governours of the Respective Colonies, Concerned in the Issue of an Affair of Such Great Concernment; and at the Same time Informing them of the Steps I am takeing, in order to Retain these United Nations in their fidelity to his Majesty and firm to their Engagements entered into by their Several Treatys Concluded and so Often Renewed and Confirmed, between them and the Governours of the Respective British Colonies: To this End, I have Appointed the fourth day of October next, for a meeting and Conference with them; and have thought it Necessary (as the Value of Indian Goods is Exceedingly enhanced) to be provided with £1000, which is upwards of the Value of two years usual presents, as the most perswasive means, to Restore them to perfect good Temper, and Reestablish them in a firm Attachment to us; insomuch, as to Engage them (if possible) to Joyn heartily with us in an Offensive prosecution of the Warr, Whenever it Shall become necessary. These are my Views, which I Shall use my utmost Endeavour

to Attain; to the Accomplishment whereof, the presence of Deputys from your Governm^t, at the same time, furnished with the like means, (as it seems absolute necessary, so) will, no doubt, very much Contribute. Wherefore as Soon as I was enabled and determined to give the Indians this Interview, (though at a season I should not have fixed upon but through necessity,) imediately notified it to you, in full perswasion that you will endeavour to Comply with whatever may be thought proper, and Expedient to be done by your Government, in this Matter, at this Critical Conjunction.

WILLIAM SHIRLEY TO JONATHAN LAW.

LOUISBOURG Aug^t 30th 1745

Sir,

His Majesty's Service upon several Accounts requiring my Presence here a few Weeks for securing our new Acquisition 'till his Majesty shall have an Opportunity of taking it into his own Protection, I set sail in his Majesty's Ship Hector, from Nantasket, on Saturday night was three Weeks, and arrived here on Fryday Evening was se'n night, where I have been endeavouring in the best manner I can to settle the State of the Land Forces, and to act for the Interest of the common Cause of the Colonies concerned in the Expedition in every Respect: concerning which I

must refer you for a more particular Account to Col: Burr, who now carries home upwards of Ninety of the Soldiers, in the pay of your Government. Upon looking into the State of the Massachusetts and Connecticut Troops, I find it to stand thus, The Massachusetts Government sent into the Service of the Expedition, upon the first Enlistment, including the Train of Artillery, and Workmen, thirty three hundred men, of which twelve hundred and thirty eight are returned home, ninety five are killed, and fifty seven dyed natural Deaths, so that of those Soldiers these remain here Nineteen hundred and twelve, since which Enlistment the Massachusetts Government have voted a thousand Men more to be raised for the Service, of which about seven hundred are actually raised and arrived at Louisbourg, so that there are in the whole, twenty six hundred Massachusetts Troops now upon Duty, within the Garrison and Batteries here, and the remaining three hundred are now raising with the utmost Dispatch to compleat the last thousand, and relieve some more of the Massachusetts Troops

Your Government, Sir, sent hither upon the first Enlistment, five hundred Soldiers, of which three hundred and one, including the Ninety One now sent by Col. Burr, are returned home, four have dyed natural Deaths, and none have been killed, so that of those five hundred, One hundred & ninety five are now remaining here, since which first Enlistment Two hundred more Troops have been raised and sent hither from your Government, and three hundred and Ninety two Connecticut Troops, in the whole, are now upon Duty within this Garrison and Batteries here, besides which your Government have voted three hundred more to be raised.

By this Account your Honour will perceive that the Quota of your Government, in proportion to that of the Massachusetts Bay, according to the several Levies raised and voted to be raised by each Government, for the Service of the Expedition. is as One thousand to four thousand & three hundred, and how much larger a proportion of the Connecticut Troops of the first Enlistment have been dismissed than of those of the Massachusetts Government upon the same Enlistment, and how much larger a part of the Quota of the Massachusetts Troops raised, & voted to be raised, is upon Duty here than of the Quota of your Government; upon which I doubt not but your Honour will observe my own and the General's Disposition to do full Justice to the Troops of your Government, and that you will, without the least Delay, proceed to compleat the Levies last voted to be raised by your Assembly, and that your Government will continue to act in concert with that of the Massachusetts Bay, with the same Vigour, at least, that you have hitherto done for the common Cause.

The Preservation of this invaluable Acquisition 'till his Majesty can have an Opportunity of taking it into his Protection, upon which I esteem the prosperity of New England chiefly depends, is as necessary as the Reduction of the place it self or even more so; for it would have been better for us not to have reduced it, than to lose it again to the Enemy; and as from the Engagements of his Majesty in Europe, in support of the common Cause against the Enemy, it seems very possible that no Troops may arrive from Great Britain for the protection of this place, 'till the latter End of May or beginning of June, before which Time we must expect the Enemy will push both from Canada and France, in the most vigorous Manner, for

the Recovery of it from us, if they don't do it before the End of this Fall (which is not impossible) it behooves us to keep the strictest Guard at present; and for my own part I shall look upon the place as lost, if when that happens, whilst the Land Side of this Fortress is under the same Circumstances it is now in, we have not four thousand men at least, for the Defence of the Fortifications and Batteries, the former of which are so extensive that no Sallies can be expected to be made against the Besiegers, whilst they are carrying on their Works against the Town with a less number, and without doing which We have had sufficient Experience of the fatal Consequences of it to the Enemy; and it shall be my utmost Endeavour to procure that Complement of Troops for this Service by the middle of March at furthest, and keep as strong a Garrison here in the mean Time against all Events, as I can: For I depend upon some sudden Attempt to surprize us, at least by a large Body of French and Indians from Canada, supported by an Embarkation of Artillery, Warlike Stores, and provisions from France, to meet them here, with some few Troops from thence, and a Number of Officers about that Time: And as I think it not improbable that S^t John's Island, will be the place of Rendevous for the Enemy, in such Case, and in all Attempts from Canada, and a place of Resort for the neighbouring Indians, I shall take Measures, immediately for clearing that Island of the French (who have sent Deputies hither with offers to take the Oaths of Allegiance to his Majesty, and a petition that they may be permitted to remain there as Subjects of Great Britain) and to burn all the Houses and other Buildings, w^{ch} will require a Body of three or four hundred Troops, and two armd Vessells, at

least, to do it without Danger of being surprized by the Enemy.

Col. Burr will inform you of the Necessity of providing proper Cloaths of all Kinds, and some Watch Coats for your Troops with the utmost Expedition, and twelve months provisions, being the same Quantity voted to be provided for the Troops of the Massachusetts.

I am endeavouring to have the Works put into the best Repairs, they will admit of at present, Materials for that purpose being Ordered to be bought, for that purpose, by the Massachusetts Committee of War, and the Workmen to be paid; and to get the Barracks and Houses well fitted up, for the comfortable Reception of the Soldiers, and a Quantity of Fuel Sufficient not only for the Winter, but to last in the Spring against any Surprize.

Upon the first Arrival of his Majesty's Commands from Great Britain, you shall be apprized of them; And I shall during my Stay here do every Thing in my power for the common Service; as I shall upon my Return to Boston, which I design shall be in about three Weeks, and I doubt not of your Governments acting, in Conjunction with that of the Massachusetts Bay, with the same Spirit for his majesty's Service and the Interest of New England, with which it has hitherto done; and if my good Offices may be at any time of Service to the Colony of Connecticut, I shall most readily employ them.

I am wth great Respect Sir,

Your Honour's Obed^t

Humble fervant

W SHIRLEY

Col. Burr will inform you of the Intelligence we have had of an Armament of French Ships being

bound hither, and the Commodore's keeping his Heavy Sheeps in this Harbour on that acct.

I herewith send you an Address to y^e Duke of New Castle humbly asking his favour particularly in presenting to his Maj^{ty} an Address of the Gov^r and Company of this Colony on this happy Occasion of the Reduction of the City and fortresses of Louisburg and Territories y^r unto belonging to the Obedience of his Maj^{ty} of great Britain in w^{ch} they were engagd in Conjunction with some of the neighbouring Provinces and some of his Maj^{ties} Shippes of Warr for the Defence whereof we have agreed to furnish 350 men till the first of June next if his Maj^{ty}s Pleasure be not sooner known.

I have Acc^{ts} from y^e Gov^r of N. York from Canada via Albany That the Gov^r of Canady has prevaild with all Canada Indians to take up the Hatchett against us and with the six Nations to take it into Consideration, who have carryd with them the Belt of Wampom with the figure of an Hatchett in it and are to give him their Answer att a Gen^l Council att Onandago. Gov^r Clinton has appointed a Meeting att Albany on y^e 4th of Octob^r and askd for Com^{rs} from several other Gov^{ts} to assist him in endeavouring to recall them from the Revolt they are so strongly solicited to. at the last Meeting they could be perswaded no further than to engage in a Neutrality. Com^{rs} are here appointed for that Congress.

The Massathusetts have proclaimd Warr against y^e Canada Indians the Penobscutts Norrigiwalks and from y^r most Western Blockhouse near Hooseck to Crown point. 'tis to be feard we shall be much involv'd our Dependance is only on him who has shown us his Salvation

I also herewith send you a Copsy of my Letter of Nov^{br} 1744 wth which I sent you y^e Judgment proceedings and pleas in Masons Case by Cap^t Craigg, who was taken and retaken and carryd into Gernsey or Jersy y^e same day your last Letter I rec^d bore Date hope they might come safe to your hands notwithstanding that Misfortune yet propose by y^e next Opportunity to send you another Copy of y^e Com^{rs} Book &c w^{ch} is almost finished.

Yours of the 14th July 1744 together with the worthy D^r Averies and y^e Advice of the Com^{tee} w^{ch} I gratefully acknowledge and am very thankfull for, I communicated it to our Assembly, what of Heat y^r might have been is much abated and hope we are become temperate.

LOUISBOURG Sept^r the 13th 1745

Honourable Sir

Your favour of the 21st of Last month I Receiv'd
and Return you my hearty thanks for your kind

Expressions and do assure you that in all Representations to His Majesty in behalf of the Army, I have made no difference in any Colony that had Troops in the Expedition, neither did I in the Ordering any Duty to them, For as I was placed at the Head of them I Endeavoured as much as in me lay, to assign each Regiment their proportionable part of Duty, and I Can truly say I have a great Value for all those brave Men, who Freely Ventured their Lives with me for the Honour of His Majestys Arms and the good of our Nation, and do Think They are entituled to His Majesty's Favour, and I hope our Country will not forget us.

I Observe what you are pleas'd to Mention of the Resolve of your Government to Support the Garrison here with Three hundred and fifty Effective men; should have been glad if they had Continued the first number they Raised.

Last Week we had brought into this port, by a Cruizing Sloop, belonging to the Massachusetts Bay, a Ship bound from South Carolina to London, who was taken by Seven Sail of French Men of War, bound here, to raise our Siege, which they ordered here and by that means, we retook her, They give a further Account that there was six more sail Coming From Brest to Joyn them. We are getting in good Readiness to receive them if they Come here, but we are in great Fear they will attack Annapolis Royal, if should hear of that, Commodore Warren will immediately take all the Ships to go to their Assistance, and we must then Assist them with some men from the Troops ashore, for a small Time and in as much as the Number of Effective men from your Colony will not exceed Three hundred and fifty Cannot Think it was your intent to let them Leave this Garrison untill

you Send a Number to Supply their places, neither Can I think it adviseable at this Time, but as soon as the Number, your Colony has Voted arrives, these will be Discharg'd. Cannot be determin'd at present about Cap^t Prentice because His Excellency Governour Shirley don't know but his Majesty's 'special Service will require his being detain'd here Longer. LOUISBOURG September 14th: 1745

Sir

I have the honour of your obliging favour, Dated the 21st August, and am very glad to find your Assembly so well Spirited, for supporting this Glorious Conquest, which will in all human probability be the greatest blessing that cou'd have befallen our Collonys, and even our Mother Country, as it will be the means under God of securing to our Posterity on the Continent, all their Civil and Religious Rights, and of encreasing greatly their Trade, and that of Great Britain in general.

As to your Quota of Troops for the support of this Garrison, in conjunction with the other Collonys, who have with a most becoming Zeal carry'd on with so much success this great expedition, I must beg to be excus'd from giving my opinion, being no Judge

of it, and having no thing to do with the conduct of the Troops, then to wish them allways well; you will no doubt be better inform'd on that head, by their Commanding Officer here, but I am so very anxious for the security of an acquisition that I am perswaded is the greatest that cou'd have been added to his Majesty's Dominions in general, and to those on the continent in particular, that I hope the Collonys who deserve the highest favour from their King and Country, will continue to support this Conquest, till an ample provision can be made for its security by his Majesty, who will no doubt reimburse the Collonys the extraordinary expence they have been, and may be at.

Nothing in my power shall be wanting to Solicit their service, and indeed I look upon my self as an American, and hope to pass the remainder of my days in New York with great Tranquility, and in the esteem of those whose service led me upon this expedition.

I beg you will do me the favour to assure your Legislature, that on my arrival in England, I will please God represent to His Majesty the Love & Loyalty of his American Subjects, then whom tis my Sincere opinion, he has none that he may more securely rely on.

I am with great regard Sir

Y^r Most Obedient humble Servant

As I expect to leave these Seas Ere long you'l please to address for the return of Captain Prentice, and on any future service to the Commanding Officer of this Garrison, The greatest danger of it I apprehend will be from the latter end of February, 'till

May, or June, and to be sure 'till that time, or till succours arrive from England, the Collonys shou'd not keep less then four, or five thousand Men, to support it,

Hon^{ble} Sir,

Yours I Rec^d by M^r Butler, & have sent it
forward by a Sloop bound to White haven in the
North west part of England, the safest passage by
much of any to England without a Convoy, which
there is not likely to be a great while, I would have
Sent it to London, but it is or Judged much more
dangerous, a Post goes every week from White haven
to London, I have heard nothing from M^r Kilby, in
his last he assured me he was & should be doing all
he could in M^s New Bury's affair, if your Packet be
of Consequence it will be best to send a duplicate as
soon as you can, I shall soon send it, if it be under

RHODE ISLAND ACT.

At a General Assembly of his Majesty's Colony of Rhode Island & Providence Plantations in New England held by Adjournment at Newport within and for the Colony aforesaid on the fourth Tuesday in September being the Twenty fourth Day

of said Month, in the Nineteenth Year of his Majesty's Reign George the Second King of Great Britain &c Annoq. Dom. 1745.

Whereas the General Assembly of this Colony did take into Consideration several Letters received from the Hon^{ble} Jonathan Law Esq Governour of the Colony of Connecticut respecting some Counterfeit Plates for impressing Bills in Imitation of the Bills of Publick Credit of this Colony, and the Persons concerned therein, requesting a Reward to Those who made a discovery thereof, And as our Bills of Publick Credit pass in the other Governments in New England equal to those emitted by said Governments, and They having penal Laws for punishing Persons counterfeiting the Bills of this Colony in the Same Manner as for counterfeiting their Own. It is therefore the Opinion of this General Assembly, That all Charges arising on prosecuting & Convicting Persons guilty of the aforesaid Crimes, Should be paid by the Government where such Crimes are perpetrated: And thereupon it is voted and resolved, That his Honour the Governour write to the aforesaid Governour Law informing Him of this Result, And that this Government have frequently been at the Expence of prosecuting Offenders that have been accused of Making and uttering Bills of the neighbouring Governments.

*Jeremiah Miller Jr. of New London was appointed in March 1745 commissary and commissary of muster rolls and proceeded with the others on the expedition against Louisburg. He writes from there to Governor Law under date of Aug. 27 asking permission "to depute some capable person to act in my behalf, that I may return for a little respite." This Book is evidence that the "respite" he desired was secured, and letters show that he was in New London during the first week of November. The book as a whole is undated. The earliest date it contains is October 9, which is probably but a short time after Miller gave his power of attorney to Whiting.

Nathan Whiting was born in Windham in 1724, graduated at Yale College, in 1743, and settled in New Haven as a merchant. He joined the expedition against Louisburg as a lieutenant, became acting commissary, as is here shown, and was made a lieutenant in the British army at the close of the campaign. Upon the breaking out of the French war in 1755 he was appointed Lieutenant Colonel of the second regiment of Connecticut troops, and was Colonel of a regiment in each of the subsequent campaigns of the war, 1755-1762. He died in 1771. His portrait, in which he is painted in a red military coat, hangs in the Society's rooms.—*Dexter's Yale Annals*.

I herewith Send your Honour a Copy of a Letter from Coll. Willard Commander of Fort Dummer by which you will find that a Body of French & Indians have Attacked our Western Frontiers. & tis probable that they will not go off till they have done further Mischief. I am extremely Surprized to understand by this Letter as well as by another Hand, that your Soldiers are drawn off from that Frontier & returned Home above a Fortnight ago, And tis not improbable that the Enemy has had Knowledge of this Occurrence and of our Weakness thereby, and so have taken the Advantage of it.

I am sorry that no Information was given me of your Intention to draw off these men, before it was done, that so Our Frontiers might not have been left in so exposed a Condition in the most dangerous Season since the Declaration of War with France; I do now therefore with the Advice of his Majesty's Council of this Province earnestly request of your Honour that your Forces may be sent back without Delay with strict Orders to do every thing possible for the Defence of the Frontiers & Annoyance of the Enemy.

TIMOTHY GREEN TO THE GENERAL ASSEMBLY,

To the Honourable the Governour Council and Representatives in General Court Assembled in New Haven Octob. 10. 1745

The humble Request of Timothy Green Printer to the Governour and Company

May it Please Your Honours,

I having finished the Work devolved on me as Printer for the Colony for another full year there remains due to me a years Salary; for I have not

received any part of it: which I pray may be paid in lawful money. I have three Reasons to offer to support my Request.

I. Because that was the money first agreed on by the Colony with me. The state of the case is thus, Nov. 27. 1707. Gov. Winthrop died. Dec. 7 following the General Court was called together and Chose Gov. Saltonstall. He minding to have this Government furnished with a Printer moved to the Assembly to have one Sent for. in 1708. Application was made to me from the Government to Come and Settle with them and be their Printer. In 1713 I Came up, and a Council was Called at New London who agreed with me to give me fifty pounds per Annum to print all the laws in their Several Sessions they shall hold yearly, all the proclamations, and if the Colony See Cause the Election Sermons, and find Paper; accordingly I have done so every year since the year 1713. But ever since the year 1740, I have received for my Salary but 30 Pounds new Tenor; which falls much short of the Sum the Colony Granted me.

II. Because of the extraordinary Expence I have been at to provide a Set of new Types &c. in hopes your Honours would order the Laws (which are so much wanted to be Printed) to be immediately done.

III. Because of your Honours wonted goodness to others, moves me to lay this Request before you, and pray I might be considered also.

I am

Your Honours humble Servant

TIMOTHY GREEN.

BOSTON October 28. 1745

Sir,

I have received your Honour's Letter of the 19th instant; As to what you are pleased to mention, respecting your Committee & the Power lodged with them, I was a perfect Stranger to the Affair, and therefore I was at no Loss to Judge of the Propriety of my Application to you, as the Head of the Governm^t of Connecticutt in an Affair of that Moment, & more especially as I knew your General Court was then Sitting; And if I had been informed of the Constitution of your Committee, I could have no doubt but that they were subordinate to your Legislature, & that they had put no Power into their Committee's hands but what they could exercise themselves; And Col^o Stoddard (who you say was acquainted with the Affair) being gone out of the Province, I was necessitated to make an immediate Application to your Honour, And after all that you are pleased to Say respecting your Committee, If I had never so much Mind to treat with them, I'm not able, not being yet informed of the Names of one Single Gentleman belonging to them; But I hope Matters of meer Formality will not be used to interrupt the friendly Correspondence that ought to Subsist between your Government and this, and obstruct the Assistance which ought to be given against the Invasions of the Common Enemy. It was thro' the Forgetfulness of One of the Clerks in the Secretary's Office that the Copy mentioned in my Letter was left out, but the Secretary tells me he has since sent it to you; As to the Duke of New Castle's Letter I should have sent you a Copy, but the Secretary in whose hands it lays was restrained from granting any Copies of it but the

Substance of that Letter is contained in the publick Prints.

SAYBROOK Octob^r 30. 1745

May it Please your Honour,

Yours of 28th Ins^t I received, & have weighed the Matter according to the Importance of it, (So far as I could in so short a time;) & find Some things in my affairs very forbidding; partly on account of the broken State of My People & the Itinerants w^{ch} visit our Baptists, partly on account of a tender Constitution w^{ch} cannot endure Cold or any hardships, & partly by reason of the circumstances of my family, which M^r Treat can informe y^r Honour more particularly of. were things so scituate with me, that I could think it my Duty, this is a Method of serving my God & Country, y^t would be peculiarly agreeable

to me. I sincerely thank your Honour for your good opinion of Me, & kindness in giving me the offer of the business: but as the case is with me I must pray your Honour to excuse

Sir

The Bearers departure for Connecticut being very sudden I have barely time to acknowledge the receipt of your Honour's Letter of the 2^d Septem^r last (just come to my hands) accompan^s the Colony's Address to his Majesty on the Reduction of the Important Island and Fortresses of Cape Breton w^{ch} together wth Your Hon^{rs} Letter to the Duke of New Castle shall forthwith be Deliver'd to his Grace whom I shall duely attend to know his Majestys pleasure thereupon & acquaint your Hon^r as Opportunitys may Offer

In my former Letters I inform'd you that the Eldest Son of the Pretender to his Maj^{ty's} Crown was in the Kingdom of Scotland at the head of a Number of Highland Forces who have rebelliously taken up Arms in support of this unnatural Attempt to Dethrone the best of Kings & overthrow the best Constitution now subsisting in the World, Since w^{ch} they have made some further Progress Southward & are still advancing but as their Numbers are very little increas'd there is the greatest reason to believe

they will in a short Time meet the Fate they De-
serve.

MILFORD Nov^{br} 5 1745

May it please your Excellency

By an Act of our Assembly in October last I
am desired to draw and send a Letter to you

acknowledging the favour of yours of y^e 14th of September last Congratulating you upon the Success & Honours conferrd upon you by his Maj^{ty} in Return of your good Services: and also representing to you the Advantages that may accrue to this Colony and the Government of Louisburg by a good Agreement & Correspondency between them: And desiring your Representations to be made in our favour to his Maj^{ty} and Com^{ndation} to your friends at home to use their Interest on our behalf That we may obtain the Reimbursements of our Expences in this Expedition against Cape Breton and due favour to be conferrd on our Officers and Souldiers employed therein for w^{ch} causes these Lines come, and for your further Assurance of our sincere Regards to your Excellency I herewith inclose to you a Proclamation issued on the joyfull Newes of your Conquest of that important place, and the fruits of our Labours consisting chiefly of such things as may be most agreeable to the Circumstances of your people and that its generally more safe and expeditious for us to continue our Course from Cape Cod than to turn ab^t into y^e Northwest, it will be natural for us to alter y^e Centre of our Trade.

S^r I have just now rec^d Advice from our Agent in which he speaks very encouragingly about a Reimbursement of our Expences thô he write on y^e 17th of July before y^e arrival of the wellcome News of the Acquisition

Herewith comes 150 men for Garison Souldiers which together with 200 of those that are wth you the Gov^t have agreed to subsist there till the first of June next unless his Maj^{ties} Pleasure be sooner known, trusting that to such as shall not be wanted you will give Liberty to Return; Transports & Store

shippes are said to have come out for Gibraltar under y^e same Convoy with y^e Shipp for N York in w^{ch} came my Paquett and from Gibraltar to Cape Breton where I pray god make you a great and lasting blessing and Subscribe

ROGER WOLCOTT'S CERTIFICATE.*

COLONY OF CONNECTICUT, WINDSOR SS.

Whereas, the General Assembly of His Majesty's colony of Rhode Island and Providence Plantations, have represented to me, the subscriber, the Deputy

*It appears that complaints against Rhode Island were made to the King, of the backwardness of that colony in sending assistance to the expedition against Cape Breton. Rhode Island hastened to refute these complaints, and in so doing passed the following vote at a meeting of her General Assembly in October 1745.

"Voted and resolved, that Peter Bours, Esq., be, and he is hereby appointed to wait upon the Hon. Roger Wolcott, Esq., deputy governor of the colony of Connecticut, and major general of the forces that reduced Cape Breton, and request of him a certificate of what he knows respecting the conduct of this colony, relating to the expedition against Cape Breton, and more especially as to the service that our colony sloop has been in said expedition." *Records of the Colony of Rhode Island and Providence Plantations, V, 153, 154.*

Governor of the Colony of Connecticut, and major general of the land forces employed in the late expedition against Cape Breton, that their conduct relating to the reduction of that place, hath been misrepresented to the British court, and therefore have applied to me, to declare what I know, relating to the assistance that has been given by their colony; and that justice may be done to that government, according to truth, I certify as follows, viz.:

That the colony of Rhode Island fitted out for the expedition against Cape Breton, their guard sloop, the Tartar, under the command of Capt. Daniel Fones, mounting fourteen carriage and twelve swivel guns; furnished with needful warlike stores, with ninety men on board.

That the colony of Connecticut fitted out their guard sloop the Defence, under the command of Capt. John Prentice, mounting twelve carriage and twelve swivel guns, furnished with warlike stores, and an hundred men on board.

That when the forces from Connecticut were near ready to embark, at New London, it was feared that Capt. Prentice would not be a sufficient guard for our transports; and thereupon, from a motion from the Governor of Connecticut, to the Governor of Rhode Island, Capt. Fones was sent to New London, to join Capt. Prentice, to convoy our forces to Cape Breton.

That our fleet, consisting of two guard sloops, and seven transports, having received on board five hundred men, sent from Connecticut, for the land service, went on our voyage, and off the Cape Sable shore we espied a ship making towards us; and not knowing what she might be, the Tartar went out to speak with her; and upon exchange of some shot, she was found to be a French ship of war, of about

thirty-four guns. Capt. Fones perceiving her to be a vessel of great superiority, led her off from the fleet. She proved to be a very nimble ship; but the Tartar being a prime sailor, and hauling close to the wind, kept her in chase of her all day, and got clear of her at night; so our fleet, without any damage from said French ship, arrived safe at Canso. If this ship had engaged our fleet, it is probable that both the guard sloops would not have been able to withstand her; and if we had had no convoy but Capt. Prentice, it is likely that we should have been ruined by her.

That during the seige, Capt. Fones, Capt. Becket and Capt. Donahue were sent to the Gut of Canso, to prevent the enemy that we expected were coming from the siege of Annapolis, to the relief of Louisburg; accordingly, they met them, and repelled a great number of them; and this, we judged, was the reason that we did not meet them on the island of Cape Breton.

In testimony of the truth of all the above written, I have hereunto set my hand, at Windsor, in said colony of Connecticut, the 15th day of November, Anno Domini 1745

THOMAS DIAMOND'S COMPLAINT.

Province of the Massachusetts Bay

To the Hon^{ble} Spencer Phips Esq^r Lieutenant Governour & Commander in Chief for the Time being of the said Province And the Hon^{ble} Council of the same now Sitting in Boston

The Complaint of Thomas Diamond Master of the Sloop Dolphin Humbly Sheweth.

That your Complainant on the Second Day of Novem^r instant left Cape Breton by Order from the Commodore to proceed to the Gutt of Canso to load Cord Wood for the Use of the Garrison at Louisburg having two Sailors, a french Pilot & ten Soldiers on board for his Assistance; And in prosecuting the Said Voyage at eight a Clock at Night the Wind arose at East & by North making a Storm, & thereupon the Complainant brought the Sloop too within Six Leagues of Canso the Storm continuing for two days, & on the fifth day of Nov^r instant the Complainant stood in to make the Land, And at four a Clock in the Afternoon the Complainant & his Mate being in the Cabbin, the ten Soldiers & two Sailors Shut them up in the Cabbin & would not Suffer them to come upon Deck until they had let out the Sloop's Reefs, & stood to the Westward & Swore

they would not go to Cape Breton again, a List of the Soldiers Names being herewith Exhibited

And on Wednesday last the said Sloop arrived at Newbury where she now lyes. — Your Complainant therefore most humbly prays your Honour's Consideration of the Premises & that what to Justice Appertains may be done therein

And the Complainant shall ever pray

This is to acquaint your Honour that I have just now received Advices that a great Body of French & Indians have fallen upon the Frontiers of the Government of New York, & cut off a Vilage called Sarratogo consisting of about thirty Families; and 'tis expected that they will not go off without attacking our Frontiers; Therefore I must trust that your Government will give us all necessary & seasonable Succour in so dangerous a Crisis: I am also to inform you that a Number of Soldiers belonging to the Governments of New Hampshire & Connecticut were by the Government at Louisbourg sent as a Guard to the Sloop Dolphin Thomas Diamond Master to proceed to the Gut of Canso for Cord Wood for the Garrison at Louisbourg, & that they rose against the Master & Seamen and forced them to New England instead of proceeding on the said Business: A Copy of Diamonds Memorial I now send you. A Case of this Nature happened by reason of the rising of Soldiers raised in this Province against the Master and Seamen of another Sloop, upon which I issued a Proclamation for apprehending the said Soldiers, a Copy whereof I also send you.

S^r,

I Rec^{vd} Yours of Oct^{br} 29, but have had no opportunity to send an answer, and now I have not Liesure. Just now I Rec^{vd} an Express with the Inclosed, and on last fryday night I had a Copy of a Letter from M^r Sergeant of Stockbridge which Saith that that Minute they had an Express from Albany giving them an account that the Tracks of a great number of the Enemy were discovered on this side of Hoosuck, (which I take to be on the South side next to Stockbridge) and that they expected the Enemy every Hour. but no account from whom the Letter came, or how the discovery was made.

my Informations are so uncertain that it^s difficult to determine what measures are necessary to be taken but you having all my Intelligence may possibly as well determine as I can. if the Enemy should make an Attack on our frontiers I fear they will make Sad Havock. you may be sencible that the frontiers are left too Naked by your mens being drawn off unseasonably. and can tell whither Connect^{et} expect that we wholly Protect the frontiers.

PETER WARREN TO JONATHAN LAW.

LOUISBOURG Novem^r 26th 1745*Sir*

His Grace the Duke of New Castle having by his Letter of the 10th August signified to me, that their Excellencys the Lords Justices had been pleas'd to recommend me to his Majesty (then at Hanover) to be appointed Governour of Lewisbourg, and that I may expect my Commission for that Purpose by the next Opportunity; therefore as this Garrison is much weakened, by the return home of several of the New England Forces, and by Sickness, which is common to all Towns that have been for any Time besieg'd tho otherwise very healthy as is the Case of this by all accounts:

And as his Majesty has shewn the highest Satisfaction in the Reduction of this important Garrison to his Obedience, by his American Subjects in Conjunction with a Squadron of his Ships so he has manifested his Royal Intention to protect it against any Attempts that may be made by the French to recover It, by ordering immediately two Reigments from Gibraltar, under a strong Convoy, and several Ordnance, and other Store Ships from England, with all manner of necessarys, proper for the Support of the Troops and Garrison; all which may be dayly expected here, if the Season should not prevent them: in such Case tis probable they may winter in the West Indies, where those Regiments may be disabled by Sickness, and other Disasters, & probably not arrive so early in the Spring, as to prevent any attempt upon us by the Enemy, who I am credibly informd are at this Time in motion at Canada, with a Design to attack us this Winter, or very early in the Spring.

Therefore in order to frustrate all their Designs,

and do every thing that human Prudence can suggest for the Security of this important Acquisition, I hope upon this my Representation the same laudable Zeal, w^{ch} animated you and your Legislature to undertake this Expedition, will induce you to take all proper Measures to preserve an Acquisition of such Consequence to our Country, in General, & to all the Colonys in particular.

The properest Method I can think of to support it, is immediately to raise in your Government as many Men as you can to be here the begining of March at farthest, provided with a Quota of Provisions for their own support, for two, or three Months, least by any means we should be shortned here. Any expence that you may be at upon this Occasion, or any other for the support of this Garrison, I apprehend it in the power of General Peperell, and me, to defray, by Bills of Exchange upon the Government at home, and that you may be clearer in this my Apprehension, I send you the Paragraph of his Grace the Duke of Newcastles Letter that empowers us to draw for the Expences of this Garrison. Whatever Terms you shall make with such Men as you raise for this Service shall be punctually observed and complyd with, whether they chuse to serve the King, for any limited Time, in the American Forces (of whom his Majesty has it under his Royal Consideration to establish one, or more Regiments, for the Encouragement of the Officers, and Men, that have or shall distinguish themselves) or return, or chuse to stay as Inhabitants, and settle here upon such Encouragement, as by his Majesty's Instructions, I shall be hereafter empowered to give.

I am sorry that the Terms of Governour Shirley's Proclamation upon the first Inlestment of the Soldiers

for this Expedition could not be complyd with in the Sence in which many (I dont say with what Colour of Reason) have construd them. the only way to have obviated this Subject of Complaint, would have been (as his Majesty could not immediately take this Place under his own Protection) to have raisd, and sent a fresh body of Men to have releived such of the Troops, as had an Inclination to return home.

The Disapointment the trading People have met with here, has given no one more uneasyness than myself. When the Garrison is put on a regular Footing, a Free Port opened, and a Civil Government established (as I imagine the Case will be, having recommended it in the strongest manner) the Trafick that may be carryed on here, must be of a very considerable advantage to the Neighbouring Collonys.

I take this Opportunity to congratulate you, upon the happy Success Governour Clinton, & the other Commissioners have had in their Negotiations with the six Nations.

Governour Shirley, and I have sent some Captive Indians to consult with those of Nova Scotia, upon the Terms of a Peace that they themselves have proposed, and I dare hope this Step will have a good effect, espetially as I have the Assurances of the Duke of New Castle that proper Presents may be expected from England, for those People.

I cannot conclude without observing that it appears to me to be of the greatest Moment towards securing, and rendering this Acquisition most extensively useful to his Majestys Subjects, that the Gentleman to whom the Government of this Garrison is intrusted, should (at least during the Warr, or till the Country is well Peopled) be an Officer who has the Command at Sea, who would by that means always be sure of

Men as well as Shiping & Materials requisite to annoy the Enemy in their Navigation, to Canada, and I flatter myself It is no unfortunate Event for this Place or the Collonys in General (whose Interest I have greatly at heart) that I am, at this Critical Juncture, appointed to act in both those stations, tho' that of Governour is so disagreeable to me, that I shall use all my Endeavours to be reliev'd as soon as possible

You will do me the Justice to believe that my Zealous Attachment to the Interests of his Majesty, and his American Provinces would alone induce me to promote to the utmost of my Abilitys, every thing I judg'd conducive thereto; be pleas'd nevertheless to observe that I am authorized, in the fullest manner, by his Grace the Duke of New Castles Letter w^{ch} I formerly sent you dated at Whitehall Jan^y 3^d 1744/5 to make this Application to you.

I am with great Regard Sir

JOHN STODDARD TO ROGER WOLCOTT.

NTH HAMPTON Nov^r 27 1745

S^r,

I Rec^{vd} yours of yesterday, and a Letter from the Commissioners at Albany &c a Copy of which I Enclose, they say nothing of part of the Armys turning off for frontiers, and yet notwithstanding, I Believe that part of them did turn off, but I am prone to think that the Indians misjudg'd of their design.

I rather imagine that the Army came by the way of Otter-Creek and left their Canoes near the head of it, and soon after turned toward Surratogo, and that the three Hundred returned back the way that they came to carry back their Canoes to Crown Point, it is probable that if they designed for our frontiers we should have heard something of them before this time.

I perceive that you don't purpose that the men you are Sending Should make any Considerable tarry. I am to seek what service it may be of for men to come Eighty or a hundred Miles and tarry only a few days unles we were confident that the Enemy would come in that time. I am of Opinion that this way of Warring will ruin us. the frontiers must be Strongly Manned and that constantly, they must have no dependance on Succours from any distant places, to be sent after the Enemy are discovered, but must have a number Steadily there for their Defence at least. we must expect no notice ordinarily of the approach of an Enemy but from our Scouts, for the Intercourse between Albany and Canada is now cut off, and we may not depend on having Intelligence from Albany as formerly. if the Government of Connect^t think fit to send a number of men Sufficient to man some of the Block-Houses or to Garrison some of the Forts on Connect^t River, and from them to Maintain good Scouts it may be of good Service Provided you send Officers that can Govern them. but if our frontiers are not better covered than at present I expect that some place will be destroyed before Spring.

I had no design to enter into any dispute whither Connect^t did its proportion or not. but certain it is that their Souldiers were drawn off Suddainly, with-

out such notice that we could Supply their places reasonably. if Connect^{cts} maintaining near sixty men in the Service 8 or 10 weeks (we Subsisting them) be a Proportion to our Maintaining and Subsisting above a thousand men all the Summer, and good part of those men all the year then I must agree with you that they have done their part. but according to my notion of figures, your Charge for the defence of the frontiers for a year past has not been so much as one to Eighty of ours, and it is now likely that we must be at a much greater expence than last year.

I am S^r Your very Humble Servant
JOHN STODDARD

Deputy Gov^{nr} WOOLCOTT.

the Billetting a Souldier at the Block-houses costs almost as much as the wages amounts to, and the pay of sixty men ten weeks is about equal to the pay of Seven men one year. and when you have considered it I am apt to think you won't esteem that your part. J S.

I thought it my Duty to mak known to your Excellency the Report which hath been made known to me by two particular Indians. tho not both together and is followeth viz^t First one Lamuit came to my House where I live in Minising and saith in Sobriety and Sincerity that there came a young Indian from the French Town or Settlement of the Branch of Mississippi which I think is called the West Branch and told me that the young Indian told him, that the French and the French Indians had made a great House full of Snow Shoes, I Asked further of Lamuit what he said they were designed for, the young Indian Answered that their design was as soon as the Snow Came, to destroy Albany, Soapus & Minising and likewise the Frontiers of Jersey & Pensylvania, Whereupon a few day's after One Roghso an Indian of his Own Accord in Sobriety Confirmed the same Relation ab^t the 18th day of November last

SPENCER PHIPS TO JONATHAN LAW.

BOSTON Dec^r 2 1745*Sir,*

The Inland Frontiers of this Province are from their Situation so much exposed to the French & Indian Enemy, that the Government are obliged to be almost continually employed in projecting or executing Methods for the Security or Defence of the Inhabitants; And as the Frontiers of the Governm^t

of Connecticut are also exposed to the same common Enemy, I doubt not but the Government there are & will be engaged to the like necessary Care for their Inhabitants.

At the beginning of the French War there seem'd to be so much of a peaceable Disposition in the several Tribes of Indians that the People of this Province began to flatter themselves, they should remain in some degree of Security & be free from the Calamities they had suffered in former Wars; but they soon found themselves disappointed, and the Indians, under the Influence of the French, notwithstanding all their Engagements to the contrary, perpetrated many Acts of Hostility & Barbarity which rendred it absolutely necessary for me to declare War, against them; a Copy which Declaration I immediately sent to your Honour.

I have lately by Expresses from the Western Parts of this Province been informed, that a large Body of the same Enemy have fallen upon the Frontiers of the Province of New York & kill'd & carried away Captive a great Number of the Inhabitants. This proceeding will I doubt not induce your Honour likewise to a Declaration of War against them, & will also Influence the People of your Province readily to come into Measures for prosecuting such a War in an effectual Manner.

Upon my Communicating the Contents of these Expresses to the Assembly of this Province they have desired me to write to your Honour & acquaint you that they are (as they always have been) in a disposition to concert measures with the Governments of New York, Connecticut, New Hampshire & Rhode Island for their mutual Protection, either by appointing Commissioners to treat for that purpose with such

as may be appointed by the other Governments, to meet on the Borders of this Province, or in Connecticut or any other Place that may be agreed on, or by any other ways & means, that may be thought more proper: And they have likewise desired me to engage your Honour to engage the Governour of New York to engage the Indians of the six Nations immediately to Make use of the Hatchet against the French & the Indians in the French Interest.

It has long been the Opinion of the People of this Pro that the best Method of prosecuting the War, & the most effectual way to secure our own Frontiers, will be to distress & annoy the Frontiers of the Enemy, for it is certain that with the Assistance of the Indians in Our Interest, we can do equal & greater Mischief to the French Frontiers which are Settled in a scatter'd and defenceless manner, than they can do to Ours; And I doubt not we should soon tire them of carrying on the War in this barbarous inhuman manner; And if they will come with an Army & fight us in a fair open manner we are able & ready to match them. There seems likewise to be greater reason now than ever to Act offensively against them as they have unjustly extended their Settlements & built a strong Fort in that Country which, by the Treaty of Utrecht is expressly determined to belong to the Crown of Great Britain, and if not interrupted they will in time grow to be most formidable Neighbours to these Governments.

These are Points which I thought it necessary & am desired by the Assembly to write your Honour upon; And I pray you to communicate them to the Assembly of your Colony, that I may be favoured with an Answer, that so I may lay the same before

our Assembly at their next Meeting which I expect will be after a very short Recess.

NEW YORK 12th Dec^r 1745

Sir

I herewith send you an Extract of a Letter which I received the 10th Instant Whereby you may Observe that if Albany should be cutt off by the

Secret Designs of the Enemy, nothing less can be expected than a Revolt of the Six Nations of Indians from their Engagements to the British Interest; and shou'd that be the Case, The Frontiers of all His Majesty's Colonys on the Continent must openly be exposed to the Incursions of the French and the Insults of the Indians under their Influence.

Wherefore I am of Opinion that it behoves each Respective Governour upon this Continent, not only to be Watchful for the Safety of their Governments, but be also in a Readiness to assist their Neighbours, for his Majesty's Service, against any sudden Attack of the Enemy, of which a Settlement on the Frontiers of this province is (to my great concern) too early an Instance, and which might, in all probability, have been avoided, had the Assembly given a Due Attention to my Forewarnings of Such Misfortunes.

These Tidings I think incumbent on you to Communicate to your Neighbouring Governour as soon as possible, And for that end, I have transmitted this by Express.

NTH HAMPTON Dec^{br} 12 1745S^r,

I thought it proper once more to Write to let you know that we are apprehensive that the Enemy have a design to attack some of our frontiers, I am pretty well Satisfyed and Indian was seen at different times, a fortnight or three weeks ago at a place called Green River in Deerfield, and last Sabbath Evening (as I take it) some Body found (within Sixty or Seventy rods of the Meeting House) a Piece of a Bear skin such as they frequently wear round their Bodies not only to keep them warm, but to be an ease to their Backs when they carry their Packs, it appeared fresh, and not at all Weather beaten, the next Morning seve men acquainted with such things went and Searched for tracks, who found plain tracks where they came over Deerfield River and returned and where they Jump'd down the Bank, at a little distance from a path, the men Judged there were two or three of the Indians. these must be thought to come as Spies, and if they carry back encouraging News we may expect to hear of a Body of the Enemy in a short time, but we can only Guess whither they were sent from an Army, or whither they were to return to Crown Point before the Army was to set out. but I have some Hopes that if they observe our Motions they will conclude that their design is discovered. Yesterday I sent twenty five men from Hadley to Deerf^d to protect them and to Scout up Green River beyond the Line of Forts, and have Ordered Ensign Wright of Northf^d to take five or six Sprightly men to go to Fort Dummer and thence Westwardly to the Crotch of West River, where the Enemy have formerly frequently come.

the Scout is to be repeated. the people of Deer^{fl}^d are so Alarmed, that I hope they will take Prudent care of themselves, yet if an Army should come they will Probably ruin the Town by destroying their Buildings, Cattle, and Corn.

I sent an Express to Boston the night before last; there seems too great insensibleness in some that should take Care of our Protection, and since men don't use proper means for our Defence I hope it will not be presumption in us to Depend on Providence without the use of proper Means.

I have rec^d both your favours of the 12th of October and 5th of Nov^{br}. In answer to y^e first I beg leave to Assure you that my representation of the Services of all his Majestys American Subjects Concern'd in the Expedition against this place to y^e Ministry and even to all my friends both publick and Private, has been the Most just, favourable, and Impartial, y^t could have been given; and I flatter myself you will find the same favour with his Majesty, that the rest of the Colonys hope for; which is, that of a reimbursment of their several Expenses, an Encouragement for the officers and People, y^t were Instrumental in the reduction of so valuable an Acquisition, and his Majestys gracious Approbation and satisfaction in the Affection and Loyalty of his Amer-

ican subjects, than whom (he has) I am assured none More attach'd to his Interests, and that of his Royal famaly; my good Offices as far as they Can reach shall never be wanting to promote the Interest, of the Colonys, with some Partiality (I must own) to those who have with so Laudable a zeal, Enter'd into an Expedition of such Consequence and Expense as this has been. During my stay here, which I hope will not be longer than next summer (if my application to be recal'd has the Weight I flatter myself) you may depend that all my application shall be Exerted in promoting the Welfare of this Colony and making it a Beneficial Mart of Trade, to those Colonys y^t deserve it most, in doing which I shall have particular regard to y^e Person & the Matter you reccomend; I have wrote to him, and I think if any thing could be done for Major Gen^l Walcott, Col^o Burr, or any of those Gentlemen that were actualy upon the Expedition, I woud with pleasure contribute every thing in my Power thereto; as well as to Serve those by whose Influence and Application the Troops were raised and a provision Made for their support and Transportation to this place.

In Answer to your second favour of the 5th of November, I must beg you will return my hearty Thanks to y^e Legislature of your Colony and assure them of the grateful Sense which I shall always retain for their Good Oppinion of My Conduct, which I flatter myself will on all Occasions be so Just and Impartial as to give no room for a Charge or forfeiture of their Esteem, which they have shown in their Proclamation for a Thanksgiving upon the reduction of this Colony (which you have sent me) in a manner which I have not the vanity to think y^e little share I had in this affair deserves, I shall al-

ways be proud to keep up a mutual Correspondence with you both for his Majestys, and the service of your Colony, and if at any time I can serve it I beg youl freely Command me, as I have nothing more at heart than the Consideration of the Best Method of makeing this Acquisition as useful and advantageous to our Colonys and mother Country as it is Capable, so I have taken the Lyberty to recomend to the ministry at home to Establish a Civil Government and a free Port here, under a man of honour and Humanity, with a Tolleration to all Protestants of every denomination in the Manner which they now Enjoy it in New England, and his grace the duke of New Castle Informs me, all the propositions I have Made for the Speedy Settlement of this Acquisition are laid before his Majesty and the ministry, and that no time will be lost in Comeing to a Determination upon them, which his grace will Transmit to Me, and I suppose with proper Instructions for Makeing a just and Equitable distribution of the Soil, to such of his Majestys subjects as shall be willing to settle here, giveing the Conquerors, the first Choice, as I realy think they deserve. If I shoud leave this government before the Execution of such his Majestys Instructions, I shall do it, with no reluctance if a man of Integrety succeeds Me, for much Will depend upon the Justice of the Person in whom so Great a Trust shall be reposed. I have recomended another thing y^t in my Apprehension will greatly Contribute to y^e makeing this a flourishing Collony & that is the Ordering all our West India and American Trade that shall be bound to Europe to make up their Fleets here, and go home with strong Convoys, and as this will be a great safety to y^e Trade as well as an advantage to this place I hope it will have y^e desired

Effect, your Troops are arrived and Colo Lotrap tells me he thinks there may be now near one hundred men of your Colony more than the quota you propose of 350, those of them who have been here from y^e begining of the Expedition shoud be Indulged and have leave to return, but as the Garison has been very sickly, (y^e Common Consequence of Towns y^t have been beseig^d, Tho I look upon it at present to be greatly owing to y^e Want of Bedding and other necessarys) It wont be prudent to lett any Number of People go till y^e regular Troops arive or till y^e Sickness Abates, however I shant be Against Indulging as Many as possible whose Circumstances may deserve Compassion, and I believe you will think it necessary to Continue Raising and sending Troops here as well for the Suport of this Garrison, as to relieve those of your Colony that shall desire it, least we should bee disappointed by any means of the Troops Intended for our Protection from Gibraltar. And you will Observe by the paragraph of the Duke of Newcastles letter which I sent you, not long since, that there is not y^e least room to Doubt but his Majesty will pay all the Expences that Shall attend the preservation of this Garison. Especialy Since y^e receipt of the Said Instruction.

Nothing Can be more Irksome to me then making the least Breach of my own or the Publick faith, and Therefore wish the other Colonys had taken Equal Care with you to relieve their Men & keep up to y^e Intention of their Proclamations, on the first Inlistment of the Troops, which I presume they would have done more Punctually, but y^t they Expected such of the Forces as were desirous to return home, woud have been releived by those from England Ere this time, this disappointment must appear to all

reasonable People as a justification, for keeping the Troops here longer then they Expected, Especialy as all possible Dispatch seems to have been made by the Ministry for their relief by two regiments being Imediatly order'd here from Giberaltar who We have but litle prospect of seeing before the spring.

For the Incouragement of Navigation to this place I am determin'd while I have the Command of this Garison and the squadron of his Majestys ships that No seamen shall be Impressed from any vessels Trading too or from this place, and every other Incouragement in my power shall be given to trade, there shall not be the least Impossition upon it while I remain in power here, and as the support of this Garri-son will occasion a great Circulation of sterling Bills for the produce of the Neighbouring Collonys I hope it will have a good Effect upon their Excha: I beg y^r Excuse for this long and Inanmate scrawl and y^t you will beleive me to bee with great regard and Esteem tho unknown

Sir Your Most Obed^t
humble sev^t

The frontiers are under affecting fears of the Enemy the Dutch at Hoosuck and other places are Drawn off so are the Indians at Checkomeco at Stockbridge the Enemy is often seen and they have there Burnt a Barn up the River they see skulking partys of the Indians they hear this is a Considerable army Coming from Crown Point and hourly Expect that some of our frontiers will be assaulted Coll^o Stodard has sent for help

The Councill for the War met yesterday and Determined to send out of Coll^o Pierce and Coll^o Huntingtons Regiment 100 men for the Defence of Hamshire and 50 more out of Coll^o Whittings to

Cover Salisbury and Canaan or to advance to Stockbridge if Coll^o Stodard moves for it

I inclose a Letter to us Containing a Contrivance of some Gentlemen on the frontiers to make an Attempt upon Crown Point their fearfull Apprehensions of Danger from those quarters has Engaged them Earnestly in it and Indeed that fort like Pandoras box is full of all Mischeif to us and it is of the Greatest Importance to reduce it if possible but such an Enterprize must be the undertaking of severall Governm^{ts} in which the Gov^{rs} must Lead the Council here have therefore Directed me to send it to your Hon^r who will proceed in it as in your Wisdom you think best

WILLIAM PEPPERRELL TO ROGER WOLCOTT.

LOUISBOURG December 13th 1745

Hon^{ble} Sir,

Your favour of the 23rd of October Last I received, wherein find that you had received mine of the 20th of Sept^r, it gives me great Pleasure to hear that you was Safe Arrived with your Dear family and had Recovered your health; I desire that the Almighty will be graciously pleased to Continue your Life and health for a Long Time to Come a Blessing to your King & Country, & that you may yet be Enabled to do more Eminent Service.

I always thought that before you left Louisbourg that you had Seen my Representation of the Army; it being entered in the Copy Book of Letters by the Sec^y which was always open to any of the Council when ever they desired it; and was likewise read before them, before I sent it; the only Reason I Can give for your not Seeing it, was that you was very Ill at the Time and the Confused hurry we was in, not having a House in the Town but was damnify'd by our Shott, that we Could not lye dry on our Beds: Whatever Thoughts some people might have of me, this I Can truly say and prove by my Letters that are gone for England, that I Acted According to the best of my Capacity as a Common Father to the Army in Ordering every Regiment their Prop^otionable part of Duty in the Camp, and that what I writ was in the favour of the whole, not making any difference between the Massachusetts, Connecticut, or New Hampshire; after I had writ the Letter of which you have an Inclosed Copy to the Duke of New Castle, I inclosed to him in the Same Letter a List of all the Officers in the Campaign, and your name in the List was put next to my own; and every officer in the Rank they Stood in the Army; and writ that they had all Behav'd well, like Brave Officers and Soldiers; And Since the most high and Holy and Mercifull God, who brought us, willing to leave our Pleasant Seats and Families, to Come on this dangerous Enterprize, and has been graciously with us and given us Success Why should We find fault one with another if we did but Eye the hand of Providence more and was enabled to give him, as it is his due, all the Honour & Glory, we Should not be so Jealous one of another. I am greatly obliged to you for your Congratulation, and do join

with you in opinion that the honour done to the Head, is to all the Army; Nothing would give me more Pleasure than to have Liberty to Visit my Family, & as I am Sure no other View brought me here than the good of my Country, neither would anything else, make me willing to tarry from my family, It has been a Sickly dying time among us; upwards of Four hundred Brave Men have died since we Came into this City; The almighty seems to be Angry wth us. Next Wednesday is appointed a day of prayer and fasting and I hope you will all, Lift up your hands and hearts to Heaven on our Behalf; And I hope God will graciously be pleased to be entreated, to Shew us Mercy; It has been an observation that wherever there was a close Siege for Upwards of Thirty days, there has been Sickness in the Place: I Cannot help thinking, but this must be naturally a very healthy place And must be, if it Should Please the Almighty to Continue it in our hands, be a place of great Trade.

Whatever Command Providence may Place me in I trust and hope shall shew them that Came from Connecticut the same Favour as I do any of the Troops that belong to the same Province I Came from, and this I do believe that I have done in every particular since I have had any Under my Command, and shall Endeavour to make it my Care that no Under officer shall abuse any of our Soldiers, for as you Justly Observe there are no Braver, Activer men, than our Country men are and they ought to be Encouraged. I must Acknowledge that this Campaign has bore much upon my Constitution and almost wore me out; But if it should please him who made us willing to Come on this Expedition, to Call us on another He Can Support us & Carry us through.

And I hope we shall at all times be Enabled to rely and trust on him. The Short Acquaintance I had with you, gave me a great Value & Esteem for you and should have been glad if your Health had permitted you to have tarryd Longer here; I hope in a short time to pay you a Visit and talk all our old affairs over; But if Providence Should deny us this favour; I hope thro' the Merits of a glorious Redeemer, we shall meet in a happy Eternity: We are much obliged to you for the Chaplain you have sent, and your good Advice, which I always Valued and Honoured. You may Remember what a hurry you left me in, which Still Continues, that I have not time to write to my Friends, so fully and so often as I would, which Hope they will Excuse. I have Inclosed you a Copy of the Duke of New Castle's Letter to me, as Likewise from the Lords of the Admiralty, being the only Publick Letters which I have Received, You may see Plainly by them that I never made any difference in mentioning one Province more than another or if my Word is disputed the Copies of my Letters may be had from Each of their Offices.

I have writ several Private Letters to several of my Friends in England, four of which to Parliament men; But the most I said in them was that the Charges I hoped would be Borne by his Majesty and that the Provinces of the Massachusetts Bay, Connecticut, and New Hampshire would be Repaid what they had disbursted, on this Expedition; I did say in them Letters that the Massachusetts had been at the greatest Part of the Charges, which must be allowed by all.

Be pleased to give my Service to all inquiring friends but more particularly, to those that were here

with us in this Expedition which I shall allways
Value & Honour.

I am with best Respects

Dear Sir,

Your Affectionate Friend and

Green River above Dearfield, Judged there ware
about two or three of them, and at annother place,
was found a peace of Bearskin which it is Said the
Indians Some times ware about there Bodeys for the
eas of Carreing their packs which they Judge was

newley dropt not being at all wether beaten and from Albaney we hear by word of mouth, that one of the Captives taken from Surretogeth hath made his Escape from Crown Point, to Albaney and Saith that there was about a 1000 french and Indians fiting out & that they ware near redey to march when he Came away but where they ware designed he Could not tell, we are allso Informed that a Barn was lately burnt at Stockbridge, which is Supposed to be done by the Enemy; and at Sheffield an Indian was lately Shot att by one that Stood Centerey in one of their mounts in the dusk of the evening, but mising him he ran away, upon the whole of what we have heard the Council of Warr have ordered 100 men to be Speadeley raised in y^c Eastern part of the Coloney 50 out of Co^{ll} Pierce his Regement, and 50 more out of Co^{ll} Huntingtons Regement to march in to Hampshier County for their helpe & Assistance they have allso Ordered 50 more to be raised in Co^{ll} Whiting Regement and posted in our Western frontears; or Stockbridge & Sheffield if that Shall be thought best, I perceive the people in Hampshier County are verey much allarmn^d and fear that mischiff will be done Spedeley if they be not prevented; we want Six Co^missions for the officers that are now going, and if your Hon^{rs} will pleas to Sign Some blanks, more then for this present time it may Save an other Journey hear is a man now waiting for Some of them whom Co^{ll} Huntington hath Sent from Windham, being in great hast I shall not further Add but that I am your Honr^s Obediant

we have frequently of late been alarm'd at Deerfield with Indians as it has been thought sent as Spies, and near three of the Clock this Morning I rec^{vd} the Enclosed. I have not been apt to lay much wait on pretences of Seeing Smoaks; but this happening at such a Juncture, and their seeing Smoaks at other distant places, and itt proving that they saw Ensign Wrights Smoak (who returned to Fort Dummer on Monday last) I dare not disregard the apprehension there is of an Enemy near us.

Maj^r Hartwell & Cap^t Stevens are not come over with their men, & I fear your^s cannot be here soon Enough.

I have beside the 25 men I sent from Hadley last week, ordered 120, from the lower part of the County, and least anything should happen Suddainly, I have Ordered twenty men from Sunderland to Northfield, and what men may be had at Pellham and Cold Spring, reserving the men of this Town, Hatfield and the rest at Hadley 'till further advice. if an Army Should come they will doubtless come Strong, and we shall need all the help we can get and had better loose something than run the hazard of some place being destroyed.

'tis probable that if you should send two or three Hundred men they may reach our frontiers before an attack, or soon after and if after they may be ready to pursue the Enemy.

I should have been Glad to have been able to give you more certain Intelligence, and when I shall be enabled, I shall do it.

I have likewise sent for nineteen Connec^t Indians that are Hunting at Cold Spring.

Sir,

Being inform'd that the Affairs of War are com-
 mitted by the Govern^t of Connecticut to a Number
 of Gentlemen of which you are the first in Commis-
 sion

I am therefore now to inform you that Applica-
 tion has been made to me from the Proprietors &
 others of the Towns of Stockbridge & Blanford, to
 desire that they may have some Soldiers sent for
 their Protection, they being much exposed to the
 Indian Enemy; & the Inhabitants likely to draw off
 unless they can be soon relieved. I have laid this
 Affair before the Assembly of this Province, who
 have desired that I would move the Govern^t of
 Connecticut to send sixty men for the Protection of
 Blanford & Stockbridge & the Settlements between

them, at least till such time as men may be raised in this Province & sent thither.

I must therefore desire that you would with all possible Expedition send such a Force into those Places as may be sufficient for their Defence; which I am the rather inclined to expect and hope for, because these Places are a Barrier to some part of your Colony, & if they should be deserted your own Towns will be much more exposed to the Enemy; And if I mistake not you have signified your Intention to do something of this Nature in one of your Letters to Col^o Stoddard. You will please to let me have your Answer as soon as may be.

It would have been a great Pleasure to me to have seen you at Louisbourg. I hope you have by this time perfectly recovered your Health, & that the Service you did your Country, for which I think they are much oblig'd to you, as I am myself for the Honour you did my Commission thereby, will not finally prejudice it.

I shall write soon to the Governour; and am with great Regard

Sir

By this I acknowledge y^r favour of yours of y^e 24th Instant & altho an offensive war against our Enemy in north america has ever been my favorite opinion yett would omitt nothing necessary & proper for the Defence of the frontiers.

upon a motion from Collo Stoddard, the Concell of War Sent an hundred men to Deerfield & offer^d him fifty more for the Defence of Stockbridge till you Could place a Sufficient Garason, then y^e Collo answer^d he thought ten men from us Would be Sufficient for Stockbridge, accordingly we Sent ten men there.

on the 18th Instant I Rece^{ed} a Letter from Collo Stodard and of the near aproach of a Considerable force of the Enemy as twas Expected on the frontiers up the River moveing for our Assistance on this Exigency Imediately we sent up above 150 men they sett forward the 20th Instant and I have not heard from them since so that we have now about 260 men on the frontiers in your Government besides 40 in our own this with whot we have at Louisbourg reacheth (?) a charge beyond our power to suport the Colony Consists only of Labouring Husbandmen and I suppose the Impost brings not above 100^l our Currency into the Treasury Annually Nevertheless in Case of War it is my mind that no thing that is possible to be done should be left undone I will therefore Imediately advise with the Councell if we shall make up the ten men at Stockbridge to be 50 till you Can supply a Garason there which I hope will be speedily

I heartily Congratulate your Excellency on your Return to your Goverme^t: Indeed during the siege I promised myself a great deall of pleasure if we Could Gitt into the Town but as it pleased God the Next day I was taken with sickness by the force of which I had on ease there nor in my Voiage home nor for some time aſter my Return but thro Mercy I am now well Recovred I should not have deprived myself of the Hon^r of waiting upon you at Louisbourg had my health permitted however it was a

pleasure to mee to hear you were Going and afterwards that you were Gone to that place where I know you were so much Wanted pray do mee the Hon^r to make my service known to S^r William Pepperill at the first oportunity

WINDSOR Jan 4th 1745S^r

on the 27th of Dec^r Last I received a Letter from Gov^r Shirley. Moving that we should send 60 men for the Defence of Stockbridge and Blanford I have Laid it before the Council who resolved to make up the Garason at Stockbridge 50 men till your Government Could put a Garason into that place and of this I have advised His Excellency

yours also of the 28th of Dec^r past I Recd and have Laid it before the Council: they were of opinion that the Going up of Cap^t parishes men Without Blanketts was a wrong step which proceeded from their unacquaintance of the Afair. We have therefore orderd 50 Blanketts to be sent up for them which with a suply of powder and Lead for Cap^t Lees Company to Make up the Embezzlement they have made will be Left at Coll^o porters at Hadly where they may send for them as soon as they Come

I was glad to see such a readiness in the 3 Companys that Went up upon the Alarm I perceive they Would have been Glad to have mett the Enemy but our Endeavors to meet them will alwaies be attended with the Greatest uncertainty would His Majestie order an Expedition ag^t them and all the Governments should Come into it we should know what we were about

We have formerly Endeavourd to be more speady on a Exigency by Detaching men for that purpose but these (unless under Continuall pay) would be out of the way as much as others and other soldiers Look upon themselves as unconcernd so it proved a Clog rather than a furtherance

I was something surprized to hear you mention snow shoes as a defect in us for not providing our men are sent up to Garason your Towns and places that want defence and will be ready as any men to do any thing ag^t the Enemy that Lyes in their power and for Which they are provided but to suppose this Collony should have a Magazine of snow shoes with you which in Consequence Draws that of a house to store them in and an officer to Look after them is wholly new and I suppose a thing that no man Ever thought on but your self the thing is not Great a few Cow Hides will be sufficient for Materials and the soldiers will have time Eno and Gladly Improve it to make them Louisbourg and Annapolis are now ours so that the Indians Can have no suply from the French that way the Norigewocks and panobscots are so humbled so that this western frontier is the principle Barier if not almost the only one the Massachusetts have Backward we have our own to Defend and have ordered that a suply of snow shoes should be ready there and what we have done to the Defence of the frontiers up the River you are not a stranger to all these things Considered I make no doubt the Massachusetts will as readily order their Garasons to be suplyed with snow shoes as we have Done ours

There is unhapily sprad among us a Vulgar fame that our men are not received with you with the same Good Countenance as formerly That they are Threatened to be fined for their Dinners that they are told tis hopefull Connecticutt will Lose their Charter I trust there is no foundation for all this Nor should I have taken so much note of it as to mention it but only as such a report tho without Grounds may render our soldiery Less ready and Chearfull and some of the more Inadvertant of

your people may have said some thing to this purpose it Can Do no Good and it may Do mischief and as I hope there never was so I hope there Never Will be any reason for such a story I am with a respect

MILFORD Jan^y 1745/6

Gentlemen.

I take this Opportunity to acquaint you wth what I rec^d from Gov^r Warren by inclosing to you Copies y^of with respect to our Disbursements Since y^e Reduction of Louisbourgh whether it will be more safe for us to send Home for them or to apply to him & S^r Will^m for Bills of Exchange deserves a consideration, (I am at present at a Loss) As for what he writes about a Reinforcement in y^e Spring whether he would have wrote for it, in Case our Recruits had arrived there, I dont know. I think we fell into the measures which he supposed would have been y^e only Remedy to have prevented y^e Complaints of y^e Soldiers arising on Gov^r Shirleys Proclamation ab^t y^r Return when the Expedition was over: but whether all things considered it may be needfull to call an Assembly to have as many Men ready as we can Spare to reinforce the Garrison early in y^e spring I ask your Advice. I have been advis'd by M^r. Miller (Coll^l Saltonstall being ill) of the return of our Last Transport to New London That Maj^r Chapman att Rhode Island by a Vessell in fifteen days from Louisburgh was informed y^t y^e Harbour begun to be Shutt up wth y^e frost, and that y^e best that could be expected (according to y^e opinion of y^e best of Sailers) was that they must soon quitt the Coast & go off to y^e West Indies, & that much of their Cargoe would not endure the Heat it was best they should be unloaded & the Vessell discharged whereupon I advised Cap^t Hubbard to go to Bush y^e owner by whom I was informed Bush had sent a Messenger to direct y^r Sailing from N: London y^t they might proceed & be under pay this Winter, but he would Send to prevent it.

By y^e Acc^{ts} from Home Via N: York it appears things look very darkly att Home, the Pretender is Proclaimed att Edinborough, they opened the Gates to y^e Rebels att Edinburgh, & y^e Castle only Stood out, an Invasion from France as expected, I think nobody y^t dont shutt y^r Eyes, cant but be sensible by this Time, That the Design of Westley, the Erskins and Whitefield &c was y^e Subversion of the Gov^t by making way for the Introduction of the Pretender If that should be accomplished it matters not what becomes of our Acquisitions in y^e North or to the Southward, our Expences will ly upon us as the lightest part of our burthen, but I would hope God has Mercy in store for us.

M^r Miller also informd me That the Cap^t of the Rhode islander told Maj^r Chappman That M^r Whiting informd him that they wanted not for the Necessaries of life and that he knew not what to do with the Stores by Gorham, he had procurd Cloathing of the Boston Com^{ries} and that M^r Whiting had signifyd the like to his Son y^e Comissary

And now I hear That Cap^t Wooster is returnd and arrivd att Cape Ann and hope for more Particular Acc^{ts} wⁿ he comes up.

Am glad to hear of the speedy and safe Return of our fforces from the upper County. Their going upon a mistaken Information is much more desirable than a real Necessity would have been.

The three Asistants in the Town of Hartford have this Day mett mee to Consider on What your Hon^r offered to us in yours of the 15th Instant

They express their opinions very fully that it will be best for this Colony to Exert itself in the Defending and suporting the Garason at Louisborg, and an omission will be the more hardly Construed ag^t us since the King will Reimburse the charge

They have Considerd that it is probable the Ice will prevent our shiping Entering into that Harbur or Chaperough bay till about the Midle of Aprill and that it is very likely that if An Assemy should in the Latter end of february or the Begining of March meet and order Recruits the afair might be so Dispatch^t that the Recruitts might Gitt there by the midle of Aprill and your Hon^r Will doubtless hear more by the midle of february Therefore they submitt it to your Hon^r if it be best to Call the Asembly till february or March Next

They are also of opinion that it is not Clear Comodore Waren has undertook to Draw for any but the future Charge: and that no bills be Drawn upon him at present

WARREN AND PEPPERRELL TO JONATHAN LAW.

LOUISBOURG Jan^{ry} 25th 1745*Sir,*

By Letters from the Duke of New Castle of the 10th of August last we were advised that his Majesty was determined forthwith to provide for the effectual Support of this valuable Acquisition: and that in order thereto Two Regiments were ordered here from Gibraltar, and several Vessels with Stores from England, but none of them are yet arrived here: and We apprehend it probable that the Troops are not yet embarked: and as it must be expected that the Enemy will make the earliest, and most vigorous Efforts possible to regain this Important Fortress next Spring; we may, probably, be block'd up before those Troops can gain their Passage from Gibraltar hither, and as a Mortal Sickness (chiefly a Fever) has for some Time past prevailed in this Garrison, and has carried off considerable Numbers, and still continues to do so (tho' we hope it is abating) Our Duty to his Majesty requires us to acquaint You (as the Protection of this Acquisition for the present, and till M^r Warrens Commission for the Government, which is dayly expected, arrives, is recommended to our joint Care) That it is absolutely necessary for his Majesty's Service (as well as the Honour and Interest of the Colonies) that new Levies of Men be raised there for the Support of this Garrison, until a Sufficient Number of British Troops shall arrive here.

We have, by an Express which sailed the 23rd Inst^t for England, to inform the Ministry of the Circumstances of this Garrison, acquainted them that we should make Application to You, and the other Governments in the Colonies for the necessary Assistance herein and We cannot doubt but that your Loyalty

and Zeal for his Majesty's Service, and the Interest of your own and neighbouring Governments, will prompt You to use your utmost Endeavours, (especially as you have hitherto shewn a readiness to contribute to the Security as well as Conquest of this place) that a proper Quota of Troops from your Government be accordingly sent here as early in the Spring as the Season will possibly admit of (which may be the beginning of March) sufficient not only to sustain the Place against any Attack of an Enemy, but also to relieve the Troops now here, who have (most of them) undergone the Fatigues of the Siege, as well as the Duty of protecting the Place since, and who justly expect to be relieved, and allowed to return home in the Spring, agreeable to the Terms upon which they first enlisted, and no doubt will be very uneasy if they cannot. If no British Troops arrive, (which may be the case) four or at least three thousand Men will be necessary to be raised, for the Defence of this Place next Year; and as the Garrison is already much weakened by the Sickness and Mortality among us, and may possibly be much more so, we must press your most speedy and vigorous Endeavours to assist in reinforcing it, before the Arrival of an Enemy's Force shall render it hazardous, or impracticable: as a Neglect herein may prove of the most fatal Consequence, and render those at whose Door the Fault shall lay highly obnoxious to his Majesty's Displeasure.

You may, Sir, assure such Levies as shall be raised for this purpose, that they shall not be detain'd here contrary to their Will, after the Arrival of a British Force sufficient for the Security of the place; and that they may depend upon the strictest Justice, and all the good Offices in our power And We make

no Doubt but great Encouragement will be given to them, and others to settle this Island.

We have lately had the disagreeable News of One of the Store Ships bound to this Place, from England, being cast away and intirely lost, on this Island the 27th of Decem^r last. By three Seamen, who were the only persons saved out of 24 on board, We learn that She sailed from England, about the last of October, in Company with several other Ships bound here with Stores, under Convoy of the Kinsale Man of War, and lost Company with them near the Banks of Newfoundland about three Weeks before their Disaster; since which we have heard nothing of the Others, nor any further Account of the Troops we had reason to expect from Gibraltar.

We are, with great Regard, Sir, Your most obedient humble Servants

GEORGE CLINTON TO JONATHAN LAW.

NEW YORK 27 January 1745

Sir.

Pursuant to my Recommendation to the Council and Assembly to make provision for the appointment of Commissioners for this Province to treat with such Commissioners as are or shall be appointed by the Neighbouring Governments upon Concerting Measures for our mutual security Defence and Conduct during the present War, Committees of both

Houses have Conferred upon the Subject Matter thereof, and Requested me to appoint Commissioners for that purpose, Who are to make Report of their proceedings with their opinion thereupon, that such Measures may be taken jointly with the several Governments as shall be Judged most Expedient.

They have likewise desired me to Represent to the several Governments upon this Continent, the Wavering Disposition of the Indians, and the fatal Consequences which may arise to all the Colonys in General, in case they should be withdrawn from their Fidelity and Dependance upon the British Interest: Whereupon there seems to be an Absolute Necessity for the Colonys uniting their Endeavours at all Events, to secure the Indians effectually in our Interest at this Critical Conjuncture, As the Enemy leave no Artifice untryed to seduce them, having many Jesuitical Emissarys Constantly Residing amongst them; and should they at length prevail with them to Revolt, The Frontiers of the Respective Colonys, Subject to his Majesty, must lye open & Exposed to the Insults of the French and Savages.

As a Union of Councils from the several Governments, will be the most likely means to defeat the Dessigns of so Barbarous an Enemy, and advancing the Common cause of his Majestys Subjects upon the Continent, I doubt not but you will think proper to Communicate this Representation to your Council and Assembly and Recommend it to them to follow the like Example with this Government that Commissioners may be appointed by you to Answer such laudable Ends.

PROCLAMATION BY JONATHAN LAW.

By the Hon^{ble} Jonathan [] Governour, & Com-

Colony of Connecticutt, in New England, in
America.

To all to whom these Presents shall come
Greeting.

Whereas a number of the Subjects of
his Most Christian Majesty, have been taken at the
Seige of Louisbourg, and other Places, and made
Prisoners of Warr, and Five of them brought into
this Colony; And there being no Carteel Settled,
Between this Government, and any of his Most
Christian Majesties Settlements in the West Indies,
whereby the said Prisoners of Warr, can be Ex-
changed, for so many of the Subjects of Great
Brittain; And the said Prisoners of Warr, being
very desirous, & pressing, to be sent, to some of
his Most Christian Majesties Settlements, in the West
Indies, in order to be Exchang'd; But as the Expence
of a Packet Boat, to be sent on purpose for so
small a Number, would be very great; Therefore
that the said French Prisoners, may not longer be
detain'd; I have Constituted, and Appointed, and by
These Presents do Commissionate, Order, and Appoint,
Jeremiah Miller Gentleman, to take on board the
Sloop Three Friends under his Command, and bound
to the Island Jamaica the said Five French Prisoners
of Warr, and carry them to Hispaniola, and there

deliver them, to his Most Christian Majesties Governour, or other proper Officer, or Magistrate; to be Exchang'd, for so many of his Brittanick Majesties Subjects, together with as many more as shall be deliver'd him, to carry to some English Settlements. And I do hereby desire the Commanders of his Majesties Ships of Warr also the Commanders of such Ships of Warr, as are in the Service of his Most Christian Majesty, and other Princes, and States, with the Commanders of all Private Ships of Warr, & Merchant Ships, and other Vessells, belonging to the Subjects of those Princes, & States, to permit the said Jeremiah Miller, to pass to the Island of Hispaniola, and from thence to Jamaica, without detention, or hindrance, in the said Sloop Three Friends, with the s^d Company and Prisoners Transported therein; and all Comand[] of Private Ships Warr, Ships with Letters of Marque, with other Merchant Ships, & Vessells, belonging to his Majesties Subjects, are hereby requir'd, to Suffer the said Jeremiah Miller, to pass without let, or molestation, as they will answer the Contrary at their Peril, and be Responsible for the Damages that may ensue, upon their giving Obstruction herein; And all Comanders of the Ships & Vessells afores^d are hereby Desir'd to give all necessary Succour, and Assistance to the Jeremiah Miller, as occasion shall require.

Given under my hand & Seal at Arms*, this first day of February Annq^c Domⁱ 1745/6 & in the Nineteenth Year of his Majesties Reign.

J LAW

*A portion of a seal in red wax appears on the margin of the document. Not enough remains to show its bearings, but the appearance of an esquire's helmet at the top indicates that it was a personal seal. The original inscription on Jcnathan Law's tombstone describes him as "armiger," and it is probably his seal with his arms that appears here. The custom is not unknown in Connecticut of the governor affixing his personal seal to official documents.

We are very sensible Virtue carries its own Reward, and doubt not of the Solid and lasting Pleasure, you have from your own Consciousness of the good Principles, which have excited you to & carried you thro', the many useful & publick Services you have performed, & by your Example & Address influenc'd others to do; And how little soever the wise & vertuous are affected by such remote Considerations, as the Opinion & Sentiments of others, yet we could not but think, that common Justice & Gratitude required Our Acknowledgements of the large Share you had in the late Reduction of Cape Breton; to you our Eyes were more particularly turned, on Our first Application to your Government in this Affair, & we happily found Our Selves not mistaken, by their generous Assistance in that successful Expedition, more particularly obtained by your Care & Influence, for this publick Service & for the just & kind Sentiments you have always had towards this Province on other Occasions. WILLIAM SHIRLEY TO JONATHAN LAW.

BOSTON Feb^r 4th 1745*Sir,*

I shall take it as a favour if you will not only permit Captain Gridley to Beat his Drums within your Government for raising Voluntiers for my Regiment, but also Countenance & Assist him with your good Offices in raising 'em. As I am persuaded you will think the raising of mine & Sir William Pepperell's Regiments, as speedily as may be, is not only necessary for more effectually securing our late Acquisition to his Majesty, and with that the Province of Nova Scotia, (ag^t w^{ch} I am satisfy'd by late Acc^{ts} from Annapolis Royal that the Enemy is now making Dispositions for attacking the Fort there very suddenly) but also for relieving such of our Troops now at Louisbourg as don't incline to Continue in the Garrison; & may also probably put it more into my Power to procure a Recompence from his Majesty for such American Officers as Cannot be provided for out of the blank Commissions sent at present to me & Sir William Pepperell, I hope you will be pleas'd to exert your best Endeavours for promoting the raising of mine & Sir William's Regiments within your Government; and favour Captain Gridley with your Advice and Directions in the Service. I have order'd him to wait upon you with a Copy of his Majesty's Beating Order to me & his Instructions from me for raising Levies. I have brought forward the Consideration of the Enemy's Fort at Crown Point in w^{ch} both Governments & our Neighbours of New Hampshire, Newyork, &c^a are concern'd, & shall Let you know what this Governm^t proposes for the good of the

Common Cause as soon as we come to a Determination.

P. S. The Inclos'd are a Copy of the Journal of the proceedings of the New England forces in the reduction of Louisbourg*, w^{ch} I have transmitted to his Majesty: and is certify'd, and sign'd by

Sir W. Pepperell as Lieuten^t Gen^l of the Land forces.

Brigadier Waldo, as a Brigadier of the same forces.

Colonel Moore as Colonel of the New Hampshire Regiment, part of the same forces.

Lieuten^t Colonel Lothrop as Commanding officer of the Connecticut Regiment part of the same forces.—and

Lieuten^t Colonel Gridley of the Train of Artillery.

And in the close of my Letter to his Grace the Duke of Newcastle accompanying the Journal I write to this Effect Viz,

“I desire his Grace to lay the inclosed Journal of the proceedings of the New England Land forces during the siege before his Majesty, and hope his Majesty will be graciously pleas'd to accept 'em as an Instance of the perfect Duty and Inviolable Attachment, w^{ch} I was persuaded the several Colonies concern'd in the Expedition bore to his Majesty's sacred person and Governm^t”

* This Journal was printed in England in 1746, from a manuscript sent by Pepperrell to Capt. Henry Stafford, with the title *An Accurate Journal and Account of the Proceedings of the New England Land Forces, During the late Expedition Against the French Settlements on Cape Breton, To the Time of the Surrender of Louisbourg.*

If you will be pleas'd to communicate the Journal and postscript of this Letter to your Assembly, I shall be obliged to you.

WILLIAM SHIRLEY TO ROGER WOLCOTT.

BOSTON Feb^y the 4th 1745.

Sir,

I shall take it as a favour if you will Countenance & assist Captain Gridley with your good Offices in raising Voluntiers for my Regiment: As I am persuaded you will think the raising of mine & Sir William Pepperells Regiments, as speedily as may be, is not only necessary for most effectually securing our late Acquisition to his Majesty, & with that the Province of Nova Scotia (ag^t w^{ch} I am satisfied by late Acct^s from Annapolis Royal that the Enemy is now making Dispositions for attacking that Fort very suddenly) but also for relieving such of our Troops now at Lousbourg as don't incline to Continue in the Garrison: And may also probably put it more in my power to procure a Recompence from his Majesty for such American Officers as Cannot be provided for out of the blank Commissions sent at present to me & Sir William Pepperell, I hope you will be pleas'd to exert your best Endeav^r for promoting the raising of mine & Sir William's Regiments within your Colony; & favour Cap^t Gridley with your Advice & Directions in the Service: And this I shall not Doubt of as I am persuaded you must have the preservation of Louisbourg towards the Acquisition of w^{ch} you have so much Contributed by your personal Service at Heart:

I thank you for the last Supply of men w^{ch} you sent us upon my Letter to you requesting it; & am entirely of your Sentiments y^t it would be more for our Interest to act offensively in the Management of the Warr, yⁿ to Content ourselves with being upon the Defensive; As the first Measures will indeed not only more effectually Defend our Frontiers by keeping the Enemy at Home, but very much weaken 'em, at least by being harrass'd in their own Country, towards effecting w^{ch} I have brought forward the Consideration of the Affair of the Enemies Fort at Crown Point, in w^{ch} both Governments & our Neighbours of New Hampshire New y^{ork} &c^a are Concern'd; & shall Let you know what this Government proposes for the good of the Common Cause, as soon as we Come to a Determination: Our Proceedings at Crown Point by opening Lake Champlea to us would be a Considerable Step towards our penetrating into Canada at a proper Opportunity; the Reduction of w^{ch} Place would indeed Comprehend every thing in Favour of the Colonies, & crown our Success most Compleatly; & I have accordingly represented it to the Ministry as a matter of the greatest Consequence to his Majesty's Subjects upon this Continent: If you think I may be of Service to you by the Recommendation of any thing in particular in favour of you be pleas'd to Let me know it & I will serve you to the best of my Power.

Sir

I gave you last fall the trouble of a letter but have not been honour'd with an answer, it was on the subject of two yoake of oxen Stolen from me by Benjamin Brace which I Suppose I must quietly Submit to Loose besides the Charge of persueing him to no purpose, however I begg you would be pleased to give me your best advice how to gett my oxen again or have the felon punishd to deter others from doing the like then Ill be Satisfyd. Daniel Edwards Esq^r can give you an Information & detaile of y^e affair.

I am Concern'd to hear and So are all those who have the hon^r to be acquainted with you that

you are not promoted to Some Considerable Post of Profit for your Singular Conduct & behaviour in the Reduction of Cape Brittoon, this Step taken to promote those who have not been on the Expedition is Somewhat Extraordinary (and in my opinion) very Imprudent, for this may much discourage the Imediate Service, and be attended with bad Consequences in not being able to Raise the two Regiments, I think you be not wellusd, which I suspect proceeds from wrong Representations be it either willfull or Ignorant the Publick Service must Suffer for Such Conduct. I Expected at least you would have had a Lieu^t Coll^o Post and one of your Sons a Capt on the Establishm^t, which would have been but a reasonable Recompence due for your Services, as you be Justly Entitled to this I hope you may Soon Enjoy it.

I have been here Since the 2^d of last month to attend the Councill, tho little has been done but what youl See by the Votes of our Assembly to build Six block houses on our Fronteers to be guarded by 120 men from the City & County of Albany but not a man from the Lower Counties is to assist in this duty w^h falls heavy on the poor Inhabitants, how men will be gott I cant Imagine unless with great difficulty.

our assembly have agreed to have Com^{rs} of war appointed to meet those from the Neighbouring Governm^{ts} to Carry on the war to agree on ways & means how and in what manner to proceed &^c but the persons, who; it Seems to be the dispute; for the house will consent to none but those they can confide in, on which as I take it they will Insist. So that it may probably come to nothing which is to be pettyd. I need not Remind you what you know

and have Seen, that is enough to Say no more, on that Subject.

I hear that I have had the good fortune to gett all my Pigg metle to the River, that I shall be able to Supply all your forges as fast as they can work it up into bar Iron I want to Sell it, if I cant gett New york money for it, I Shall accept your Currancy. Rum Molashes, Pork, beef, Tallow, bees wax, & barbary wax, which I begg you to Communicate as you have oppertunity wherein you will do a Singluar favour to who am

Hon^{ble} Sir

Since you, not long ago, favour'd the Owners of Sloop Three Friends, with a Comission, for a Flagg Truce, which Commisⁿ was not improv'd. I tho't it my duty to inform Your Hon^r the reasons why it was not. Viz^t The inteligence s^d Owners had, by Gentlemen from New York, that a Flagg Truce from New York was actually detain'd at Highspaniola, and the aversness in the Sloops Comp^y upon y^s advice, to proceed the Voy^a. The Frenchmen that were here (being 5 in Number) advis'd to proceed for Boston, where there's a Flagtruce bound for France, and they readily came into the proposal, and sett out on their Journy about ten days since. Cap^t Prentis tells me its absolutely necessary that the Sloop Defence's Maindeck be better secur'd, if She goes another Cruise,

the doing of which will cost about One hundred Pounds. And should your Honour think proper i'll take care it be 'well done, as soon as I am favour'd with Your Commands.

S^r,

When I was lately in Boston I Rec^d your Letter concerning your Supplying your Souldiers on the frontiers with Blanketts &c. Since which I have had no Intelligence of the Enemy 'till last night, when I Rec^d the Enclosed.

our Scouts (I think) are duely maintained, but as to the men at Blanford & Stockbridge I know little of them, and dont know whither you expect that I give Directions to them, I apprehend that hitherto they have been little needed, and have been Employed to no advantage, probably when the Spring comes on there will be need of them, for that part of the Country may be Infested by Sculking Parties, if my Care of them be expected I will Endeavour that they be Employed in the best manner to Serve your outmost Towns as well as ours.

On Wednesday 26 of Feb^ry Cap^t Stevens and Cap^t Melvin with about 150 volentiers took their departure from No. 4, they purpose up Connect^t River 'till they come near the head of it, there to Build a place of Defence, thence to Range the Woods in the Indians Hunting Ground in small Parties the Season (for some time) was very favourable to them, they purposed to be out 5 or 6 weeks.

if any thing of Moment Occur I shall acquaint you with it.

S^r,

Since my Writing to you this Morning I Receiv^d yours of the 7th Instant wherein you make mention of some difficulty about the Souldiers Allowance, of which I had heard something before, and took Occasion to Enquire into the meaning of it, both of Maj^r Williams (the Commissary) and of Cap^t Ephraim Williams, who I suppose is one that Deals out the Provisions, who agree in the same Story.

It seems that they have their Choice either to have Garrison Souldiers allowance, or Marching Allowance, and I should think it Strange if after so long Experience as our Government have had, they should

not know what was Sufficient for a man. and that what is allowed is exactly dealt to the Souldiers every weak Saving that their meat and bread is dealt out to them at 14 Ounces for a Pound because of Wastage or Dryage as they term it, for which they have had particular direction from the Commissary Gen^l.

I perceive they have been wont to deal out greater weight but the Souldiers finding fault the Commissary Gen^l was applyed to, who assures that the Practice has always been to deliver the Provisions as afores^d therefore now they Punctually observe his Directions.

I have heard that they are not well provided with Pots and Kettles to Boyl their Victuals in, therefore I did t'other day advise either Maj^r Williams or Cap^t Williams to send to the Commissary Gen^l for what was wanting.

Honourable Sir

Your favours of the 28 February I Recieved  Post at New York, I have much trouble with Some men I imploy to gett their liveing who Study to

deceive me in almost every Shape, I am glad to hear you have a good opinion of M^r Edwards but for my part I find him to be very Remiss to let me know how my affair with Benjamin Brace Stands, the oxen he has Stole are mine tho' I do not expect to have them again till I have Spent twice the Value of them which I am determined to do for I Shall be more pleas'd to Spend them in Law and not have them to gett the felon punishd for it but according to your Law. could I gett him in this Governm^t I would Endeavour to have him hangd to deter other felons to committ the like felony. I shall trouble you with a Strange Story about two yoake of oxen taken from me and drove to Sheffield for which I have been at Law about two year I Refer you to copy of a letter I have from my attorney concerning them.

I am fully persuaded of your faithfull Services to lead out the Connecticut troops for y^e Reduction of Cape Bretton. I suspect that you have not been mentioned by Gen^l Pepperrall & Admirall Warren, in the Representation made by them to his majesty of the Reduction of that value Conquest, that I impute as the Sole Reason you have been left unprovided for as for my Speakeing to Gov^r Clinton to do you any Service would at this time reather do an Injury. I am out of his favour he has Rec^d Such Ill Impressions from designing men against me & my Son Philip who has been free to Speak about the managem^t of the psents at Albany &c that nothing I can do or Say will please him at psent. I thank god I want none of his favours, but I hear he is Strongly bent against me to do me what Injury he can, and he has great Interest at home So that I Expect the weight of his Resentm^t agst me however unjust it may be I must Submitte I have however Spoke to Severall of your acquaintance at

New York, who I think would Serve you if in your Power, they advice you to make a Just Representation of your Case with a letter to the Duke of New Castle to send the Same to Gov^r Shirley for his perusall & approbation with a desire to write in your favour, and if he should decline it. I would advice you not to lett your affair & Claime lye dormant but to Send your Services well attested by your Gov^r & Councill if you not capable to draw it your Self gett Some able hand to do it for you. I think the least Recompence you can ask for your faithfull Services is to have a Lieut Colonels Commission in one of y^e american Regiments or while you be far advanced in years, in lieu thereof a Pension of 3 a £400 Sterl. ꝑ annum and a Comp^y for one of your Sons or grand Sons in S^d Regiments, which is the least y^e ministry ought to give you, I believe it would add much Weight to your Solicitations to send a line to y^e Chiefe Justice desiring him to write to Adm^l Warren in your favour to the Duke of New Castle in what Station you was on the late Expedition &° I wish & hope you may succeed to obtain what you desire which I Should be very glad to hear.

Your Colony has done more for guarding the frontiers of your Neighbours then our assembly have done for their the defence & Security of their own and they have been Sitting Since octob who of our desendants would believe Such a Story 5 year hence Strange managem^t indeed what will be done is yet uncertain, and the Enemy frequently discoverd on our frontiers in large Bodys, who as soon as the Snow is from the ground or when the trees be green will make dreadful havack among the Inhabitants who live Remote from y^e City to the west & Southw^d of it to the northw^d they all broake up & left to the mercy of y^e

Enemy. what a Shamefull thing will this be. and youl have heard before now in what temper the Six Nations be now which last is owing to mismanagem^t but Some men will act agst reason. and Everyone must Say its well done. I wish this may find you^o Enjoy the Great blessing of health. I am

I have accordingly appointed Commissioners for that purpose, so has Gov^r Shirley, and I hope the like Steps will be taken by Your Government without delay; In the mean time I have inclosed Cops of the Minutes of the Commissioners for Indian Affairs of the 25th Febry last, containing the Resolution of the Six Nations of Indians, as signified by the Interpreter, in Answer to my Message, requiring them to enter into the War with us, ag^t the French and Indians in Alliance with them, that it may appear to You, how highly it imports the several Colonys upon the Continent to unite their Endeavours, with this; effectually to preserve the Six Nations and the other Indians in Alliance with us & them, in their Fidelity to His Majesty, and Dependence upon the British Interest, as all are so nearly concerned in the Consequences of their Revolt, which

[Indorsed] Copy of a Letter to Gov^r Warren April
1746

DUKE OF NEWCASTLE TO THE COLONY OF CONNECTICUT.

WHITEHALL April 9th 1746.

Gentlemen,

I am commanded to acquaint you, that His Majesty has been pleased to order five Battalions of His Troops, under the Command of Lieutenant General S^t Clair, to go from hence, as soon as possible, with a sufficient Convoy of Men of War, to Louisburg; in order to be employed, together with the Regiment of

Major General Framptom, which has been some time ordered to embark for Louisburg, and with the two Regiments sent thither from Gibraltar; and also with such Troops, as shall be levied, for that Purpose, in North America; for the immediate Reduction of Canada; And I am commanded by His Majesty to signify His Pleasure to You (as I shall do to the other Governors of the said Colonies) that You should forthwith make the necessary Dispositions for raising as many Men, as the Shortness of the Time will permit, within your Government, to be employed in Conjunction with His Majestys regular forces, on this important Service. It is hoped Lieutenant General S^t Clair will be able to sail from hence, with the Troops under His Command, the latter End of this month, or the Beginning of May.

It is the King's Intention, that the Troops to be raised in North America, should consist of Companies of 100 Men Each; and that the Troops to be raised in Massachusetts Bay, New Hampshire, Rhode Island, and Connecticut, should rendezvous at Louisburg, as soon as possible, in order to proceed, under the Command of such officer, as shall be appointed by Lieutenant General Sinclair, and under Convoy of His Majesty's Fleet, to the River of S^t Lawrence, and proceed up the River immediately to Quebec, with such Ships of War, Sloops, and other armed Vessels, to be furnished by the Provinces, as Rear Admiral Warren, who will have the Command of the Squadron to be employed in this Expedition, shall appoint. You will therefore use the utmost Expedition in raising as many Men as possible, within the Province of Connecticut and take the proper Measures for their arriving at Louisburg, before the Time that Lieutenant General S^t Clair may be expected there. You will also appoint

proper Officers to command the Men, You shall be able to raise; for which Purpose a Number of Blank Commissions will be sent you by the next Conveyance; And you will transmit to Rear Admiral Warren, at Louisburg, Accounts, directed to M^r S^t Clair, of what You shall have been able to do herein.

You will assure all Those, that shall engage in this Service, as well officers, as Soldiers, that they will immediately enter into His Majesty's Pay; the Officers, from the Time they shall engage in His Majesty's Service; and the Soldiers, from the respective Days, on which they shall enlist; And that they shall come in for a Share of any Booty to be taken from the Enemy; and be sent back to their respective Habitations, when this Service shall be over, unless any of them shall desire to settle elsewhere.

As to the Article of Arms and Cloathing, for the Men to be raised, His Majesty has commanded me to recommend it to you, and the other Governors, to take Care that the Soldiers may be provided with them; and His Majesty has authorised, and empowered Lieu^t General S^t Clair, to make a reasonable Allowance for defraying that Expence.

You will recommend it to the Council, and Assembly, to provide a sufficient Number of Transports, to carry the Troops, to be raised in Connecticut, to Louisburg; and from thence up the River of S^t Lawrence, and a sufficient Quantity of Provisions for their Subsistence: And also to provide as many armed Vessels, as can be got, to serve in the Expedition, under the Command of Reare Admiral Warren.

I am ordered by His Majesty to recommend it to you, to make the strictest Enquiry for any Persons, that may be acquainted with the Navigation of the River of S^t Lawrence: And if You can find any such,

You will engage them at any Rate, to serve as Pilots on board His Majesty's Fleet, and You will send them as soon as possible to Louisburg; for that purpose.

I am, Sir,

Your most obedient

humble Servant

LOUISBOURG April 15th 1746

Hon^{ble} and Dear Sir,

As I have wrote you at large since I have had any of your Favours, and am greatly hurried, I beg Leave to referr You to Colonels Lothrop and Goodrich for a particular Account of Affairs here; but having this Opportunity by a Vessell bound to Connecticut I could not omit my Compliments to You, and just let you know that, through God's Goodness, I am still alive. We have endured great Hardships and Anxiety the Winter past, especially on Account of the terrible Sickness, and Mortality that has raged amongst us, to such a Degree, that it look'd sometimes as if the whole Army was destind to Destruction by it, and which has actually carried off above one third of our Numbers since November, But Blessed be God, he has in the midst of Judgment remember'd Mercy and I can now with pleasure inform You that it is a Time of General Health in the Garrison

Among those that have been taken away, is the Reverend and valuable M^r Baccus, who was much esteem'd here, and his Death greatly lamented.

As his Majesty has been graciously pleas'd to give me the Command of a Regiment, for the Defence

of this Place, to be rais'd in his American Colonies, I hope I shall have the assistance of the Gentlemen who were with me on the Expedition, and I flatter myself that your Intrest will not be wanting to promote my raising part of it in your Colony. It gives me much Uneasiness that it is put so much out of my power to reward the good Services of the brave Officers who by the Blessing of God on their exemplary Bravery, and Resolution to surmount all Difficulties in their way have gain'd the noble Acquisition What little I have in my Power to bestow I shall endeavour to distribute in the most impartial Manner I am able and sincerely wish it was in my Power to reward every Officer and Soldier that came in that Expedition

I hope your Government will be so good as to transport what Men shall be raised amongst You to those Vessells that they send to fetch home their Troops now here

I am with much respects

As I have wrote you at large since I have recieved any of your Favours, I shall not inlarge at this Time, but referr your Honour to Col. Lothrop and Col. Goodrich for the particular Account of Affairs

here But as I have this Opportunity, by a Vessell bound to Connecticut, I could not omitt paying you my Compliments. We have endured much Hardship, and Anxiety in this Garrison the Winter past, especially on Account of the grievous Sickness and mortality that has prevail'd among us, and has carried off above one third part of our Numbers since November last; But Blessed be God that he has in Judgment rememberd Mercy, and it is now a Time of General Health among us. As his Majesty has been graciously pleas'd to give me the Command of a Regiment for the Defence of this Acquisition to be rais'd in his American Colonies, I cannot doubt of your Interest to promote the speedy Raising of it as this Place when once well garrison'd will be of great Advantage to the neighbouring Colonies, without any further Expence to them.

I am extremely sorry that I have it not more in my Power to reward the good Services of the Brave Officers who were with me on the Expedition: what little I have in my Power I shall endeavour to distribute in the best Manner I am able.

This waits on you by M^r Whiting, whom I have employ'd to recruit for my Regiment in Connecticut, in which I beg your Honour's Favour and Protection of him, and I hope your Government will transport what Men may be raised there, in those Vessells which they send to fetch home their Troops now here. NTH HAMPTON April 24 1746

S^r,

Tuesday night at ten of the Clock I had an Express that Informed me that a man travailing between Fall Town and Deerfield was Shot at by one or more Indians, I saw his hat & it was Evidently shot through the Brims on each side, the Ball passed through within less than an Inch of his forehead.

yester Evening I had an account that Upper Asshuelot was beset by the Enemy, Cap^t Field writes me that the People at lower Asshuelot heard the Guns firing at the Upper Town for three quarters of an Hour, they sent some men to the Top of a Mountain from whence they had a good Prospect though at about three Miles distance. they saw divers Houses in aflame, and Judged that the Meeting House, M^r Bacons, and others were on fire but the smoak was so great that they could not well distinguish. the Guns continued playing. I have sent near two Hundred men to their relief.

I was in some doubt whither to send this Express, but supposed that it would gratifie you and others to be Informed if it had no other effect.

I can't at present give you any account what mischief has happened to any, there being no Person from thence to tell us.

I am S^r Your very Humble Servant.

Your Packet I have rec^d & shall carefully forward by the first opportunity, which I doubt will hardly be in less than a fortnight I hope as the Rebellion is over, the Channel will be better guarded than it could well be when the men of war were confined to watch the Coasts & prevent defionts or landing troops The trade here hath suffered extremely by the many vessels taken going from & coming to this place, I am with a very high respect.

BOSTON April 26th 1746

Sir;

It is very disagreeable to hear the Complaints of the Failure of your Governm^t in performing the Stipulations & Conditions on your Part made & engaged in settling the divisional Line between us, We now refer particularly to the Difficulties Col^o Hutchinson & his Sister Wolcot (Heirs to Major Thomas Clarke) meet with in the five hundred Acres at Auguebuck.

This Tract is expresly agreed to be & remain as granted & laid out to said Clarke, to him his Heirs & Assigns for ever, in the very Instrument

for settling the Line between the two Governments, under the Hands & Seals of the Commissioners on both sides June 13th 1713, as well as included in the general Agreem^t that the Lands granted by either Government near the Line, tho' on running it they should fall out of the Governm^t granting them, they should yet remain to the original Grantees according to Priority of Grant, and on July 12th 1714 the Governour & Commissioners of both Governments agreed that this land belonged to Major Clarke, and that an Equivalent should be given by this Government to Connecticut for it, w^{ch} the Massachusetts have been ever ready to do, since the Survey of it was made, and therefore by the most express Declaration of both Parties this Land ought & is to be and belong to said Clarke & his Heirs & Assigns for ever.

We therefore hope, Sir, that your Government will forthwith take effectual Care that Justice is done to Col^o Hutchinson & M^{rs} Wolcott, by putting 'em into Possession of the before mention'd Lands, in Consequence of the Agreement between both Governm^{ts} & pursuant to the good Faith with which it ought to be carried into Execution as well on the Part of the Colony of Connecticut as of the Massachusetts Governm^t which has ever been & still is ready to give an Equivalent for 'em.

Sir,

The weak Condition of this Garrison by Sickness put us under a Necessity of applying to your Honour, by our joint Letter of 25th of January last, for a Reinforcement as early as possible this Spring; lest we should be disappointed in the Troops intended for our Relief from Gibraltar; but as they happily arrived here the 21st of last Month, and as the Sickness is greatly abated in the Garrison; we flatter our selves that if the Colonies, who are, as well as our Mother Country, greatly interested in the Safety and prosperity of this Acquisition, will forward the raising and

transporting Levies, so as to keep the four Regiments, appointed for its Protection, compleat; we shall have no further Occasion to put them to any Trouble or Expence, for the Defence of this Conquest: But as we find that the two Gibraltar Regiments do not consist of above 1200 Men, Officers and all, including two Companies and a quarter yet expected in a Transport from New York; and that, (besides the old Troops, for whose speedy Dismission, you are sensible, the Faith of the Governments to which they respectively belong, is engaged, and our promise also) we have not above 400 Men belonging to the two new American Regiments, including those that have inlisted here, and that have been sent from New England, which makes it all but about 1600 men; we hope the Levies will go on well in all the Colonies, that it may be in our Power to keep their, and our Faith with the old Troops. And as the Good of his Majesty's Service is so greatly herein, we doubt not but your Government will afford their best Assistance, by Encouraging the Inlistments among them, and transporting what Men may be raised, by all such Vessels as may be bound here, from your Government. We shall send home, by every Opportunity, as many of the old Troops belonging to the several Colonies (whose health or other Necessities most require it) as the Arrival of the Levies for the new Regiments, and the other Circumstances of the Garrison will admit of. WILLIAM SHIRLEY TO JONATHAN LAW.

BOSTON May 12th 1746*Sir,*

As his Excy Governour Clinton of New York has sent circular Letters to the several Governours on the Continent as far as Virginia, to propose a Convention of Commissioners from each Governm^t to consult upon Measures for carrying on the War against the common Enemy, and I find no other fruit of this seasonable Proposal so much for the honour of his Maj^{ty}s Governm^t & the Safety of his Subjects, but the chearful & ready Compliance of this single Province (who have chosen Commissioners for this Purpose) I think my self obliged in common Humanity to my fellow Subjects (who are daily suffering under this bloody & Savage War) as well as in duty to his Majesty to second these Proposals of M^r Clinton with my earnest Sollicitations that this Affair may be once more seriously considered by the several Governments in all its Circumstances.

It is well known that such is the Situation of the French in these Northern Parts, where they have not one single Port, & such the superior Strength of the English that by the ordinary blessing of Providence upon our vigorous Endeavours their Destruction would be inevitable, but if the Places that are now free from any immediate Danger by the French & Indians on the Land Part will be deaf to all the Sollicitations from the Colonies that are most deeply affected with this War for Succour in their distressed State, in a short time the Enemy will in all Probability depopulate such unhappy deserted Provinces, & then those who now think themselves in Security will feel the Miseries of this bloody War, & too late repent of the Neglect of their own Inter-

est as well as their Disregard to their fellow Subjects. And what is greatly to be lamented in our present Case is, that with all the Advantages we have over our Enemies, yet for want of an Union of Councils among ourselves (which renders us contemptible in the Eyes of the Indians) the French, who are weak in themselves, but in the strictest Combination with one another and the Savages that dwell among or near them, are like to bring the six most powerful Nations of Indians on this Continent (which have hitherto from time immemorial been firmly attach'd to the English Government) over into their Interest.

In this Situation of our Affairs we can have no Prospect of any thing but Misery & Desolation unless the several Governm^{ts} will joyn in the firmest League against the common Enemy, & carry on the War with Vigour & Resolution; & then we may hope for the Blessing of Divine Providence to render our Designs successful, I must therefore entreat your Honour to lay this Matter before your Assembly, & to do all in your Power to spirit them up to Resolutions becoming the Character of English Men

I am with great Regard Sir

I suppose that the last Mischief I Informed you of was at Upper Asshuelot. this day Sev'night about

10 or 12 Indians attacked Several men at N^o 4 within sixty rods of the fort, they killed one man, and attempted to Scalp him, but were prevented by our mens firing at them, the same day our people found a man killed about 4 or 5 Miles East of Winchester, Supposed to be killed 9 days before in his return from Boston. on Sabbath was Se'night two men were Shot upon at lower Asshuelot, it is Supposed by the signs that they are taken.

on fryday last Deacⁿ Sheldons House & fort at fall Town were attacked by about fourty Indians as was Supposed, only one man Slightly wounded one House Burnt and some Cattle killed.

on the same day two men wounded at fort Massachusetts at Hoosuck. on Saturday afternoon one man killed and two women wounded at Colrain, a Connect^t Souldier (as I am Informed) carryed the Women safe to the fort.

we have probably about two Hundred of the Militia and Garrison Souldiers in quest of the Enemy, but unless they chance to meet with them they will Scarcely be able to drive them from our Borders. I hear that they are daily at Lower Asshuelot, appear in open view, Yell to one another in hearing of the forts, and lately they got on an Eminence and rolled down great Stones in sight of the fort. and indeed they make a derision of us.

I have as many Messengers with Evil tidings as Job had, though I have not so much Patience.

but when I consider that People are daily killed and taken, in many places the Inhabitants Shut in, and cannot do any business, the Militia often called abroad to Succour their neighbours to the ruin of their own business, and the number of Souldiers altogether Insufficient to protect the frontiers, none to

range the Woods. or to watch the Indians roads, or the Rivers they pass up, or to go into the Enemies Country and give them some diversion there I think I may without Offence to any say there Surely is a fault, but Shan't take upon me to Judge who must answer to God for the neglect.

I Suppose we have now above an Hundred men in Pay above the Line of Government and above an Hundred and fourty in this County (exclusive of Connecticut men) beside what are Posted in the Counties of Middlesex and Worcester, up Merrimak River and in the Prov^{nc} of Main, which I suppose are between two and three times so many as we have in these parts of the Country

I Rec^d yours of y^e 12th instant which I immediately Laid before our Assembly thô before that on the Motion Made by Gov^r Clinton and a Like proposal Made by Leu^t Gov^r Phips which were Communicated to y^e assembly they had come into a Conclusion to appoint Commissioners and accordingly had Ap-

pointed them to Meet with Commissioners from the other Governments to Consult upon Measures for Carrying on the present war who will attend Such Convention for that purpose: our assembly seem much Engaged to Exert themselves in a vigorous Manner and to be very Desirous of a union of Council & force in this Common Cause against the Enemy I am therefore Desired to acquaint Governour Clinton and your Excellency of our Resolves and to move him & you to forward the Meeting of the Commissioners we shall wait for y^e appointment of time and place of Meeting which I suppose Gov^r Clinton will undertake to Determine, as your Excellency has manifested your Concern to promote this matter So it will be needless I conclude for me to press y^e Speedy Convention of y^e Commissioners our assembly have also Resolved to Joyn with your Governm^t & the Governm^t of New York in sending out Scouts into y^e Enemys Country and given a Generous Encouragement for y^t purpose and when wee are informed that those Provinces or Either of them Determine to Come into the like measures with us Shall vigorously put in Execution what is proposed on our Part so far as our ability will permit, this Day the Assembly have ordered three or four hundred of y^e militia to go to y^e Releife of our & your western frontiers and Repel the Enemy which by Late intelligence we hear are approaching Near those parts. I hope the Spirit & Resolution which appears in the Colony may be of some Service to Animate our Neighbours of other Governments more vigourously to exert themselves in the comon Cause, we have now in Service for the Defence of your frontier viz. about fifty men up the River and Sixty posted and ordered in your western frontiers besides what we are forced to Do for y^e Safety of our own

Immediately after the opening of our Assembly, I Communicated Your Excellencys Letter To me of y^e 31 of March Last relating to the appointing Commiss^{rs} to treat with Commiss^{rs} y^t were or might be appointed by y^e neighbouring Governm^{ts} touching our Mutual Security & Defence during y^e present War. And I can with pleasure Signify to you that it was Thereupon Unanimously, Resolved, That it was a matter of Great Importance that the British Governm^{ts} on the Continent Should unite in Measures for the purposes afors^d & that y^e motion made for a Meeting of Commiss^{rs} at Some proper Time & place was to our Assembly most Agreeable, & Thereupon they proceeded to Nominate & Appoint y^e persons Therefor. And now Since Y^{or} Excellency is the first mover in this affair it will doubtless be Expected You Should appoint Time & Place for Such a Convention & I would take y^e Liberty to urge That it may be Done without Delay, it will be Some considerable time before the affair can be possibly Entered upon by Commiss^{rs} whose dwellings are at Such a Distance. the Enemy Seem to be advancing into our borders and we have frequently acc^{ts} brot to us of mischeif done by them and Just now are Informed That a party of y^e Enemy in Your Govern^t advanced in Sight of

I have received Your Favour of the 20th Instant, acquainting me with the appointm^t of Com^{rs} in Your Government to treat with such Commissioners as are or may be appointed by other Governments upon this Continent for their mutual Security and Defence against the Enemy, w^{ch} I conceive is a Measure of the last Consequence in regard to the Common Cause, as the French and their Indians are so Enterprizing & barbarous upon our Frontiers; and I shou^d have been glad if You had sent me the Names of Your Commissioners,

that the Commissioners appointed by me might have entere'd upon a Correspondence by this Post, about the time and place of Convention with which I hope You'll acquaint me by return of the Post, that no time may be lost in bringing about a General Meeting. In the mean time I conceive some part of this Province, somewhat remote from this City may be thought a Place agreeable to all Partys, as it tends rather to the Center, especially as Merryland has absolutely refused & see but little hopes of Virginia or Philledelphia.

I send your Honour by Express a Packet directed to you, and delivered to me (with others to the rest of the Governours in North America) by Cap^{tn} Townley Commander of his Majesty's Sloop the Hinchbrook, sent hither for bringing his Majesty's Orders to the said Governours to raise a sufficient Number of Soldiers to assist in an Expedition his Majesty has set on foot for the Reduction of Canada; a full Account whereof I presume is contained in your Letter.

And as your Governm^t has hitherto manifested a distinguish'd Zeal for promoting his Majesty's Service, & reducing the Power of his Enemies, in the Expedition against Cape Breton, And the general Advantage of Success in this Affair will be so great,

I presume your Assembly will engage in it with the utmost Alacrity, And I can have no Doubt but that your Honour will do every thing in your Power to excite such a Spirit in them on this Occasion as will highly recommend them to his Majesty's Favour. And I dare undertake for the Massachusetts that nothing will be wanting on their Part that is fit or possible to be done by them.

I am with great Respect Sir

It is my Opinion y^t to render the propos'd Attempt successfull, 10,000 Men ought to be rais'd within the Colonies in the whole; and y^t we should enter the Enemy's Country with 6,000 of those men at least by the way of Albany. I shall be glad to consult wth your Excellency and Major General Woolcott upon this Affair, and to know your honour's, and his sentiments upon it as particularly as may be; For the Duke of Newcastle mentions in his letter to me y^t it will be left to General Saint Clair, M^r Warren and myself to alter and finally adjust the plan; and I am for that purpose orderd to Louisbourg as soon as I shall have compleated the Levies that can be rais'd within this Governm^t, w^{ch} I shall propose to the Assembly to be ab^t 2000, if possible; but 1500 at least.

I have just Time to inform your Honour that the General Court of this Province have come in gener-

ously & chearfully to promote the Expedition; which you will perceive by the inclosed Proclamation: I hope your Assembly will do their Part as well

I think it proper to Acquaint your Honour that as the Duke of Newcastle has informed me that his Majesty will give Power to Lieut' General S^t Clair, Admiral Warren & my self to alter any Part of the Scheme for Prosecuting this Expedition, if we judge it adviseable; I shall endeavour that the Connecticut Forces & such of our own as may be raised in the Western Parts of the Province may join with the Army that goes by Land; If this be accep to you be pleased to let me know it.

I think the Mohegan Indians might be of considerable Use in this Expedition; and might be taken into the King's Pay.

We have a Rumour here that your Assembly have Voted to raise only six hundred men for the Expedition which much Surprizes me, considering what I have heard of the Inclination of your People to this Service, & how extreamly you are below your Quota, the Number of your Inhabitants being generally estimated at more than one half of our Number; & I must beg of you to urge your Assembly to make a proper Addition to it, if this Report be true; For the Rule of your Quota with respect to us is the Number of the Inhabitants of each Colony, as in this Case the chief part of the Charge will be at the Expence of the Crown.

Sir

The inclos'd of the 2^d Instant should have been
sent by last Post—since when I receiv'd your honour's

of the 4th Instant, and shall do what I can towards procuring Commissions for field Officers.

I wish you success in the raising of Volunteers within your Governm^t, w^{ch} I perceive has not limited any number: and I hope as your Inhabitants amount to more yⁿ half the number of this province's, if not to two thirds of the number, y^t Men will appear in proportion to enlist at this Critical Juncture for the extraordinary service of their King and Country.

I shall be very glad to see Major General Woolcott and Col Trumball upon this occasion; and to hold a correspondence with your Honour and your Governm^t upon this Expedition in every material part that may occur to you or myself for the success of it and am with respect.

Sir, your Honour's most

NATHANIEL EELLS TO JONATHAN LAW.

May it please your Honour,

To me 'tis an uncommon business I now Undertake, Tho' doubtless Your Hon^r has been troubled with many Addresses of like Nature; yet I perswade myself that it will be no otherwise than gratefull to you, that you have it in your Power to befriend One, whose family you highly respect. Sir, The Matter is this, My good Friend and Neighbour Cap^t John Whiting Esq^r has a disposition and desire to serve his King and Country in y^e intended Expedition against Canada, provided he can do it in a Capacity somewhat equal to y^e Character and Dignity he has

sustained among us. These are therefore to Entreat your favour for him and readiness to promote him to a Captain's Commission in the Army, if there is a Vacancy, or should be an Augmentation of our forces. Sir, you know y^e Commissions he has already sustained in this Colony; In y^e Execution of which he has behaved worthily, with Honor and fidelity; and in all things has steadily maintained the Honour of your Person and Administrations when others around him have been shifting. It mayn't be amiss to intimate, that y^e favour I crave for him, would be Especially obliging to him att this Season, when by repeated Losses att Sea, and abounding Generosity to his friends his outward Substance is much diminished. If Reports have reached your Hon^r that M^r Whiting is inclined to y^e Established Church: This I can say, that Temptations have lain that way, but he seems to have overcome them; He has all along behaved like a fast friend to our Ecclesiasticall Constitution, and has of late been Exemplary in preserving y^e Peace of the Churches and Order of y^e Gospel; And doubt not, he may be so in time to Come: But Sir, I will not trouble you further, Your Wisdom and Benevolence will outdo all my Arguments, only pardon my Freedom and boldness, And Accept y^e highest Respects from

Your Honour's

much obliged and hum^{bl} Ser^t

I herewith Transmit to you a Copy of an Act of our Assembly in the last month which happend to be omitted when I wrote last att Hartford, at which time having rec^d the D: of New Castles order for an Expedition against Canada our Assembly Imediately came into a Conclusion to raise 600 men and more if they can be obtain'd which we are now by officers appointed Enlisting and the people Seem to be in high Spirits. N England Borders and N York are continually harrass^d by our barbarous Enemies, which makes our burthen encrease to a great Degree the Consideration whereof you will add in craving his Maj^{ties} favour for a Reimbursement

Sunday last about 5 o Clock P. M. by an Express I recei^d your's of the 2^d Instant, I had order'd my Com^{tt} of War to attend me the next day (our Assembly having been adjourn'd the Saturday before the Date of yours) with whom I had the Opportunity to advise,

The Act of our Assembly being positive that our Troops should Embark at N London for Louisbourg & from thence proceed to the Place of Action, & nothing being left to me but what was not specially

provided for by the Assembly, it was tho't what you propos'd could not be comply'd with, without the Advice of the Assembly w^c would occasion too great a Delay to the proceeding, the Embarkation was hop'd to be by the End of this Month, so that we go on making the Levies & preparations for the Embarkation. And wee have appoint'd 2 more Capt^{ns} for raising 2 more Comp^{as}, not concluding to add no more, if things sh^d appear with an Encouraging Aspect on the present Attempts. I have rec'd a Line from Gov^r Clinton ab^t the meeting of Comniss^{rs} wherein he say's Maryland has refus'd & has little hopes of Virginia & Philadelphia w^c makes me conjecture the reason of your Alteration of your Sentiments about the Plan to be a Doubt a^{bt} the proceeding of the Southern forces by Land. with respect to the Commissions to be sent us I Trust y^r Excellency will take notice of my last to You. I have a private Letter from a Merchant in Boston wherein I am advised that the Assembly there have Voted £100.000 old Tenor to be made to pay the Bounty and purchase Blankets for 3000 Men they leave it to the Governour to find y^e Provisions and Transports and Draw Bills on y^e Governm^t at home for the Cost this Resolution of the House was taken

on a Petition of the Merchants & others wherein they Desired no more money might be made and they would lend the money & take the Governours Bills on y^e Governm^t at home for the pay and should the Bills be protested the Massachusetts Governm^t to repay the Merchants in one Year without Interest. Before y^e abovementiond Petition the House of Representatives had passed a Supply Bill for £500 000 old Tenor. (My Friend adds) what the Governour will do on this Affair is not yet declared but undoubtedly he will draw the Bills Directly rather than let the Affair drop. A Commissary Generall is expected dayly in Boston who is there to Supply Provisions and Necessaries for the 6000 Men coming from England which must make Provisions Exceeding dear.

This last Paragraph Your Honour will please not to make more publick than may be needfull for the Colony's Interest as I am buying Provisions abroad for the New Hampshire Forces

Perhaps your Honour is already informed of these things but lest they should Neglect to write from Boston I thought it my Duty to do it.

I cannot but think it a little odd y^t Governour Shirly should mention his recommending to y^e Massachusetts to send 2000 or 1500 Men and the Matter should open at 3000 I confess I heartily Wish this Colony had Sent a Number equal to New Hampshire and especially as I find they conclude in Boston that the King will pay for Provisions and Transports

Sir,

As from the Discourse, I have had with Lieuten^t Gov^r Woolcott, Col Trumbull, & Col. Williams it seems necessary y^t your Honour should speak with the Assembly upon the Articles of Bounty money, and Number of Men to be rais'd, I take the liberty to recommend as much Dispatch as may be in it. I could wish y^t the four Colonies of New England at least had agreed upon the sum to be given for Bounty, in w^{ch} case many Inconveniencies would have been avoided.

I hope we shall strike home, now we are aiming this Important Blow ag^t the Enemy, and y^t it will be a Decisive stroke for the peace & prosperity of the British Northern Colonies for the future, w^{ch} will depend upon having proper Numbers to answer the Service of the Expedition, without which all our Expence and many of our people will be thrown away, and we be in a worse Condition yⁿ before we engag'd in this Enterprize, w^{ch} God forbid.

I must referr your Honour to M^r Woolcott for what has been settled between us in consequence of your Commission to him and Colonel Trumbull and wishing success to the Expedition.

S^r

In Pursuance of our Instructions from the General Assembly, we repaired to Boston, and conferred with his Excellency Gov^r Sherley on the Subject of the Expedition To Canada, and concluded with him that our Throops go there by the 13th of July next,

*The General Assembly in May 1746 appointed Wolcott and Trumble "speedily to go to Boston and consult and advise with his Excellency Governor Shirley about the needful preparations for the comfortable subsistence of the forces to be raised in this Colony for the expedition to Canada, and their being convoyed to the place of rendezvous, and all other things needful for promoting said expedition, and report upon their return to his Honour, the Governor."—*Colonial Records, IX, 214.*

and To Take convoy with Those from that Province and New Hampshire, and Gov^r Shirley will endeavour to have Two men of War with the other Armed Vessels for that End: and we further find That The Province of the Massachusett: Bay have agreed to raise Three Thousand Men, & Encourage them with a premium of £30 To Each Man; besides cloathing, Arms, & a Blankett; and one bed To Every two men; and The Province of New Hampshire have agreed To raise one thousand men On the like Encouragement, and Gov^r Wentworth writes That near one half of That number are already Enlisted, and the other part like to be soon Enlisted There; all which will certainly soon be known, and may render our men very discontented who are enlisted, & discourage & much hinder further Enlistings among us, and may prove very preejudicial To The Design, and we may thereby meet with blame both among ourselves, and at The Court of Great Britain if the Design should happen To Fail by any Such means; We Therefore recomēd it To Your Honour's Consideration as our Opinion, That it is for The Honour and Interest of our Colony That we Endeavour To raise a Larger Number of men than The 600 proposed, & That in order to it The Encouragements be made Equal To what is given in those Two Provinces, which is indeed less Than what is offered in the Colony of Rhode Island, and Therefore Think it needfull That the General Assembly be forth with called Together to Deliberate, and come into such Conclusions upon it, as shall be by Them Judged best. And If Your Honour should Think it expedient To call for The Assembly To meet, This Express Messenger may return Thro' Durham, & bring the orders for the calling The General Assembly, & leave at Col^o Wadsworth's

such Summons for The Gentleⁿ of the Council, & Representatives as he can most conveniently get Served, and as he comes Thro' Haddam, East Haddam, & Colchester he may Summon The Gentleⁿ in Each of Them Towns, and Then at Lebanon he may Leave with Col^o Trumble The Summons for The rest of The Towns near him & on The Eastward. And Since more Officers may be Appointed, The Treasury Hartford, from whence by the Representatives or Themselves, they may receive the Enlisting money &c, So we Submit it to Your Honour, whether it would not be expedient that the Sessions of the Assembly be there to Redeem Time.

NEW HAVEN July 3^d 1746*Honoured Sir*

Thus far am proceeded intending to have waited on your Honour, but my rideing aggravates my difficulty So much that I can't proceed any farther, must therefore refer to writeing, as the time allow'd will not admitt of delays. Your Honour is Sensible that y^e lives of y^e men will (in a great measure) depend upon their Phisicians & Surgeons, which makes it necessary y^t they shou'd be skillfull, judicious, industrious & faithfull ones, have taken a great deal of pains to find out Such & at last concluded (with your honour's approbation) to pitch upon the bearer; John Hart who is now on board y^e Country Sloop, & as to a third I know not where I can light off one to answer: Am inform'd of one Allen of Fairfield, who, if Col^o Burr or any of the Hon^{bl}e Councill y^t know him, can recommend as a Sober dilligent man knowing his bussiness & will not abscond from it, will answer the end, for y^e practise of phisick and Surgery there is quite different from what it is here, So y^t dilligence, a good report of the Sick, & duely executing prescriptions to them is a thing most materiall among Mates.

Your Honour is very Sensible what care & charge Such a number may require, therefore I look upon it worthy your honour's consideration to allow me more help, if Such be granted (as I believe y^e affair requires it) wou'd look upon M^r Jonathan Marsh who lives with Doct^r Porter of Weathersf^d & has had considerable practise, to be a Suitable one for bone-Setting, & help to dress wounds, I recommend this y^e more knowing my constitution is impaired by y^e

last expedition, & your honour may remember I then had no warrant which was considerable damage, & without which I cou'd not oblige my Mates to do their duty So well as y^e Exigency of y^e case required, for it's well known they all left me & that my consent was not requir'd, but Col^o Burr was So good as verbally to appoint one Tozer for me, prov'd a faithfull & dilligent mate while he lived; therefore hope your Honour will Supply me w^t my warrant in last Expedition, & likewise in this with a power of Substitution of mates if need be: The Kings pay to them is So Small y^t I am affraid they will not accept without your honour & hon^{ble} Council will Stipulate with them, which with Submission I look upon to be necessary.

By a letter from Esq^r miller of New London to Esq^r Stanly of Hartford I understand y^t my chest from Louisbourg is return'd there & that there's Some medicines left (which I look upon as my right y^t expedition being over) wou'd be cheaper considerably to refitt them, together w^t an Addition proportionable to the number of men, than to purchase a whole chest afresh, I can Supply Some considerable out of my own Shop, which can Sell the Colony as cheap & as good as any other person can afford, even Some y^t I Scruple can be got no where else which are absolutely necessary, for in Short druggs are So Scarce in Boston y^t one can't find a common Sortement, the reason of my haveing druggs upon hand, is my undertaking in the last Expedition for my brother being then just return'd from London with a parcell, had not time to use them.

It wou'd be a pleasure to me to wait upon Honour & Council but as I can't—I remain

Sir

Agreable to order of Assembly I have diligently pursued the enlisting of men for the Expedition to Canada, and have obtained between 40 & 50, according to the Account you'l receive from my Lieut^t Fitch, who I have Sent to Inform of our Doings, & To Take further orders, and hope you'l excuse my not coming myself; and The Ensign Sharp nominated by the Assembly for my Company hath refused to undertake the Service, whereupon sundry have been with me upon it, the Principal of whom are Ensign John Huntington, who went with me in that office To Cape:Breton, and altho' he refused to go in that Capacity under Cap^t Lee, yet is desirous to go with me, and Desires me to reco^mend him to you, and 'tis certain he did good Service there; and will be agreable to me; There is also Doc^t Fitch who came lately from Cape:Breton is desirous to have that Co^mmission; and There is one M^r Seth Paine of Pomfret who is desirous of it, and The people at Pomfret are apt to think it their right To have an

officer from thence; M^r Theophilus Fitch hath also made the same request, he Lives at Stoningtoun; whomsoever Shall be appointed I depend will be agreeable to me;

BOSTON July 4th 1746

Sir,

Last Week M^r Warren came here in the Chester from Louisbourg, in order to settle with M^r Shirley (and General S^t Clair's Approbation when he shall arrive) the Plan of Operations for the Expedition against Conada, in the most speedy manner, which the advanc'd Season of the Year requires to be done without the least Loss of time, as it also does that all the Governments concern'd in it should push on the completing of the Levies, & making the necessary Preparations & Dispositions for it within their respective Colonies with the utmost dispatch, & in doing w^{ch} we think they should act with the utmost Vigour, not regarding what they may esteem to be barely their just Quota & Proportion of Men & Money in this Expedition, but the Importance of the Enterprize towards either laying a most sure Foundation

for the general Welfare & Prosperity of all these Colonies, or leaving 'em in so precarious a Situation, as may sometime or other expose 'em to be reduc'd under the Power & Subjection of the French; upon which Account they should consider themselves as one Body united in the common Cause, in which if any one particular Colony should exert it self beyond either its just Proportion or Abilities, it may (we doubt not) be depended upon that the Exceedings of such Colony will be made up to it either by an Average to be afterwards settled among all the Colonies concern'd, or by a Reimbursement from his Majesty or the Parliament of Great Britain. And it ought to be in a particular manner consider'd, that this will in all Probability be the only favourable Opportunity of attempting the driving of the French off from the Northern Part of this Continent, which if now neglected may never be redeem'd, but follow'd close by an endless Train of Disadvantages & Difficulties to all his Majesty's Northern Colonies, too many to be enumerated here, & too obvious to need it. Wherefore we trust that all his Majesty's Governments upon this Continent will leave nothing untry'd for raising a sufficient Force for securing the Success of the present Enterprize, that is, all the Force they can raise.

The securing of the Assistance of the six Nations we esteem a Point most essential to the Success of the Expedition, and necessary to be gain'd at any rate: M^r Gooch writes to M^r Shirley that he will come with Presents in his hands for this Purpose.

All possible dispatch is so apparently necessary for our succeeding in this Expedition, or even proceeding upon it, that we are perswaded your Honour will agree with us in it. We inclose your Honour a

Memorandum of what we apprehend necessary to be provided, & doubt not but you will be pleas'd to provide what part of 'em can be had in your Government; We hope in particular that two arm'd Sloops, Brigantines or Snows with 80 Men & 10 Carriage Guns each may be procur'd by your Honour; And we think that as it will be absolutely necessary that the Troops should be prepar'd to winter in the Enemy's Country, ten Months Provisions should be got for 'em, and some Salt put on board every Transport, which will be of Service to cure what fresh Stock may be had in Canada; And as there will be a greater Number of Seamen wanting for not only the Transports & arm'd Vessels from the Colonies, but his Majesty's Ships also at Louisbourg, the Vigilant in particular, we hope your Honour will assist as much as may be by an Impress or otherwise as you shall think proper.

We have in a joint Letter desir'd Lieut^t General S^t Clair to come to Boston, as it will save much time in forwarding the Expedition, for doing which nothing shall be wanting on our Parts, nor will we are perswaded on your Honours.

We are with very great Regard

Sir, Your most obedient

We desire the favour of you to let us know as soon as possible the Number of Troops you shall be able to raise in your Governm^t & by what time they will get to the Place of Rendezvous.

Sir,

As we are of Opinion that no time should be lost
for sending the Forces now raising in your Govern-
ment to the Place of Rendezvous as soon as possible,
whether your Honour shall be of Opinion to send
'em directly to Louisbourg, or to Nantasket in order
to proceed from thence with the Massachusetts Troops
& under the same Convoy; we thought it would be
proper to communicate our Sentiments to you, & in
particular that we think it a very material Point
that the Troops should proceed with Provisions for
ten Months.

As we have the utmost reason to apprehend from
the Declaration in the Duke of Newcastle's Letter to
M^r Shirley of the 9th of April concerning the Appointm^t
of Officers to command the Forces now raising in
North America, that the Governour of every Colony
where a Body of Men shall be rais'd sufficient to form
a Regiment will have the Appointm^t of Field Officers
for that Regiment, we hope in Case any Accident
should prevent the Arrival of the Fleet & Commis-
sions longer than it was expected, that it will not
hinder the Officers from proceeding with the Men
under their Command, as they may depend upon
having at all Events the Commissions for w^{ch} they

are nominated by their respective Governour ; who will receive Blanks to be fill'd up by him for that Purpose.

Maj^r Hamlin supposed it needful to have a Chest to two Men, considering the great Bundle of Cloathing each must have, & other Useful Appurtenances, & Suffer me to say I apprehend it will be little short of murdering men, to Tumble Men into Small Vessells where there will be a Boisterous Sea, as this Navigation is Attend^d therewithal, & when Men^s spirits are Evaporated, & Exhausted, Mortality En-sues, We have prepar^d a Transport for my Men & on Thursday can receive on board, at N Haven

I hear with pleasure that your Companys are compleat. In M^r Shirley's & my joint Letter, I hope We have removed the doubt about the Commissions, & that no difficulty will arrise on that head, since it must be allowd that you have full Power to appoint all the Officers to act till the Kings Commissions arrive. I dont despair of going to Canada this year, if the Troops can be got to the Rendezvous at Louisbourg, in season & well equiped, but I presume

whether they do or do not, Crown Point will be attackd by the Forces of those Colonys that are directed to act by Land under Brigad^r General Gooch, the Reduction of which Fortress will be of very great Consequence to all the Colonys, whose Frontiers we suppose have been annoyd chiefly from thence, you may depend nothing shall be wanting on my Part to carry on his Maj^s Intentions against our Enimys, and I am sure Posterity will have the greatest Reason to censure our Conduct if We do not embrace this Opportunity to exterpate so dangerous, & growing an Enemy as the French must ever prove to the Kings Subjects upon this Continent. GURDON SALTONSTALL TO JONATHAN LAW.

NEW LONDON July the 23^d 1746*Hon^{ble} Sir*

Your favours of the 12^t & 15^t Instant have before me, and observe the Contents. As yet no news of Gen^l S^t Clairs Arrival, no doubt when he comes to Boston he'll be furnisht with Comis^{ns} enough, for the Expedition; I apprehend that's part of the Gov^r & Adm^{ls} views, in sending for him to Boston, that no demurr may be made on that head. Cap^t Burnham came off a Cruise Yesterday, and sometime last week spoke with a Brig^{te} from Newfoundland; who a day after he left the Land, saw 8 or 10 large ships standing towards Louisbourg, w^{ch} he judg'd was part

of the English Fleet. The Snow Your Honour mentions is long since gone to New York the Cap^t was desirous of the Service, & desir'd no more then a Certificate, that he remain'd in the Service, w^{ch} would enable him to gett his pay at London of the Commissioners. this I advis'd Maj^r Hamlin off, (as he sent down a messenger to me, to know the State of that matter) & I conclude he advis'd your Hon^r off it. I shall make use of the Tents agreeable to your Hon^{rs} directions, & what Cloath^s may be necessary, tho' beleive the Soldiers have generally supply'd themselves.

Its difficult for me to certify Your Honour what Provisions the Commiss^{ys} have bout, Col^o Huntington & I, have about 400 barrells, It was aprehended at Court that 2500 barrells would be wanted; how near that quantity is purchas'd, Your Honour will better know then I; there's no more to be had this way; but as to bread & Flour wee are at no loss here, altho' the Embargo should be off. I am at a loss whether its expected that a large quantity of Salt be sent, to be made use off agreeable to Gov^r Shirly's Scheme at Canada. Every thing I can do to expedite the Grand affair shall be done. Tho' when to see the Transports here man'd, am much at a loss the Seaman require £15. to £20. ₤ m. & I fear wont go even at those Wages, unless they are compel'd; And Your Hon^r well knows, the Com^{ys} have not power sufficient to furnish the men in that form. morover, divers of the Transports are impres'd, the owners won't agree at £4. ₤ Ton; (w^{ch} I apprehend the Western Vessell's are taken up at) therefore the Vessells many of y^m lye without Mas^{rs} or Men, tho' the Stores are put & puting on board daily; they seem to insist on 14/. Sterling ₤ Ton, & the Colony risque

against Enemys & Seas since the Navigation up the River S^t Lawrence is so very dificult; So that I shall need direction in this dificult Situation with respect to the hire & manning the Transports

I send this by M^r Andrew Hall (a Member of the General Court here, & one of the Committee appointed to provide for our Troops raised for the Expe-

dition against Canada) to inform your Honour that, as we depend on the Southern Colonies for almost all Kinds of Provisions, our Supplies are now much short of what is necessary for the Subsistence of our Forces for that space of time that they may be employed in that Service, and in particular we are in great want of Pork and Beef. I have no doubt but your Governm^t have secured a Sufficiency for your own Troops; and therefore I must request of your Honour that you would continue your Embargo, so far as to prevent any Exportation of Provisions from your Colony, to those Parts where they carry them in the way of common Trade, and to permit any of your Vessels bound hither with Provisions to proceed without delay, & if for want of Provisions, (especially Meat) being now loaded on the Vessels bound for Boston, M^r Hall should find it necessary to purchase them in your Government, & take a Vessel or Vessels for transporting them hither, I desire your Honour would give him all the Assistance & Encouragement needful for their Dispatch

WILLIAM SHIRLEY TO JONATHAN LAW.

BOSTON Aug^t 2. 1746

Sir,

I am favour'd with yours of the 29th of last Month by your Express, in answer to w^{ch} I would inform your Honour, I apprehend from the best Computation I can make of the number of Levies rais'd within this province for the Expedition ag^t Canada (for the returns of all the recruiting Officers are not near come in yet) may be upwards of 2000; and I expect they will be all muster'd, and imbarc'd by the 14th Instant; and their proceeding to the place of Rendezvous will not be delayed an hour for want of the Arrival of the Commissions here: For neither the officers nor my self have any doubt, after the Advices we have reciev'd in the Duke of Newcastle's Letter, but y^t the appointments of the several Officers will be made good according to the nominations of 'em by the respective Governours or Governm^{ts} concern'd in the Expedition, provided field Officers are not made for any number of Companies under ten, nor any Companies are form'd of less yⁿ 100 men: And I shall be exceeding glad y^t the Connecticut Troops may partake of the Convoy, under w^{ch} the forces of this Governm^t shall proceed from Nantasket, when they shall stay for 'em one or two days rather yⁿ the levies of your Governm^t should lose the benefit of the

Convoy. But I would take the liberty to mention to your Honour y^t M^r Warren & I think it will be expected at least from your Colony y^t your Sloop sh^d be employ'd in the service of the Expedition; and we hope your Governm^t will be of the same sentim^{ts}, when I acquaint you y^t the Massachusetts Governm^t is fitting out four Vessells of Warr; the New Hampshire province (as we understand from Gov^r Wintworth) two; and the Rhode Island Governm^t their Colony sloop for the same service; Besides we think it would be no more yⁿ what prudence requires y^t your Levies and provisions should come under some Convoy even to Nantasket, w^{ch} we are of Opinion your Colony sloop would sufficiently afford 'em.

I intirely agree with your Honour in your sentiments contain'd in the postscript of your Letter, and fully purpose y^t in case we should disappointed by any Accident from proceeding this Year to Quebeck, the Troops rais'd in this Governm^t shall join those of the Western Governm^{ts} in making what Impressions we can upon the Enemy by land; w^{ch} we hope may be very considerable and y^t no small progress may be made towards perfecting the Conquest of Canada the ensuing Spring; I think at least our Operations by land may in such case answer his Maj^{ty}'s end Expencc and service, with that of the Colonies; and I can't doubt but the Governm^{ts} of New Hampshire and Rhode Island will be of the same sentim^{ts}, and readily join with us.

For this purpose M^r Warren and I are very desirous of the Assistance of some Gentlemen from your Governm^t (if you think proper) and New Hampshire in a consultation, and shall be 'oblig'd to Major Gen^l Woolcott and Colonel Trumbald, if they wil^l give themselves the trouble of letting us see 'em at

Boston as soon as possible, after your Honour shall receive this; and I shall upon this Occasion make the same proposal to Gov^r Wentworth for sending M^r Atkinson to Boston, and have wrote to M^r Kellog and Col Stoddard to be with us, as soon as may be, and hope to see M^r Lydias upon his return from the meeting of Gov^r Clinton and our Commissioners with the six Nations; and shall upon the same Occasion consult all persons in this province, who are acquainted wth the Country of Canada. And I can't but hope y^t the result of this meeting may be greatly for his Maj^{ty}'s service and the good of the Common cause, whether our Troops proceed to Louisbourg, and from thence to Quebeck (w^{ch} I hope and am persuaded will be the case) or are prevented by any unexpected accident. The utmost dispatch (as your Honour justly Observes) is necessary in our proceedings and not a mom^{ts} time should be lost.

As I am unwilling to detain the Express 'till I write to Lieuten^t Gov^r Woolcott I must beg the favour of your Honour to excuse me to him and Col Trumbal in a line accompany'd with a copy of this by the Express to 'em or one of 'em if you think proper.

It is now so late in the Day y^t, the Express waiting, I must conclude with subscribing myself with due respect

WILLIAM SHIRLEY TO JONATHAN LAW.

BOSTON August 18. 1746.

Sir,

I have received your Letter of the 12th Instant, & observe the Averseness of your Soldiers to leave the Colony before their Officers have received the King's Commissions, as also the Exception that is taken at my employing M^r Brentnal to raise a Company in your Government. As I has been informed by M^r Brentnal & others that your Levies have been a good while since, compleated, & that there were still a considerable Number of People disposed to enlist for the Expedition, and as I found we could not make up Our Quota within the Province, I had not the least Jealousy that my employing One of your own People to raise a Company in your Colony could give Umbrage to you or any of your Government.

And I think I can, according to the Rule, you seem to refer me to, of doing to others as we would they should do unto Us, sincerely answer you, that

if the Case of the Massachusetts were the same with that of Connecticut (as it has been represented to me) I should be willing Connecticutt Government should be supplied out of this: But if M^r Brentnal's or any other Officer's from hence enlisting Men should obstruct your Levies, there would be just Cause of Uneasiness; And if that be the Case I desire that M^r Brentnal may be obliged to desist. I would upon this Occasion acquaint you, That upon the late Expedition against Louisbourg, Governour Wentworth not only consented that I should raise, what men I could within his Government, but encouraged it to the utmost of his Power, & I accordingly raised about 200 Men there; And the Massachusetts Governm^t never opposes the Recruiting Officers that come with proper Authority from the West Indies.

We have no Advice yet of the Forces from Great Britain, & few Days further Delay will make us conclude that it is too late to proceed to Quebeck this Year; But if that should be the Case, I am fully of the Mind that we ought to bend all our Force against Crown Point, and I should be glad your Honour would engage your Thoughts on this Subject; For as soon as ever we can hear of the Effect of the Congress at Albany, I believe M^r Warren & I shall come to an absolute Conclusion on these Affairs; And if we proceed to Crown Point, it must be with all the Strength we can make & as early as possible.

BOSTON Aug^t 22. 1746*Sir,*

I have receiv'd a Letter from M^r Brentnal, whom I employed to raise a Company for the Expedition against Canada, within the Colony of Connecticut, who complains of great Opposition from divers Persons, and particularly that Suits in the Law have been brought against the Men that have enlisted, purely to hinder their proceeding, & some of them causeless and vexatious, & that after they have received their Bounty. I wrote largely to your Honour the last Week on the Affair of M^r Brentnal, and therefore have less need to trouble you with a long Letter now: But as I then said, I would now repeat it, That if M^r Brentnal's raising Soldiers in your Colony gives the least Obstruction to the making up your own Levies, I can't in reason ask any Encouragem^t for him; But if it be otherwise I must desire your Favour to him to releive him under his Difficulties, & particularly that the Bounty Money he has advanced may not be lost to him or this Province.

Yours of y^e 20th Instant I rec^d Yesterday as also a Letter from Gov^r Shirley of the 18th Instant a Paragraph whereof I herein transcribe Viz We have no Advice of the forces from great Britain and few dayes

further Delay will make us Conclude That it is too late to proceed to Quebeck this year. But if that should be the Case I am fully of the mind That we ought to bend all our forces against Crown point. And I should be glad Your Hon^r would engage your tho'ts on this Subject. for as soon as ever we can hear of the Effect of the Congress att Albany, I beleive M^r Warren and I shall come to an absolute Conclusion on these Affairs, and if we proceed to Crown point it must be with all the Strength we can make and as early as possible.

He excuses his Improving men to Inlist in this Colony, not being able to fill up his Levies in the Massathusetts, but makes no Mention of an Embarcation

Whereupon I thôt best to stopp the Transports that are here and att New haven and by an Express to advise you and other Gentlemen concernd, of these Circumstances Concluding that in a few days I should be farther Advisd and when I am, shall give Directions accordingly

PETER WARREN AND WILLIAM SHIRLEY TO JONATHAN

BOSTON Aug^t 25 - 1746

Sir,

His Grace the Duke of Newcastle having by his Majesty's Command in his Letter of the 9th of last April signify'd to M^r Shirley, that if Lieut^t Gen^l S^t Clair & we shall think that any other Scheme than that w^{ch} is contain'd in his Grace's said Letter for the Reduction of Canada may be more practicable & advisable, It will certainly be left to us three to do as we shall think proper; We have accordingly in the absence of L^t General S^t Clair (& as the major Part of those in whom his Majesty reposes this Trust) from time to time as we have judg'd it necessary for promoting his Majesty's Service, concerted Measures for the better conducting of the Preparations for this important Enterprize.

And whereas it appears to us from the Accounts we have receiv'd. of the Levies rais'd within his Maj^{ty's} several Governm^{ts} engaged in this Expedition, that those rais'd within the four Colonies of New England do not exceed 5000 at the most, nor those within the five Southern Colonies 2100, w^{ch} Troops together with the six Regim^{ts} expected from England, & the two lately arriv'd at at Louisbourg from Gibraltar will not, as we conceive be a sufficient Land Force for the Reduction of the whole Country of Canada, tho' the Squadron of his Maj^{ty's} Ships & Transports appointed for the Service of the Expedition should arrive at Louisbourg in time for proceeding this Year up the River of S^t Lawrence, & carrying on afterwards the necessary Operations against Quebec; w^{ch} from the advanced Season of the Year, & our not having yet receiv'd Advice of their being on their

Passage, we are very apprehensive they most probably will not; And whereas we are of Opinion that the before mention'd American Troops together with the Indians of the six Nations, which it is hop'd will join with his Majesty's Troops in this Expedition, may, if they should act in Conjunction against the french Fort at Crown Point, be a sufficient Force for the Reduction of it, even tho' no Diversion should be made at Quebec to favour this Enterprize by a Land Armament; provided it is attempted without delay—and it appears to us that this Fort being the Key of Canada on the Land Side, & the Place of Rendezvous, from whence the Enemy not only may make Incursions upon most of his Majesty's Colonies, & have begun already to commit great Devastations but may very much annoy that Part of his Majesty's Land Forces, w^{ch} according to the Plan of Operations for this Expedition transmitted to M^r Shirley in the Duke of Newcastle's Letter, is design'd to penetrate into Canada from Albany by Land (if it should be left on their backs in the Possession of the Enemy) the Reduction & garrisoning of it by his Majesty's Forces would not only be a Protection to the English Settlements on the Frontier during the Expedition, but open a more safe Passage into the Enemy's Country for his Majesty's Forces, be a commodious Magazine to 'em for Stores & Provisions, & by making us Masters of the Lake Champlain with the Passes, Defiles & Carrying Places as far as the Fort at Chamblee within sixteen Miles of Montreal, afford an easy Transportation of Provisions & Succours for the Support of the Expedition, prevent the Enemy from discovering our Motions on that Side, & put it into our Power to make sudden Descents on them; all w^{ch} would be the most effectual means of confirming the Indians of the six Nations

most strongly in his Majesty's Interest, & very probably draw over to it some of the Tribes now in the french Interest, or at least bring 'em into a State of Neutrality between his Majesty's Subjects & the French, & would, thro' the Blessing of the Divine Providence on his Majesty's Arms, very much facilitate the Conquest of the whole Country of Canada the next year, if his Majesty should then be graciously pleas'd to send early in the Spring such a Naval & Land Force to proceed up the River St' Lawrence as he shall judge sufficient with the Assistance of the Troops rais'd in America for the Reduction of Quebec & Montreal (as we have the strongest reason to hope he will); And in the mean time succours are prevented from being introduc'd by Sea into Quebec: And whereas we are perswaded that on the other hand an unsuccessful Attempt both by Sea & Land this Year for the Reduction of the whole Country (which we apprehend from the lateness of the Season, and the Weakness of the Forces raised in the five southern Colonies, that must in such Case march from Albany into the Enemy's Country by themselves, there is reason to fear might be the Case, especially if the Fort at Crown Point is not first reduc'd) would be attended with the immediate Loss of the six Nations to his Majesty's Service, & unite all the Indians most firmly in the french Interest, prove fatal to the Expedition, & afterwards produce very bad Consequences to all his Majesty's Northern Colonies.

We therefore conceiving it our indispensable Duty in the Absence of Lt' Gen' St' Clair to execute the Trust repos'd in him & us by his Majesty, in such manner as we two shall judge to be most for his Majesty's Service & the Interest of his Northern

Colonies upon this Occasion, & apprehending that the joining of all the American Forces now rais'd in the Reduction of Crown Point, in Case we don't very suddenly hear of the Arrival of the Fleet & British Troops at Louisbourg, nor receive other Instructions from his Majesty, will not only facilitate the Conquest of the whole Country of Canada the next Year, but is conformable to the Scheme of the intended Expedition, as the same has been communicated in the Duke of Newcastle's Letter, and is indeed the only Part of it that is likely to be practicable this Year, have communicated our Sentiments to your Honour; and we doubt not of your Concurrence with us in this Case for his Majesty's Service & the general Interest of the Colonies, & desire that your Troops may receive Orders from you to hold themselves in readiness to proceed upon the first Notice to Albany, where we shall recommend it also to the Governm^{ts} of New Hampshire & Rhode Island to send their Troops upon the same Service, in Case we shall not very suddenly receive Instructions from his Majesty w^{ch} may interfere with this Design.

We have signifi'd this Our Opinion to Gov^r Clinton by an Express sent to Albany, & desir'd him to get a proper Train of Artillery transported to the nearest Place of Rendezvous from Crown Point without delay to be ready for the Execution of this Scheme, & to acquaint the Officers of the Forces of the other Southern Governm^{ts} with what we propose.

M^r Shirley will order what Ordnance Stores he can from this Province which are not to be procur'd in the other Governments, & we must desire that

your Honour will provide your Proportion of Powder upon this Occasion.

Most worthy Gentlemen

The Scheme you propose in yours of the 25th of the last month is very agreeable to my Sentiments and shall impatiently wait for a Copy of that Authority which his Grace by his Maj^{ties} Co^mmand has signified to M^r Shirley will be left to your selves and Lieu^t Gen^l S^t Clair to alter the Scheme containd in the Duke of New Castle's circular Letter

I should exceedingly rejoyce if Providence should so order the matter That the Co^mmissions and Order you referr to, do come, then may we rest securely on his Grace's Declaration about the Expenses

But in Case nothing more should come than what we have already rec^d it deserves the most serious Consideration. Whether we can proceed upon it any other way than by the Authority of the several Gov^{ts} th^o the Circumstances of the present day seem to make it necessary to proceed on the Scheme you have projected. Yet not withstanding this may leave us without so much to say in favour of a Reimburs-

ment we will freely Joyn with you in making the best we can of it

Honour^{ble} Sir

the reason of my giving you the trouble of this is; that I have heard that there is a report Spread in yo^r Government that I refus^d to let Maj^r Gener^l Wolcott see my publick Letter sent to His Grace the Duke of New Castle after y^e Reduction of Louisbourg (now there are so many false Storys goeing about

that one cannot tell what to Credit) but if such a thing was reported it is false for it never Entered into my tho^{ts} to deny him and to the best of my remembrance, I calld the Council of Warr w^{ch} consisted of y^e Gener^l officers, Coll^{os} & Leiu^t Coll^{os} and read it to them before I sent it the Maj^r Gener^l was ill for some time when I was very much hurryd & wanted his Assistance

but I am Sure when Ever there was a council of Warr calld and he was a Shore I always sent for him, and Shew^d him all y^e respect in my power if people will but consider they cannot believe that I Should Show it to the Coll^{os} & Leiu^t Coll^{os} and refuse it to a General officer; Coll^o Moore of New Hampsh^r took a copy of it and sent it to Gov^r Wentworth and the Dukes Answer to it, Coll^o Burr & Coll^o Lothrop will Acknowledge that they see it, and if the Maj^r General did not see it, it must be his own fault, for he might have had a copy of it at y^e Same time to have sent you, to be Sure as I was then so much hurry'd I never tho^t of sending it to him Inclosed you have a copy of that Letter (and y^e Dukes answer to it) in w^{ch} I inclosed to the Duke a List of all the officers names that was on the Expedition and number of men Each Government sent; the Maj^r. Generals name was put next to my own, and in all the Letters I writ to England as I did to Several Gentlemen of y^e Parliment of my Acquaint^{ce} and in all my representations I made no difference in the three Colonys that was concernd in the Expedition as my Letters in England will Show, and I chaleng any person to Say whilst I was in the Camp or Citty that ever I made any difference between one Colony & another and I am sure I never did in my Publick Letter as you may see, and I writ in all my private Letters that if the

three Colonys that were concernd in the Expedition was not reimbursd the Great Expencc they were at in the reduction of Cape Breton, it would so cramp them that they would never be Able to recover them Selves

As to the officers His Majesty has been pleased to intrust me to appoint in the Regiment he has given me the command of, my desire is that Each Colony concernd in the Expedition Shall have their proportion

In a letter I received from His Grace the Duke of New Castle dated 9th April Last he writes that he was Command^d by His Majesty to recommend it to me to Use my Utmost dilligence in compleating my Regiment, and its Expect^d that y^e Several Gov^{rs} of the Colonys will assist therein

I am Greatly oblig^d to you for y^e Encoragem^t you have given my recruiting officers wth you and I have no reason to doubt but you will Still continue yo^r favours to them

I always tho^t that y^e Government of Conneditut in the Expedition against Louisbourg Acted with a Heroick Spirit, and now in the intende^d Expedition against His Majestys Enemys at Canada there geting a thousand men reddey is a brave thing and must Endeare them to Every true Lover of His nation, for if Providence should so order it, that we could remove that troublesome Neighbour the French from this contentant, I Should be in hopes that we should be a happy people

I hope next spring to take a Voyage for England & if I should be partial in my representation of one Colony more than another that was on y^e late Succesful Expedition or brave men on [it, then I ought to be censurd but untill that time, they ought to have

a favourable opinion of me, I am conscious to my Self

Sir,

I have received your Letter of the 2^d instant directed to Admiral Warren & me which I have communicated to him. At your Desire I now send you an Extract of the Clause in the Duke of New Castle's Letter referring to the altering of the Scheme for the Expedition against Canada.

I am sensible (with you) of the great Difficulties

arising in our Affairs for want of further Advices & Instructions from Great Britain; but in this Situation it was generally thought most for his Majesty's Service to undertake the Reduction of the Fort at Crown Point by the joint Forces of all the Colonies: But with respect to this Province, The Designs of a great Number of French from Canada (who are now at Menis, joined with a considerable Body of Indians) to cause a general Revolt of the French Inhabitants of Nova Scotia, which would endanger Annapolis Royal & that whole Country as well as Louisburg itself: This has much embarrassed our Affairs; & seems to make it necessary that a considerable Body of Troops should be sent immediately into Nova Scotia to prevent the Inhabitants there from joining the Canadians & driving those Canadians out of that Country. This Matter is now under the Consideration of Our Assembly; And until I have their Answer of what I have laid before them (which I expect to Morrow) I can't come to any Resolution how to proceed in the Affair of Crown Point, & every day's Delay spends the Season of acting on that Side, I am glad to hear that your Troops are in Such Readiness.

Gentlemen

By a Prize brought in here by his Majesty's Ship Kinsale the 6th Instant we have Received the following Intelligence.

Antony Rodinguez Master of the La Judith from Rochelle bound to Quebec, Says that on the 22^d June N. S. he Sail'd from Rochelle in Company with 70 Sail of Ships, Men of War and Transports, under the Command of the Duke D'Anville, with 8000 Troops on board, 14 Ships were of the Line, from 50 to 74 Guns; That he Left them on the 15th July in the Latitude of 44 54 & Saw them again the 23^d in the Latitude of 41 22. He was Taken by the Kinsale off of Anticosta the 25th august O. S. Since which we have Receiv'd further accounts by a Pilot of a French Ship also bound to Quebec, who Sail'd in the Same Fleet, &

was cast away upon the Isle of Sable the 3^d Ins^t O. S. & brought In here by a Marblehead Fishing boat. This Frenchman Says, he parted with the Above Fleet & the Duke D'Anville in a hard Gale of Wind but 2 Days before he was Cast away about 50 or 60 Leagues from the Isle of Sable, but Cannot tell whither they are Design'd but this he knows, they were very Sickly, & had buried a Great many men. There is also Come in This Day, a Vessell from Marblehead, one Steven master, who Says, that on Sunday Night last, the 7th Instant, about 10 or 11 a Clock, he fell in with 3 Sail of large Ships about 40 Leagues to the westward of a Place Called J'edore, That Soon after he was pass'd them he heard a Gun fired, & presently after that 3 more, which, he says had the Report of very Large Guns Part of these Informations Corroborating, we Judge Them of So much Consequence, to Immediately Dispatch them to You, and at the Same Time Acquaint You, That Admiral Townsend has Sent the Rye to Look into all the Ports Along the Coast of Accadie, & that so Soon as Ever She Returns You Shall be Sure of knowing what further Intelligence we Gain. We are Doing Everything that can Contribute to the Strength of this Place & Shall Unite heartily in its Defence, if the Enemy bend their Course this way, Should they visit you, you may Depend upon our Doing Every Thing in our Powers also to Assist you

William Stanwood of Gloucester Marriner and Master of the Schooner Molly of Gloucester declareth and Saith that upon Tuesday the 9th of Septem^r at ab^o 9 a Clock at Night being upon the Western Bank of the Isle of Sables about Twenty Leauges distant from the said Isle Westerly and lying to under his Foresail he came athwart a large Ship, which he supposes to be a Man of War of about 70 Guns and before he di-covered her he almost came athwart her yards; Whereupon the Declarant called to the Men on board the said Ship to bear away, and told them if they did not they would Run him down, & then they bore away a little, some Men on board said Ship called to him in broken English Saying, strike you Dog strike, at which Time he heard the People on board speak to one another in a Language w^{ch} he Did not understand, & he was sure it was not English, he being near enough to distinguish, whereupon the declarant immediately Sprung his Luff, and then they fired upon him (as he Supposes from a Swivel Gun) but mak^g all his Sail he

got clear of said Ship, after which he Saw a great Number of Topsail Vessells wth lights, and others without Lights, all Standing to the Northw^d under an easy Sail, which lights he endeavoured to count, & judges the Number of them to be about Twenty five; One Ship he Saw with a Light in her Main Top And he further saith that about a Quarter of an hour before he saw the first Ship he was in Company with a Schooner belonging to Gloucester, who lay up the same Course with him, & being about three Quarters of a Mile to Leeward, the Declarant Supposes she fell into the Midst of the Fleet and was taken by them, He having not seen her since.

I have Just now come to hand a Packet directed to Your Hon^r and one from His Excellency Gov^r Shirley To my Self Inclosing a number of Declarations taken on Oath before him & others, that a Large fleet of Ships has been lately Seen to the Eastward near the Isle of Sable & Standing toward the Land, by which they in that Governm^t are greatly alarmed, and in fear of an Immediate Invasion as appears by His Excellencys Letter To me in w^{ch} he by the advice of his Council Ernestly desires that the proper dispositions may be made in this Colony to come with Eight or Ten Thousand men to their assistance upon the first Intelligence that we may have of the Enemys being upon them. I communicated these matters of Such of the Council as are with me & Some other Gentlemen of Consequence that are here and all Seemed to be of the mind that Your Hon^r Should be desired Immediately to give orders for Strict Viewing of arms in all the Regiments in this Colony & that the Chief officers thereof be Directed to make a Detachment of the one half of their most Effective & able bodied men to be ready to march at

an hours warning, the Enemy are advanced very near us & their Strength Seems to be great for w^c reason Your Honour will Excuse our being very Ernest that the matter may be attended to without Delay, I have presumed to open the packet Directed to Your Honour which youl Excuse Seeing it was done with no other view than that your Honour Should have the Declarations Sent to me in case y^v had not been Inclosed to you.

Yours of the 10th Instant I Rec^{vd} and I take this Oppertunity to acknowledge that you have been much better to us in Ordering a number of men into the frontiers than our own Government to whom I have sent very Pressing Letters, but have not so Much as Receiv^d one Line from Boston for about three weeks, their Conduct has been Marvelous Strange. I have been told that they had Projected to send 500 of the Troops Enlisted for the Expedition, but all seems to be dropped and they are caring for themselves.

Cap^t Treat and his men are with us, he seems to be a Prudent and Careful Officer, his men are Posted for the Present, 50 at Nth Hampton, 20 at Hatfield, and 30 at Deerfield, and twenty of Cap^t Hobsons men removed from thence to Northfield, which I thought necessary till our Scouts were fixed.

many of our Sick Souldiers are Recovered and

returned to the Block Houses, and I have Directed that a small Scout be Constantly maintained from Fort Pellham, and to Cross the Road that leads from Deerfield to Albany & to go a little wide from the place where fort Massachusetts Stood, and Westwardly two or three Miles, one of which Scouts was to go from Pellham on Wednesday last, we have lately had divers other Scouts but none that I so much depend on as the beforementioned.

I have Sent an Express to Cap^t Wright at Stockbridge and tell him that at present I am most Sollicitous about a Scout that I propose to go Northward from Stockbridge to a suitable distance from thence, then to send 5 or 6 men English and Indians to travail Eastwardly 'till they had Crossed the afores^d road but a little way, and another small Party Westward so far as shall be Judged necessary, but being a Stranger to the Country Westward from Hoosuck, I could not direct very particularly how far they should go.

thus far I thought necessary 'till you should explain your self on an Expression in your Letter, wherein you mention the maintaining a large Scout from Stockbridge. I was in doubt whether you designed fifty or sixty men or more to March together or that they should have many Small Parties ranging in different parts of the woods.

If your design be to try to catch Indians a considerable number of men may be needful, but if only to make discovery a smal number may be preferable, because they can be more private & will be more Careful.

I have given Caution both Ways that they don't mistake each others for Enemies, but I dont expect that they will often see one another, and Indeed I

don't chuse they should, least they should hurt each other.

'tis very Evident from the great fear that has possessed the minds of men upon the loss of fort Massachusetts, of what Consequence they Esteemed that fortress to be. and if Crown Point should be likely to remain long in the hands of the french it seems altogether necessary that that should be rebuilt, and well man^d for the loss of it has made a wide passage, and given the Enemy a vast advantage against most of our frontiers.

If the Canadeans are knowing of a french fleet coming to our Country, no doubt but they will make some Strong Effort on the land side, which I am the more Suspicious off because they have been Spying about our Towns, and have rarely attempted to kill any Persons, whereby they seem designed to lull us into Security, and of late they seem to have been almost wholly quiet which makes us thoughtful that they are forming some notable design.

you have a great number of men Enlisted for the Expedition who must be fed and paid, and it is as easy to do it on the frontiers as elsewhere, and the Employing them in some Service that is profitable may be a means to keep them out of Mischief. therefore I think it would be of great Service to the Publick, and a kindness to the men to send 500 of them into the frontiers, which may enable us to make a good defence, and render us Capable of pursuing the Enemy with prospect of destroying them in Case they should make a discent on any of our Towns.

I am S^r your very Humble Servant

BOSTON Sep^{br} 27th 1746

Sir

The public prints from England Giving us The pleasing hopes that you with a Strong fleet of his Majesty's Ships, and a Number of Troops, was to Sail for these Seas about the beginning of last month from Spithead, in quest of the french fleet, of whose motions and Designs we Send you the Inclos'd Depositions, and Several Pilotts for the Coast of Nova Scotia, and Louisbourg, one of Which places we Apprehend the Enemy intend to Attack and from their Situation when last Seen off the Harbour of Chebucto near Cape Samborough, it Seems most likely that the Reduction of the Garrison of Annapolis is the first thing they have in View, as by that means they will Immediately add five or Six thousand Nova Scotians fighting men, to any other Force they may have brought there from France, Canada or Elsewhere: This will be the most politick part they can act in order to their Retaking Louisbourg, and annoying his Majesty's American Dominions in General. If they Aim at Annapolis and do not Venture up the Bay of Fundy, and into the Bason, it is most Probable they will land their Cannon and Troops at Chebucto, a fine harbour which lyes very Convenient for the inhabitants of Menis, and those of the head of the Bay of Fundy who will Immediately Joyn the

Enemy upon So good a prospect of taking our Garrison at Annapolis. Should your landfall be to the westward of the Isle of Sables, with very little loss of Time you may See the harbour of Chebucto which 'tis thought is the Rendezvous of the Enemy's Fleet. Governour Shirley has Sent out Several Vessells to Observe their Motions and Waits impatiently for their Return; He has made all the Necessary Preparations to Give 'em a Reception that wont be very agreable to them if they Shou'd Come this way, & has Sent a Reinforcement of Troops to Anapolis.

M^r Warren previous to our Knowledge of the French Fleets being in these Seas, upon M^r Mascarreens Representation that the Inhabitants of Menis had Stop'd the Communication between that place and Annapolis, which was a Sufficient Reason to him (M^r Mascarreen) to Apprehend Some Designs were forming against it, Sent the Chester to give it Countenance and protection, and we hope, as the Shirley Frigate is also there together with the Reinforcement before mention'd they will (if the French do not Venture their Ships into the bason of Annapolis) be able to Defend it against the land forces, till Your Arrival may Relieve them.

As M^r Warren has now no Ship to Joyn you, which he hopes, and Expects to have orders to do, he begs, if you meet this Vessell, that you may Dispatch any Small Frigate to him for that purpose, and he will, without a Moments loss of time, wait upon you where you Shall please to Direct: He has wrote to Admiral Townsend, for one, whom with Governour Knowles, we have also appriz'd of the Enemy's being in their Neighbourhood; & by Letters from Louisbourg of the 6th Instant we learn that the Following Ships were then in Port, and we believe are Still

there to wit the Kingston, Pembroke, Canterbury, Norwich, Hampshire, Dover, Kinsale, Alborough, Rye, Hind & Hinehenbrook; the Vigilant, and Torrington were gone to Newfoundland to Convoy the Trade from thence to Portugal, and England but will not Sail from thence we believe 'till the Latter End of October.

We are in very little pain about Louisbourg, the Season being So far Advanc'd that the Enemy cant keep the field to Beseige it Regularly, nor Can their Ships if Superior to ours in force there, keep the Seas much Longer upon that Coast — we have Recommended to M^r Townsend to Send Some of the Small Cruizers to meet you with Pilott, and hope this Vessell or some of the Admirals will be so fortunate, as we look upon it to be of the Greatest Consequence, to his Maj^{tyes} Service, that you Should be appriz'd of the Enemys Situation, and have People that know the Coast, which is what Induces us to give you this Trouble:

Sir

Herewith you will Receive a Duplicate of our Letter and Intelligence of the 27th Instant, Since which we have receiv'd the inclos'd letter and advice of the French Fleet from Admiral Townsend and Governour Knowles, to which we beg leave to Refer, and to Assure you that we apprehend it of so Great importance to His Majesty's Service, and to your Success with the Fleet under your Command that we have Dispatch'd three Vessels to meet you with it. We have Letters from M^r Mascarrean Gov^r of Annapolis Dated the 21st Instant, by which we find the Chester, and Shirley Frigate were there, and we hope ere this the Reinforcement of Troops Sent by Gov^r Shirley: and as the French have not in So long a time as from the 30th of August when they were first Discovered upon the Coast of Nova Scotia, to the 21st Instant (the Date of M^r Mascarreens Letter) made any attempt with Ships upon Annapolis, it may be Most Naturally Supposed, that they Intend to do it by land from the Harbour of Chebucto; But how to Account for this Cruizing off that place we are at a Loss, Unless it be upon a Supposition that they are Strong Enough to Encounter the Squadron and Troops Intended for the Canada Expedition, not Dreaming of the Addition that has been made to both, Since the Ministry have been apprized of the Brest fleets being Destin'd to these Seas: God Grant the Enemy may Split upon this Rock and fall into your hands.

The Ships mention'd in our first were all at Louisbourge with Admiral Townsend the 14th Instant,

when the Hind left that place, & will no Doubt be Kept there, as he knows the Enemys force and Situation: — M^r Warren is Cleaning the Hind (who brought us the last Intelligence) in Order to Joyn you upon the first Notice of your Arrival in these Seas, or to Employ her as a Scout, but hopes you will if you meet this Send a light frigate for him.

As we Send Severall Vessells to meet you with this Intelligence, we have Directed the masters upon Seeing you to hoist their Jacks at their Mastheads to which (after having Seen the first) you will be pleas'd to Answer, by a Dutch Ensign at your Foretop Gallant Masthead

The packet you will herewith receive, which we transmit to you open for your perusal, will show you the strength and situation of the French fleet, and what steps we have taken to apprize Admiral Lestock of them, who may be daily expected on the coast of Nova Scotia or Cape Breton. We have sent all the Vessells we cou'd possibly get here with copies of the said letters, and intelligence, and are

of opinion you cant do your King and Country a more important, and acceptable service, than by sending your Colony Sloop with the utmost dispatch with this packet to meet the said Admiral. And as we have several other vessells looking out for him, we apprehend the best route your Sloop can take will be by going round the South end of Georges bank, and run in the latitude of 43, 'till she gets to the Eastward and Southward, about twenty leagues, of the Island of Sables, and cruize there five or six days in the fair track for ships expected from England, that intend to go to the Southward of the above Island, and make the land of Nova Scotia to the westward of the said Isle of Sables, which our fleet will most probably do; and after having cruiz'd there so long, and not meeting the fleet, then to stretch to the Eastward, as far as the point of Scatteeze, upon the East part of Cape Breton, and proceed to Louisbourg, and from thence bring what intelligence and commands the Admiral and Governour may have to us here, if of great importance, or to you if otherwise. If your Captain shou'd see our fleet, and they shall have met any of our expresses, the Admiral will upon your vessels hoisting his Jack or Ensign at his Masthead, hoist a Dutch one at his fore top Gallant Masthead, but if he shou'd not have met any he may possibly hoist a Dutch Jack at his Main top Gallant Mast head, and a Spanish one at the Fore, either of which Signals your Captain may trust to, with proper caution. And shou'd your Sloop meet any of our expresses, they will hoist their Jack, or Ensign, at their Mast heads, which your Vessell will answer with the same signal; and you will direct your Captain in case of his being taken by the Enemy, to distroy your order to him, and the packet,

as their falling into the Enemy's hands wou'd be of the worst consequence.

We esteem it of the last consequence to the Colonies that Admiral Lestock shou'd be met with at Sea, as in case he shou'd be too weak to cope with y^e Enemy, without the assistance of Admiral Townsend, and be surpriz'd and overpowered by 'em the storm of their whole force wou'd be immediately directed towards New England; Wherefore we hope we may depend absolutely upon your sending out your Colony sloop with the inclos'd dispatches forthwith.

Brentnals Soldiers Inhabitants of your Colony (who belong to his Regim^t) have withdrawn themselves from the service by Persuasions or violent Detentions of their Friends; & that others have had sham Actions brought agst them to keep them from their Duty, that the Mob has rescued these Soldiers out of the hands of their Officers: & that the Magistrates in your Colony, instead of assisting my Officers by their Authority, as they ought to have done, have made a downright Opposition to his Majesty's Interest in this Point; and that divers other Men enlisted in your Colony under Lieu^t Lamson & Lieu^t Whiting are under the same Circumstances; all w^{ch} Men he says will be lost to his Majesty without your special Interposition; I must therefore earnestly desire and insist upon your Honours applying your own Authority for the effectual remedying of this great Evil, as a Duty owing to his Majesty, as well as an Act of Justice to this Governm^t, & what I am sure you would expect from me were our Circumstances in this Point interchanged; in which Case I am as sure I should think it highly reasonable to interpose my Authority for your Redress. WILLIAM SHIRLEY TO JONATHAN LAW.

BOSTON November, 8. 1746.

Sir,

This Government having been alarmed with the Appearance of a formidable French Armament, which threatned an Invasion of this Province as well as the Reduction of the whole Province of Nova Scotia, have been much taken up in preparing for our own Defence & the Preservation of Annapolis to which Place I have sent Six hundred men for their Defence, & to put that Province into a State of Safety with respect to any future Attempts from the Enemy. But the French Fleet being now gone off these Coasts, I shall attend closely to the Prosecution of the Expedition against Crown Point, & have accordingly sent Provisions, Powder & all other necessary Stores of War to Hudson's River to be ready for our Forces at Albany, & particularly I have sent our large Mortar with a sufficient Number of Bomb Shells. And I have also sent a Thousand or twelve hundred of our Forces raised for the Canada Expedition to the Western Frontiers, & shall make them Fifteen Hundred at least, to proceed in that part of the Winter that shall be judged most Seasonable for the Prosecution of this Expedition, & to join the Forces from the Southern Colonies now on Hudson's River & those from your Colony: And as this is a Matter of the utmost Importance to the future Tranquility

of these Provinces & Colonies, & the Forces of Connecticut are so well versed in this kind of War, I must intreat your Honour to take effectual Care that the whole thousand of your Forces raised for the Expedition against Canada, to be ready to Join the rest of the Troops, that this Affair may be effectually prosecuted, a Miscarriage wherein may be of fatal Consequence, I shall not have a Man taken off from this Service, more that what I have thought necessary to be sent to Annapolis. And therefore I must repeat my earnest Desire that your Honour would press this Matter with the greatest Zeal & Vigour: And therefore I send this to you by Express, by whom I shall hope for an Answer

I am with great respect Sir
 Your Honour's most
 obedient humble Servant

BOSTON November 8 1746

Sir

Being Informed that your Forces raised for the Expedition against Canada are gone into Winter Quarters & that your Government has given orders for the Disposal of the provisions laid in for their Subsistence in the Expedition against Crown Point, I have at the Desire of our assembly wrote in a very pressing manner to Govern^r Laws to have his whole number of Forces ready to proceed on this Important Expedition, your men being much more capable of

this Service than those of the Southern Colonies and as I have the greatest Confidence in your Zeal and activity to promote every thing that relates to the publick good, I must entreat you to use your Utmost endeavours that your Thousand Levies may be ready for this Service. I have sent all our Transports to Hudsons River with our provisions and Stores of war

Yours by an Express of y^e 8th Instant I Receiv^d am Sorry mine of the 4th had not Reach'd you before You wrote then I presume you Would have inform'd me of Some things ab^t w^h You are now Silent P^{ar}ticularly whether you would proceed by Virtue of the Letter you had from the D. of N Castle w^r of you Sent me an Extract or by the Authority of the Several Gov^{ts}, if you look back on Several Letters I have Sent, you may observe my poor Sentiments Ab^t it. if the King's Com^{rs} Come too late to go up S^t Larrence & orders for Altering the Plann and You Should order the Expedition by Land the way would be Clear. but if it Should happen Otherways, the Gov^{ts} by Y^r Own Authority might form Such an Expedition, (by their own Authority) which Seem'd to be the most Likely meanes to obviate the Seat of warr from our own Frontiers. for w^{ch} Purpose I should be very Ready to Call an Assembly. But the

Terrours of the French Fleet I concluded putt a Stop to it.

I Delay'd our Assembly in hopes of hearing Something from you by my Express, or the Comon Post or by Coll Williams and he Inform'd me Your Excellency Would Send by an Express before the Close of the Assembly w^{ch} he Inform'd, Would be that week, but nothing Coming the Assembly Desiring me by Y^r Vote to Direct Coll. Williams to offer a furlow to all under his Comānd till further Order from his Maj^y I have done Accordingly as by my last I inform'd You, the Stores were orderd to be Dispos'd of by the Severall Companies.

So that the Present Situation of the affair is Such that Either by the Authority his 'Maj^y has Given You you must Order his Maj^{ties} Troops in this Gov^t to proceed, or an Assembly must be Call'd to form an Expedition on their own Acc^t & it will be Necessary to be in Conjunction with yours. of Which you have Given me no Notice It has troubled my thōts very much, that So Good a Design has Seem'd to be Dropp^t throû. And what Stepp to Take next, I am Exceedingly at a Loss about. I understand you wrote to Gov^r Wolcott by this Express, but he has not favour'd me with one Word about it. My thōts will Dwell upon it and Shall Take the best advice I can.

Gov^r Clinton has never favour'd me with one Line Since he went up to albany. and am this Day Inform'd by one of our Northwestern Inhabitants That the Last week he was att Hudsons River near Livingstons manner, and there was Inform'd (as he Supposes by Credible persons) That y^e forces ab^t 2300 w^{ch} went up to the Carrying Place were orderd to Return and Some of them were actually Return To albany. A General Peace is not only wish'd for but Expected by

many and in Case Providence Should be So favourable to mankind whether it Would be Prudence to Hazzard the lives of So many as may be Spent in Reducing Such an Unprofitable Hole as Crown Point. Whether only a Feint of it and (only) a Guarding well our Frontiers, 'till Providence Shall open a Clearer Scene to us may not be the better Policy I freely leave to Your better Judgment.

I have the Agreeable Advice from our Agent of the Great Probability of the Expences against Cape Breton being Repaid.

Our Forces are Drawn off from Your Frontiers, being Sufficiently Reinforc'd by your own Troops.

Yours of the 27th ult^{mo} I rec^d and by an Express have observd to Gov^r Wolcott and other Gentlemen in that Quarter of the Gov^t the Complaints you made of the Abuses putt on the Officers you have improvd for enlisting men into his Maj^{ties} Service against Canada and have earnestly admonisht and recomended to them strictly to putt into Execution all the laws of y^e Gov^t for preventing all evil practices y^r in

The Hint you give me of an Expedition against Crown point by saying you have sent your Stores round to Albany, leads me into the dark having given me no Acc^t of it since by the coming of the french fleet and want of Orders from Home it seemed to be wholly stagnated. Our Assembly have orderd theirs to be sold, specially such of them as would not so well keep till the next Summer and might then be supplyd with new if there should be Occasion whether you propose to proceed by y^e Kings immediate Authority or y^e Governments should be glad to know.

Our present Safety is owing to y^e frowns of Providence on y^e french Armament against us.

WILLIAM SHIRLEY TO JONATHAN LAW.

BOSTON November, 17th, 1746

Sir,

Your Honour's Letter of the 12th Instant, I have before me, & I am Sorry any little Scruples or Difficulties should retard an Affair of so much Importance as I take that of our proceeding against Crown Point to be, as to the Origin of this Expedition I came into it in Concert with Admiral Warren, that his Majesty's Forces might be serviceable as far as possible towards the Reduction of Canada by Land, when the Season of attacking it by Water was lapsed, this Affair would be of little or no Expence more, either to his Majesty, or to the Governments in America, than for the Forces to receive the King's Pay & Subsistence from

these Governments & do nothing, & if we heartily & vigorously prosecute this Enterprize & God grant us Success, the Advantages must be very great, & are very visible; This will effectually secure the six Nations & a great Number of other Indians to the Number of three Thousand, an Affair his Majesty esteems of great Consequence & has written concerning it as such to Governour Clinton; And it must be very beneficial to the several Governments, because no doubt can be made, but that, if Crown Point be in Our hands & well secured, we shall Meet with little or no Difficulty from Canada, not only because of the Distance & Difficulty of coming at us, but the Western Indians will then find the Canadians Work enough at home, if Canada it self should not be taken, but another Advantage is, that this would pave the way, & give us an easy Access to Canada next Spring, if his Majesty should then revive the Expedition as seems very probable; As to the Governments forming or undertaking this Expedition against Crown Point, they have no Command of the King's Forces, but when those who have set it on foot, it must be the Interest of the Governm^{ts} to provide Subsistence & every way encourage it, rather than grant Subsistence as they do & have agreed to, & have the Forces all idle & useless; I must therefore Press your Honour to send your Provisions & Stores as soon as possible to Albany, before Hudson's River be frozen, that the Forces may be ready to take the most favourable Opportunity to go to the Attack of Crown Point Fort, which some of the best Judges say is in the Winter, his Majesty's Forces in this Province are all gone or going to Annapolis & in this Expedition, & as none of yours are designed for Annapolis, it is expected they all join in this Undertaking against Crown Point,

& that they be held in readiness to march immediately when the best Opportunity offers, & when the Forces among us march, which will be soon, & of which you shall have Notice, & I have written by this Convenience to Col^o Williams accordingly.

You must be sensible that Harmony in the several Governments in their Proceeding about this Affair, tends greatly to its Success, And I hope your Government which has always been so forward & exemplary in good & publick Undertakings, will not be backward as to what is expected from them in this.

I am Sir, with very great Respect

Hon^{ble} Sir

This waits on Your Honour to advise You that last Night Cap^t Burnham arriv'd & bro^t a Packett from Gov^r Knowles for Admiral Warren, & in his absence for Gov^r Shirly. All the Inteligence he brings from Louisbourg, (which place he left the 10th Ins^t) is, that Adm^l Townsend sail'd for England the 9th Ins^t with 4 Capital Ships, 2 Snows, 1 freship, & a french Prize, taken sometime since; that M^r Walberton went with him; And that Gov^r Knowles was soon to Embark for Boston, they are still Sickly in the Garrison 4 or 5 dying daily. They have advice there that Admiral Lestock, has landed his Troops on the Island S^t Martins, in the bay of Biscay. The Rhode Island Sloop of Warr, & all the Transports are on Shore att

old Town, but all save one like to be gott off again. Mad^m Warren being in Town, (on her Passage for New York, haveing lately taken leave of the Adm^l at Newport, he being soon to Embark for England) has taken the Packet to forw^d to the Admiral.

This goes by Express to Acquaint your Honour That I have, with the Advice of his Majesty's Council of this Province in Consideration of the present Disposition of the Six Nations to join with us, & the Rupture which they have already made with the French by killing five of their People & taking Nine Prisoners, & the Advancing of the Winter Season, given Orders for our Forces marching without Delay to Saratoga, And I suppose some part of them will be moving thither from the County of Hampshire (where they have been posted there six or eight Weeks) within two or three Days, & the rest will follow with all possible Dispatch.

I must therefore pray your Honour that you would give effectual Orders that your whole Forces may march without Delay to Hudson's River with all Stores & Implements necessary for carrying on this important Enterprize before the proper Season be lost, & to join the Forces of the other Colonies that may march to Crown Point in the most favourable Season for their passing with Safety, & for hindering the French from sending Succours

In Conversation with Col^l Burr last Week, I perceived by Him he Supposed y^r Honour had not acquainted the Duke of New-Castle, what this Government had done, in raising Forces for the King, pursuant to his Directions, signified by his Grace's Letter of Last April. Which he Supposed, as well as my Self, to be necessary, in Order to the purposed Application to be made by our Agent, in behalf of the regiment here raised for the King's Service, having the desired Effect; The Duke justly expecting to be Informed by y^r Hon^{rs} own Hand, what the Government has Done, &c. We judged it therefore Necessary to apply to y^r Honour for that Purpose, which he assured me, he would do on his return; and thought it best I should Send a Messenger (as I now Do) on purpose to wait upon y^r Hon^r for Such a Letter, that it may go wth y^e other Packets, not doubting but that y^r Hon^r will apprehend the Propriety and necessity of it. Yours of y^e 30th of April and y^e 10th of may Last I Rec^d a few Days ago with the inclosed Copy of a bill about y^e paper Currancy which I Laid before the General Assembly then Sitting who have considered the matter and Desire me to give you the following instructions together with the short Hints hereafter mentioned as the grounds thereof Relating to that affair viz

1st our ancestors obtained this Colony by purchase and Conquest and with much Difficulty at a great Expence of money and by y^e Loss of many Lives and by their only endeavour Expence & Charge subdued and improved y^e Country which thereby became a Considerable enlargement and addition to y^e Dominion and interest of y^e Crown in these parts as may be seen fully set forth in our Charter and is given as a Reason in said Charter for granting those Priviledges therein contain'd

2 That we have always been at y^e whole cost and Expenc in Defending y^e people of this Government in all times of war of which there have been many and have also Assisted our Neighbouring Goverments

in their Defence as often as occasion Required and have Never cost the Crown at any time any thing for our Defence.

3 That we have been always Ready to furnish our quota of Soldiers and to grant all supplys for the Support of the war that has at any time been Required of us by y^e Crown which we Did without making use of our Credit until the year 1709 when her Late majesty Queen Ann ordered an Expedition against the french at Canada and that this Government should furnish her Majesty with a Number of Souldiers and supply them with provisions and pay them ourselves for that Expedition our Silver and Gold being then all Exhausted by former Expences & y^e undertaking being so great a burden on this Colony that altho they Chearfully obeyed her Majestys orders Yet they Could not then have Done it had not they Made use of the Credit of the Colony which they then Did by Creating and issuing y^e first bills of Credit that Ever were Emitted in this Government wherein they followed the Example of y^e Massachusets Colony who had Done y^e Like Seven years before

and that her Said Majesty in the years 1710 & 1711 ordered two Expeditions more against the french the one to Port Royal the other to Canada in both which in obedience to her S^d Majestys Commands this Government Sent their proportion of Men paid and supported them but were obliged to make use of their further Credit and accordingly Emitted bills of Credit for y^t purpose by means whereof the Government were very much in Debt and unable to pay the Same for many years but a little before y^e Spanish war the Governments Debts were Reduced to about six thousand pounds or less but then agen to Enable the Government to Comply with his Majestys instructions

concerning the Expedition to y^e Spanish west indies this Government was oblidged to Emit Larger sums of such bills of Credit and also for the answering the present Extraordinary Expense in supporting y^e war both by Sea and Land against French & Spaniards have Done y^e Like without which this Government under its present burdens & Expence could not possibly bare a sutable part against his Majestys common Enemys.

4 That at all other times there has been No Emissions more than to answer the Common Expence of y^e currant years Respectively which have been sunk by taxes Laid upon the people from time to time Exceeding the Emissions, save only two Emissions on Loan the one of about fifty thousand pound of our old tenor bills y^e periods for y^e payment of which are Expired and all y^t Remain unpaid of that Sum the assembly in May Last ordered to be sued in and appointed agents for that purpose who now have y^e business in their hands.

and the other a Loan of twenty two thousand pound of our New tenor bills the period for y^e payment of one half of which is past and for y^e payment of y^e other half will be in May 1748. which will be complied with as Exactly as may be.

5 That this Government tho' formerly they made it obligatory on persons to take their bills of credit in payment of Debts which was with on exception of Contracts for currant Silver money & was founded on a presumption such bills were understood to be Contracted for yet for Nine year Last past there has been no Law to take Effect for that purpose neither are they now a Legal tender with us but only when Contracted for. therefore it plainly follows that had not the Neighbouring Goverments gone much beyond

us both in Respect to the quantity of y^e bills of Credit Emittid and in making it obligatory on persons to take them in payment of private Debts (in which Cases we leave them to Justify or Excuse themselves) there had been no Just grounds for those matters contained in y^e preamble of y^e S^d bill therein Set forth as mischiefs to be Remedied.

6 That his present Majesty and his Royal Pre-desessors in their Princely wisdom and goodness have always in their orders and instructions to this Government Considered us as enjoying the Priviledges contain'd in our Charter Different from y^e Constitution of those plantations y^t are under his Majestys immediate Commission & Government we have therefore observed that his Majestys instructions to us Respecting affairs of Government are always very Different from those given to his Governours under his immediate Commission those to us being always to the Governour & Company of this Colony as one body agreeable to our Said Charter and therefore we suppose it is that his Majesty never tho't proper to transmit to us or to y^e Governour of this Colony any orders or instructions for y^e inserting a Clause in any act made for y^e Emitting paper bills that the Same Should not take Effect until y^e S^d act should be approved by his Majesty. but only to acquaint this Colony with what instructions he hath given to his Governours under his immediate Commission Respecting y^e paper curran-cy and that we in that matter Should Conform to the Act of Parliament passt in y^e 6th of Q. Anne and to the Sense of y^e house of Commons therein we never have had any orders or instructions from his Majesty inconsistent with our Charter priviledges nor have we ever refused or neglected to pay a ready obedience to his orders it hence follows that this Colony has given

no occasion for inserting those things that are contained in y^e introductory part of y^e Last paragraph of y^e S^d bill and as we are not within the Reason of y^e bill So it would be Exceeding hard & as we conceive contrary to y^e Natural Rights of English men to include us in y^e Enacting part thereof.

7 That the body of y^e S^d bill in the fore part of it is Calculated intirely to prohibit the Plantations Creating and issuing bills of Credit on any account whatsoever but then so as that nothing shall be Understood to Restrain his Majesty from authorizing and empowering by his Royal instructions any Governour &c. to give assent to any such act &c. on which two things are observable first that his Majesty as has before been observed never understood that y^e Royal assent particularly to be given was necessary to any acts passed here agreeable to Charter which only Limits us to make acts not Contrary to y^e Laws of England. Secondly that such a General prohibition will intirely cut this Government of from using their Credit in extraordinary and Sudden Emergencys of Goverment when our Credit is most wanted and without which we may be Sunk and Destroyed by a Common Enemy and without which we shall be unable to obey his Majestys orders in any Expedition hereafter to be made nor can we now possibly support the war which to us is Exceeding Expensive in building and maintaining a private Ship of War to Cruise on our Coasts & Defending our wide Frontiers against incursions from y^e Enemy

8 The Enacting part of y^e Last paragraph of y^e S^d bill at once if it Should pass in parliament would Strike out of our Charter the fundamental priviliges Contained in it and abridges us of y^e Priviledges the Kings subjects in the Nation Enjoy (of which none

are more Loyal than those of this Collony) which we cannot believe a British Parliament will at once Deprive us of, for now by our Charter we have a General power and Authority to Make good and wholesome Laws &c. not Contrary to y^e Laws of England that being the only Limitation or Restraint Laid upon our authority and priviledge (which we have always used with utmost care and Caution and on the Least intimation from his Majesty y^t we had transgressed y^e Limits afores^d we have Readily and Chearfully Corrected y^e Same accordingly)

but if y^e afores^d bill Should pass our authority to Make Laws will be Limited and Restrained by y^e Royal orders and instructions. that is to say that whereas we may now Make all good and Wholesome Laws not Contrary to y^e Laws of England it will then be that we may make such Laws not Contrary to the Kings orders and instructions from time to time to be given which also Extends to all matters as well as to those Respecting y^e bills of Credit.

therefore you may See that as this Colony have Even purchased or Conquered the Lands contained in their Charter and as English men have a Natural and Civil Right to Enjoy their priviledges so this bill if it passes will Deprive us of great part of that which we have such a Right unto at y^e Expense of so much of our Bloud and Treasure. I am therefore in behalf of y^e Colony to Direct you to make a vigorous opposition against y^e passing of y^e S^d bill and to Represent us in that Light we truly ought to stand in by which it will appear we ought to be in Diverse Respects Distinguished from other Plantations and to object particulary against those parts of y^e bill which is herein before pointed out as being more immediately hurtfull to this Government and further that y^e Last

paragraph which is now Expressed in such General terms if any thing of that kind must pass y^e it May be Limited to acts Respecting bills of Credit only which even then will Exceedingly hurt and weaken y^e Government but not give it such a total and fatal Stroke as it must unavoidably Do if So General as now it Stands but if the Parliament Should think proper to fix y^e Standard of Money and Determin what shall be y^e money of y^e Plantations and oblige them to Conform to such a Standard and Determin y^e quantity Each Government shall be Limited not to Exceed in their Emissions or have subsisting and passing at any one time this Government has nothing to offer against Such an Act but the bill aforesd if it passes will Cashier us of our Priviledges of which we have made no forfeiture which we cannot believe the Parliament will Do and indeed to Deny us liberty to Emitt our Bills or Notes payable at a Set period not making them obligatory (as is the present case) would be to Deny us a Liberty which every Single Subject enjoys

S^r these hints together with such other and better Reasons as you and your Council will be able to make use of we hope will prevent the passing of those parts of y^e bill which so immediatly affect this Colony I make no Doubt but youll use your Endeavours to Serve the Colony in procuring the best Counsell to maintain and Defend us in our just Charter Rights and Priviledges and the Natural rights and Liberties of Englishmen what Expence you Shall be at in these Affairs please to Draw on us for and your Bill shall meet with due Honour I am &c

GEORGE CLINTON TO WILLIAM SHIRLEY.

EXTRACT FROM GOVERNOUR CLINTON'S LETTER TO GOVERNOUR SHIRLEY.

NEW YORK 19th Decemb^r 1746/7

Sir

I had the favour of your Excellencys dated the 10th inst. by Express about 5 in the Evening the 14th, we had just then a Prize come in, one of the Chebucto Storeships, which occasioned great uneasiness in the City, she having some Cottons & Woolens on board which prevented my returning the Express, as

* This action of the General Assembly is not recorded in the Colonial Records.

did also a Ship just going for England that I was oblig'd to Send Duplicates by, & have but just now dispatch'd her, and another thing that inclin'd me to keep the Express was the hopes I had of hearing something from Governour Laws, but am told this morning that their Assembly dont meet till the Week after this, which I am afraid will make it too late. Inclos'd I send your Excellency the report of the Committee of Council made to me this morning which is the opinion of most of the Gentlemen here that know anything of the Country, however your Excellency may be Assur'd of all the Assistance I can give agreeable to the Opinion of the Gentlemen of the Council.

I sent for Col^o Roberts down from Albany purely to meet Brigadier Waldo, that we might have Consulted, who I propose shall Set out to Wait on your Excellency in two or three days, with Instructions which may prevent losing time.

WILLIAM SHIRLEY TO JONATHAN LAW.

BOSTON Dec^r 22. 1746.

Sir,

Yours of the 17th Instant I have receiv'd; In Answer to which I beg leave to say, that I am sensible it depends on your Assembly, & not upon your Committee of War to order the Sending of Provisions to Crown Point; and from the Spirit, with which the Assembly of your Colony has hitherto acted, I could wish t[] had been sitting, when you received my

Letter. But by the accounts I have from Gentlemen here, thô the River had been frozen up before that point could have been determined, the transporting of provisions would not have been impracticable; And I am in hopes from what I have heard Col^o Williams declare h[] lately, that the Complaints of your Officers at not having yet receiv'd either Commissions or pay might be got over without Difficulty. As to the Force's (I suppose you mean that now proposd) being insufficient for an Attempt against Crown point, it is as strong as that w^{ch} was propos'd from the beg[] being 1500 Troops from this Province, 1000 from your Colony, 1500 from New York, the 500 Jersey troops, 300 Pensilvania Troops, 300 Maryland, 100 Virginia Soldiers, in all 5200 men, a sufficient number in my Opinion to go against Crown Point. The small Pox's still prevailing in the western Army was unknown to me, when I sent my Letter. That is Indeed a discouraging Circumstance & deserves to be considered. As to the Sentiments of the Assembly of New York in this Affair, I have reced Gou^r Clinton's answer to my Letter upon it, with the Advice of His Majestys Council for that Colony to his Excy upon my Letter; & neither of 'em take notice of the Declaration of their Assembly as an objection in the Case. From whence you Collect that his majesty has laid aside the Expedition against Canada I dont know; I think rather the Contrary is to be inferr'd from his majestys not having yet signified to any of his Governours upon this Continent that he has laid it aside; many accidents indeed hindred Gen^l Sinclair & admiral Lestock from proceeding in it this year with the Armament under their respective Commands, 'till the Season w[] too far Advanc'd to Admit it; and thereupon the Squad-

ron & Forces destin'd for that Expedition are employ'd this Winter in other service an argument rather as it seems to me, that we should likewise [] employed his majestys Forces rais'd here in a service, which besides [] Other immediate advantages Radounding to the Colonies from it (should it Succeed) would greatly facilitate the Conquest of Canada next year—as to admiral Warren, he is gone home with a View of forwarding the Expedition, and Admiral Townsend was designed to go home this year even if the Expedition had proceeded the last Summer. But was it Evident that his majesty had laid aside the Expedition, as you think, that is upon all Accounts (in my Opinion) the Strongest argument that can be made use of why the Colonies should at this Juncture push on their design'd Expedition against Crown point, when they have a stronger Force Assembled and in pay than they are likely to have again soon; when the Indians of the Six Nations have taken up the Hatchet against the French, & seem ready to Assist us in the Expedition; and the Government of New Hampshire is forming an attempt against Cape Francois with a Body of 500 of their Levies besides Voluntiers, w^{ch} must greatly favour an Expedition against Crown point by the Alarm and Diversion, it will give the Enemy at S^t Francois if Carried on at the same time with that, as is propos'd. I can't be of your mind for the reasons mention'd in your Letter, that the Expedition against Canada was sett on foot by his majesty's ministry in appearance only, and for reasons of State, especially as I have had the honour lately to Receive Advices from a very principal Gentleman in it declaring the Contrary. If you mean by saying in your Letter "that you "Remember I & M^r Warren were of Opinion that

“the Forces Expected from home with all that were raised in all the Governments were insufficient to enter Canada” that we were of Opinion such a Force was not sufficient to Attempt the Reduction of Crown point, which you seem to do by the Drift of your Letter, I can't Recollect that M^r Warren & I ever declared ourselves of that Opinion; I am sure it is very far from being mine at least; & it must be a misconstruction of some loose Expression in one of our Letters, upon which your Honour grounds such a notion. From whence you Apprehend that one half of the propos'd Forces of this province are either sent another way or not rais'd, I can't Say; not more than 800 men according to my Calculation, are sent by me to Annapolis Royal, and I believe I may have told your Honour in a former Letter that about 2500 men were rais'd here in the whole, which I take to be fact, & believe that rather more than that Number has been raised here. As to the New Hampshire Levies I have already informed your Honour that they are to be employed agst St^t Francois, w^{ch} in my Opinion will more favour the propos'd Attempt of the other Troops against Crown point, than if they were to join with 'em in it. As to the Troops raised in the Colony of Rhode Island, they are indeed all destin'd and have actually sail'd for Annapolis Royal, thô they met with Accidents in their passage; But whether they reach that place or not that Government has thereby declar'd it self of Opinion that the Forces rais'd there should be employed in some service for the Publick good.

I can't think with your Honour in that part of your Letter, where you say, that “the Footsteps of Providence in our many Disappointments should teach us to be still and stand upon our own Defence,

“till his majesty shall be pleased to undertake in so
“great an affair;” on the Contrary I think providence
seems to encourage us to act offensively against our
Enemies by having so highly favoured us in our
late Attempts against them, and to have frowned so
remarkably upon them in their most formidable At-
tempts against us, Witness the Reduction of Cape
Breton, & preservation of Annapolis Royal owing in
a great measure to our setting that Expedition on
Foot, & the late Disappointment of the French Fleet
on the Coast of Acc[] by a Providential Train of
Disasters, and I must freely own to your Honour,
that it ever was my Opinion, since I have been ac-
quainted with the Affairs of New England, that con-
sidering our Superiour numbers to the French of
Canada, & their method of inciting the Indians to de[]
our Frontier Settlements in time of war,
and to murder our Women & children, it would be
the least Expensive and most effective manner of
protecting and Defending our selves against 'em, for
us to Act offensively, and annoy the French in their
Settlements: Indeed I can't think what sufficient De-
fence we can well propose for our Frontiers against
the Incursions of the Enemy, whilst they remain
masters of Crown Point; There seems to me to be
none but to wrest that Fortress out their hands;
and our holding possassion of that with Annapolis
Royal might indeed go far towards effectually de-
fending us against 'em tho we should not act offen-
sively; and as to our staying 'till his majesty shall
undertake in this Affair, I dont think we can reason-
ably expect that his majesty will ever undertake more
in the particular affair of Crown Point, than he has
eventually now done, nor indeed so much; if this op-
portunity is not made use of by us, especially when

it is Considered that this Fort is an Inroachm^t of the French upon his majestys Territories, w^{ch} the Colonies by an unaccountable Inactivity permitted 'em to finish when they might easily have prevented it.

I am glad to find your Honour agrees with me "that a successful attempt against Crown Point might well answer all the Ends I propose & especially since some of the Indians have taken up the Hatchet "against our Enemies" For my own part I acknowledge that the retaining of the Indians of the Six Nations in the English Interest & engaging 'em in the present War against the French are matters (in my opinion) of so great Consequence to his Majestys Colonies, that it was the principal motive with me for promoting an immediate attempt against Crown point, since there would be the utmost Danger, as I Apprehended of our Losing 'em, if we let drop all Attempts against the Enemy this year, in which case it would indeed be much more difficult for us either to defend our selves, or annoy our Enemies, than it is at present.

After having said so much in former Letters upon the Affair of the inlisting Officers employed by me within your Government, & perus'd what you have said in answer to it in your Letter, I think it would be a needless trouble to you for me to say any thing further about it.

I am Sir

Your Honours most Obedient

Humble Servant
